

57. If the College were to offer a structured package of courses in which you are guaranteed a seat and completion of your

Yes 87.9% 820

No 12.1% 113

Please explain Respond below 285

answered question 933

skipped question 198

**Num
ber Please explain**

- 1 It will be easier for students to follow one plan that is already presented and done for you.
- 2 I'm guaranteed a seat
- 3 It would do away with the anxiety of not getting your classes
- 4 FOR SURE
- 5 This is why i am still here at this college.because this college oferes school for working dults
- 6 WHO wouldn't do this? (unless your undecided on what Major a person wants)
- 7 Because I wouldn't have to take classes I don't need, and that was be a more motivational. It would be awesome !
- 8 it would be easier than dealing with trying to enroll in classes without any guidance.
I am the type of person that loves getting things done ASAP and having a guaranteed seat would make my life so much
- 9 easier!
- 10 Sounds good.
I'm not sure I would be able to attend a specifically structured education plan-availability may be an issue depending on
- 11 class times
- 12 Maybe- it would depend on whether it truly for into my goals
- 13 No sure
- 14 I am already going to graduate in August.
I think it's a good idea for most students but I would prefer to take classes I want in my own pace. It's a really good idea,
- 15 though!
- 16 I am already done with my undergrad education.
- 17 I would most definitely enroll. It would be very helpful in saving time and remove some stress during registration.
- 18 I would really like to focus in what my major is about.
- 19 I find that the best way I can learn and still work full time is to take classes slowly, one or two at a time.
- 20 If the type of career requires so
Being able to obtain a degree in a shorter amount of time is most achievable for me since I work full time and have a family
- 21 to take care of.
- 22 CWA implement such approach
Instead of transferring to 4 years universty, i would stay and contiune my education if i can complete my degree in lesser
- 23 time. And also I respect the structure and system of Canada College.
- 24 I am enrolled at Willamette University
- 25 I want to graduate
But I would be concerned as to how affordable that would be. And it would be helpful to have classes that are guaranteed
- 26 transferable, needed for major.
- 27 I am almost done with my classes
It would be ideal to stay on the same track with my sep as planned. But things keep happening with life and my children.
- 28 Which takes priority over me.
- 29 i guess it would help speed up the process for my graduation
- 30 Might have if it lead to transfer.
- 31 It will go faster
- 32 because i want to earn a teacher certificate
- 33 It's nice knowing you are going to get the class you need
That would make life and school much easier and be able to work with school around my work schedule for someone like
- 34 me who works full time and going to school.
- 35 A guaranteed seat and completion sounds great.
I am currently in the CWA program and really appreciate that it fits my time schedule and allows me to not feel overwhelmed
- 36 by my outside life.
- 37 I'd still need to work FT.
- 38 This structure seems to be on trend right now.
- 39 I am currently enrolled in CWA
- 40 Sounds like a good deal.

41 with a definite 2 year plan and a guaranteed seat i wouldnt feel as though i wasted time.
42 I am pre-nursing and just knocking out my prerequisites; this wouldn't apply to me.
Would make me feel more secure in my educational goals and help me focus on what to accomplish in order to obtain what
43 is needed to graduate in the field I want.
44 It might be hard if I was working and I couldn't do a class in the program
45 Who wouldn't? It's a guarantee and a path.
46 I'm a mother and I want to graduate as soon as possible.
47 I would feel safe.
48 Already a student of Notre Dame
It sounds like a good idea for someone looking not to transfer to a 4 year university, but for me I like taking classes that go
49 toward my goal of getting into a university.
50 I could focus and be well organized a lot better.
51 It's more efficient and organized that way.
52 This needs to be happens
53 Awesome for me
54 I would like to join the workforce faster and this could help
My first priority right now is to raise my 2 kids. The classes are an extra. Perhaps in a few years this would become a
55 higher priority for me.
56 I'm not currently looking to earn a degree.
57 Most definitely! Cohorts are great
58 don't need another degree
59 Because it seems very beneficial
I am taking classes at Canada College to refresh my education skills. I have already graduated from San Jose State
60 University
I am planning on transferring to a 4-year college or university as a junior after completing my first two years of education
61 here
62 I would enroll because I feel it would be an effective way to earn a degree.
63 I would definitely enroll in this program to be able to transfer to a UC in a timely manner.
64 I don't need a degree
I would love to finish my degree within 2 to 3 years. My major is children development to become an elementary school
65 teacher. I have to take 5 years of school to do so.
66 I already have a degree. This would not help my position.
I would like to enroll in a structured package of courses which will culminate in my graduation and getting my degree in 2 to
67 3 years. That would be wonderful.
68 N/A
69 it will be an easy way to stay on track
70 It gives room for getting high pay job in little time frame.
71 I like programs that are straight forward
If I had this option when I started taking classes at Canada, it would have been helpful, although I was able to get all the
classes I needed (which may have been due to the fact that I was a student athlete and got priority registration). I feel that
72 this package could help a lot of other students who need extra guidance or help staying on track.
73 A guaranteed seat and completion of degree is definitely a plus.
74 I am a concurrent enrollment student
75 I like, but I first want to learn English.
76 I wanna finish faster
77 I want to earn my degree quicker.
78 If I knew exactly what I wanted to do I would, but I would have to be 100% certain.
79 it might be helpful for some students
80 it's a friendly environment
81 because that way I have a "schedule" and will stick to it until I accomplish it.
I am looking for a place where is close to home and is also in a nice environment. For my own experience I would stay
82 longer at Canada.
83 I would like to take baby steps to get where I want to go. I want to enjoy the journey and not burn myself.
84 If I can avoid the risk of not getting the class I want by taking the whole package then yes.
85 I am not looking for an Associate's degree
86 It would make transferring much more easier
87 I look at Canada College as a stepping stone in the right direction to get into another 4 year college that I am pursuing.

- 88 No
- 89 but that it be my preference (major choice, not including the working adults program)
- 90 I am currently enrolled in the CWA
- 91 easier to see what i need to get to my goal
- 92 Sounds great and easy.
- 93 The convenience would make my experience more reasonable to complete my goals.
- 94 I am going to a private school once I graduate high school.
- 95 But I will see it as a reference pattern to consider
- 96 Already have a degree, not looking to get another.
- 97 I would like to complete that at a 4-year university
- 98 I like the guarantee that the system is helping me achieve my goal
- 99 everyone has a different work/family life
- 100 If the degree was one of the ones that I was looking to get.
- 101 I'll be finishing my BA degree
- 102 DEFINITELY! GETTING DONE ON TIME NEVER HAPPENS!
- 103 Because I could continue to work in the field sooner
I would have in the beginning but not now. I cut my certificate to a shorter one to finish because the classes I need for the
- 104 advance certificate are impossible to get.
- 105 I would
- 106 Maybe, but I have already taken many classes.
- 107 It's much more simple when the program is structured like this
- 108 More discipline is better for me.
- 109 I need to adjust work load according to what I'm working on at my day job.
- 110 CWA provides that.
- 111 Yes, this would greatly entice students to focus and complete their education in a timely fashion.
- 112 I have no intention of a degree from Canada
- 113 sounds appealing
- 114 I'm currently enrolled in the CWA program.
- 115 because it helps me to plan more carefully the time i would like to spent studying
- 116 It would be easier because you already have in hand the classes without having to worry of it getting full
I'm not sure of what is meant by this question. Is this in reference to an associates degree? I'm not sure if this could apply to
- 117 the degree I want to attain, but if so then I would consider enrolling.
- 118 Already have that option through CWA
- 119 I would enroll but it would also depend on my work schedule.
- 120 I already have a degree so need just need a few classes to fulfill requirements.
- 121 It would make it easier to know exactly what classes to take to graduate.
- 122 I am not working toward a degree.
- 123 that would be so helpful for students
- 124 Im already in CWA program
- 125 I have to work full time and can only go to school for part time. I am also a single mother.
I have a general learning disability that makes it hard not to have a structured package with counselor involved to help; It was
- 126 hard for me to find help even though I was in all the possible programs.
- 127 The requirements for transfer and/or a degree are very unclear right now
- 128 I'm still not sure what my goals are.
- 129 I do not know. I have a family and work my classes around them.
- 130 Yes I would because it's easier when you have a road map so to speak.
yes it would help with the layout of a students needed credits and limit errors due to overcrowding. In addition, the should
- 131 could better designate which courses need to be taken first such as history 101 followed by hist 102
- 132 For convenience and a set schedule for those years.
- 133 Because I will receive my degree
- 134 I would like to be a professional in different career. Especially in English.
- 135 I am currently enrolled in College of Working Adults.
- 136 This way I would know exactly what I needed to do to stay on track and be done in the most efficient manner possible.
This makes the process for those set on achieving an educational goal much more organized, promising, and generally
- 137 helpful.
- 138 It would be helpful for people that do not have a lot of time to spend at school.
- 139 Master's program in nursing (if Canada partnered w/ another university to provide a master's degree)

- 140 I would say yes because then I can't start my career early
- 141 I am looking for a school with a reputation of past graduating classes.
- 142 Is this not happening yet, and if not, why?
- 143 CWA
Although am close to graduating, I think this would motivate students as they have a particular agenda and the responsibility to achieve what they are applying for. Many students take up spots in important classes which they later drop or never attend so by having this implemented the school can pursue to have students that care about graduating and
- 144 transferring.
- 145 A great and practical offer
- 146 It will depend on the schedule if it's doable.
- 147 Working too much and already have a BA
- 148 I need to focus on one or two classes per semester to allieviate stress
Yes, information is available regarding what classes you need etc., however, if there was this option when I first started I
- 149 would have taken it. Just takes all of the guess work out of it.
- 150 I would love to enroll because it sounds like it would be more easier like that
It would be great for me because, I'm behind towards getting my AS in fire science for withdrawing an EMT class. Taking a
- 151 program like this would be great because I feel like I would keep me on track
I feel that it would differ from some schools and others. That is something that I would not want to happen. Lets say that I can transfer and what not, but I still need some other course for a certain school. I think it would be a useful guide to
- 152 whatever major someone is pursuing.
- 153 I want to try
Now it is too late for me, but if there was something like this I would have definitely been interested. Having a structured package makes everything easier especially for those that are going through college by themselves and the first in their
- 154 family like me.
- 155 I think I will take it since the university is too expensive and I can able to save money and help my family.
- 156 Not able to take more than 6 units per semester due to personal obligations
- 157 That is ideal. I would do that program and recommend it to others
- 158 That's why I enrolled in CWA
- 159 Time value of money!
- 160 That sounds like a good idea.
- 161 it's what I'm trying to do now, without the structure or guarantee
- 162 i'm in the RadTech Program
- 163 I don't have time to loss, the faster the better.
- 164 I think this is a good idea for working people.
- 165 I'm already enrolled in CWA
- 166 YES, IF AM STILL ABLE TO WORK DURING THE DAY
- 167 Have taken most of the classes already.
- 168 hard to get into classes you want
- 169 Yes, definitely. I am enrolled in a program such as this.
- 170 I already have a bachelor's
- 171 anything to fulfill my goals in life and that can be undarstandable in order to have a future
- 172 I'm a mother and I'm trying to take as much classes as I can to finish soon my classes.
- 173 It would be faster and organized and I would have a clear guidance to what I need to complete.
- 174 CWA has been very helpful to my needs
A lot of students come to Canada for specific programs, like radiology. Only taking 20 students a year causes some to delay
- 175 their goal or miss out on an opportunity altogether.
- 176 But I don't know if my work schedule would work with it.
- 177 With combined physical engineer a logical disabilities, I do not believe that would be the best option for me.
- 178 bc everything would be set up
- 179 The faster the better
- 180 Full time work means I need to be flexible in the course load I take on
- 181 I like the courses that my counselor decides on
As long as I would have some flexibility as to which classes I can take or being able to, if I want to, to take an extra elective
- 182 or class for myself
- 183 Because I have a B.A. degree, and need a job.
Yes, I would totally enroll in this program if it was availible and will if it is. I think this is a great way to guarentee graduation
- 184 out of a community college and a successful transfer to a 4 year.
- 185 Additional motivation.

- 186 i hate fast pase classes
- 187 I'm halfway thru CWA and I would prefer more options versus the structured courses to meet the educational goal
- 188 only taking some classes
- 189 now i've learn to give it my all if I take on a challenge.com
- 190 It would motivate me
- 191 It would be way less stressful
- 192 Maybe
- 193 This would make it easier to graduate quicker. This is a better idea than having all of these coueslor meetings.
- 194 I like a guarantee.
- 195 Guaranteed a seat and degree!!!!
- 196 i would enroll, that would seem very helpful and easy to enroll to the classes you need.
- 197 My dream is to graduate but being single parent it reallys taken time for that
I will love to start working as Medical Assistance as soon as possible. I want to get my certificate and be a graduate from
- 198 Canada College.
- 199 I only need a few more courses
- 200 depending on the structure- mywork schedule is a little crazy but I would love that opportunit
- 201 It offers guidance and a definite tine frame
- 202 Guaranteed seat sounds solid, though I do like to take classes are aren't related to degree.
- 203 A guaranteed seat and completion of the degree I want in a short amount of time, why not? sounds good.
- 204 wish to earn masters
- 205 I would prefer a program that helped me finish in two years.
- 206 Of course, if they want to have my career as soon as possible.
- 207 I plan on getting my associate degree in two years.
Of course!! Only if I were undecided in my major or if this structure did not cater to a diverse preparation would I not
- 208 participate.
- 209 If Canada had a nursing program I would enroll.
- 210 Would be easier for me, not to drive somewhere else where it is farther and expensive.
- 211 Work full time
- 212 I want to finish as early as I can, in order to have a job and practice.
- 213 It all depends on which courses they are, and whether or not they would satisfy my transfer requirements.
- 214 I would most likely enroll, yes. This would be encouraging to know from the beginning of my time at Canada
- 215 It will be easy for me to concentrate in my major.
To not have to wait for courses that you absolutely need to graduate when you know your intended major is perfect. I hate having people take a class I need because they just want to see how it is and then drop it when they don't like it. Waste of
- 216 money, time, and space for people who really need it.
- 217 it may be overwhelming
- 218 It is always nicer to follow a schedule so things do not get out of control
- 219 Granted if Financial aid would kick in faster and I had the available time I would love to do that program.
- 220 It would reduce the amount of stress in worrying about getting into classes
I'd feel like maybe the courses would be rushed, and I like to take my time with my classes to fully understand the material
- 221 I'm supposed to learn.
- 222 Must work full-time.
- 223 Sure
- 224 I would like to complete the program I am in enrolled in, in a set amount of time so I can get out into the work field.
- 225 it can be confusing to navigate the college system without a plan.
- 226 I only need specific classes to enrich myself and career goals.
- 227 I like the excelerated rate of schooling
- 228 my disability would stop me from completing
- 229 Sure, it is good to finish within 2 or 3 years.
- 230 Want to choose my classes
- 231 I really like the idea. I would need to see the proposed schedule as I work full time and have children. Still, an great idea!
- 232 Yes
- 233 This could be hard to do if one had to work.
- 234 I would because then with my degree I can get a high paying job.
- 235 I ear somethih like about medical asistent and it work perfect.
- 236 guaranteed a seat
- 237 If it was two years or less, then yes.

238 Have other obligations --care for elderly mother, etc.
It sounds like a practical idea. Relieves stress of having to plan an entire course load, but at the same time there could be a
239 chance I might want to take classes outside of what is required.

240 Professors are easily approachable and helpful and the school is also close the where i live.
I feel like getting a degree isn't something that should be a competition but rather earning it little by little instead of being
241 competitive and pushing other people off the boat where we all have the same goals

242 That'd be nice for a lot of people

243 It can otherwise take too much time to actually complete a degree

244 I need flexibility to balance the competing demands in my life

245 Time is money

246 yes, but this doesn't help me when I'm already a student with many units and not just beginning.

247 CWA program already does that.

248 That would make it easier for me to know what classes I have to take offered in a short period of time.

249 I have been at canada for longer because I didn't seek help my first years

250 I utilized the flexibility
I think this would help better structure students who have an idea of where they want to go and what they want to do rather
251 than having to figure it out when its too late sometimes.

252 I have other dependencies which I cannot decide now.

253 Easier to know where you're going, but lessens individuality
It would be extremely helpful if provided a step-by-step process heading towards my career goal, but it seems it would leave
254 little room for me to explore other careers as well as limit my options to take other courses.

255 It would be far less costly

256 Yes, b/c it would be a dream opportunity

257 I'm trying to complete all my transfer units as soon as possible!!!

258 I am already enrolled in CWA, and have a poor opinion of one their counselor's and the others haven't contact me back yet.

259 I would love to know the exact route to take and know I could get the classes

260 I think the big name of an unveristy would be better for my goals

261 Three years is too long. For two years I would enroll.

262 Because I can start working the job I want

263 Knowing there is a date for graduating, makes a huge difference in my future plans.

264 I did IGETC, and it's about the same thing.
This would be a great idea. Many people come to canada with the med to attend school by the pressure of society puts on
them. You can sussed, but you have to put the work and dedication into it. For example choose the right classes ask for the
right help ect. If we have something already set up and guarante to graduate in a certain time period i personally would join.

265 Thats a start and a little less presure of feeling lost while attending

266 depends on which ones are offered and for what majors

This is a catch 22 situation because there needs to be a variety of instructors teaching a particular subject so that a student
can assess whose teaching style is best for them to complete a course. Many times students will drop classes or take them
267 at another campus because the choice of instructors are limited which effects a student's learning.

268 still deciding on degree

269 currently in another program at Cañada College

270 Sports program rules

271 I am going to a 4 year school.

272 I have a bachelor's degree; I only need a set of 4 classes.

273 I am currently enrolled in this program, CWA and it is quite effective. I really enjoy it!
I was generally able to enroll in the classes I wanted and needed to take without the sort of structured packaged suggested
274 in the question.

275 i would just need to get more information on it

276 I'm currently enrolled in the CWA program and it's great! I graduate in May 2014.

277 seems like a good motivator!

278 Would the classes fit my work schedule?
I'm going to school to get the skills for a job to support myself. I want to do so fast and this sounds like a great way to reach
279 my goal.

280 Because the reason most students quit school is because of the long time it takes to get a degree or transfer

281 It would be much more assuring knowing the classes to complete, thus making the incentive bigger.

282 it would be more efficient and affordable

- I feel like if the structure is already laid out for you, it would be easier to get things done. It's all figured out for you. All you
- 283** have to do is choose the order in which you take your classes and pass them.
- 284** I don't seek or need a degree.
- 285** I am a single mother and would like a structured program.
