

Medical Assisting SLO to PLO Alignment(No Results)_February 2017

CAN Program - Medical Assisting

Students completing this program will be able to apply their education and training to begin employment in health care.

CAN Dept - Medical Assisting

CAN MEDA 100 : Introduction to Medical Assisting

SLO1: Organize, analyze, and critique information about Allied Health careers

CAN MEDA 100 : Introduction to Medical Assisting

SLO2: Identify the principles of medical ethics and the law to the medical field

CAN MEDA 100 : Introduction to Medical Assisting

SLO3: Compare and contrast human relations skills used in the medical profession

CAN MEDA 100 : Introduction to Medical Assisting

SLO4: Demonstrate skills in telephone techniques and duties

CAN MEDA 110 : Basic Medical Terminology I

SLO1: Demonstrate a recognition of the principles of word construction and word analysis as they relate to body systems

CAN MEDA 110 : Basic Medical Terminology I

SLO2: Identify standard medical abbreviations and symbols

CAN MEDA 110 : Basic Medical Terminology I

SLO3: Compare and contrast medical terminology as it relates to diagnosis, pathophysiology, and their interrelationship with body systems

CAN MEDA 110 : Basic Medical Terminology I

SLO4: Identify medical terminology related to laboratory, pathology, and clinical procedures

CAN MEDA 111 : Basic Medical Terminology II

SLO1: Demonstrate a recognition of the principles of word construction and word analysis as they relate to body systems

CAN MEDA 111 : Basic Medical Terminology II

SLO2: Identify medical terminology relating to the specialty medical fields

Students completing this program will be able to apply their education and training to begin employment in health care.

CAN MEDA 111 : Basic Medical Terminology II

SLO3: Compare and contrast medical terminology as it relates to diagnosis, pathophysiology, and their interrelationship with body systems

CAN MEDA 111 : Basic Medical Terminology II

SLO4: Identify medical terminology related to laboratory, pathology, and clinical procedures

CAN MEDA 115 : Introduction Electronic Health Record

SLO1: Demonstrate the medical typing skills necessary for medical facilities

CAN MEDA 115 : Introduction Electronic Health Record

SLO2: Accurately complete basic medical reports

CAN MEDA 115 : Introduction Electronic Health Record

SLO3: Demonstrate skills and techniques required for electronic medical records

CAN MEDA 115 : Introduction Electronic Health Record

SLO4: Analyze and compare medical terminology, spelling, and medical nomenclature in a medical setting

CAN MEDA 120 : Clinical Procedures I

SLO1: Demonstrate proper care of medical supplies and equipment

CAN MEDA 120 : Clinical Procedures I

SLO2: Perform clinical procedures and techniques required in a health care outpatient setting

CAN MEDA 120 : Clinical Procedures I

SLO3: Identify steps involved in diagnostic measurements

CAN MEDA 120 : Clinical Procedures I

SLO4: Demonstrate Standard Precautions and utilization of PPE in every clinical situation

CAN MEDA 121 : Clinical Procedures II

SLO1: Perform clinical procedures and techniques required in a health care outpatient setting

CAN MEDA 121 : Clinical Procedures II

SLO2: Identify steps involved in diagnostic measurements

CAN MEDA 121 : Clinical Procedures II

SLO3: Identify the scope of practice as required by State law

CAN MEDA 121 : Clinical Procedures II

SLO4: Demonstrate satisfactory achievement required for placement in medical outpatient setting

CAN MEDA 140 : Implementing Electronic Health Record

SLO1: Successfully scribe patient history, medical reports, consultation reports, lab reports, discharge summaries, and letters

Students completing this program will be able to apply their education and training to begin employment in health care.

CAN MEDA 140 : Implementing Electronic Health Record

SLO1: Successfully scribe patient history, medical reports, consultation reports, lab reports, discharge summaries, and letters

CAN MEDA 140 : Implementing Electronic Health Record

SLO2: Enter patient medical chart progress notes properly

CAN MEDA 140 : Implementing Electronic Health Record

SLO3: Analyze, edit, and correct medical reports

CAN MEDA 140 : Implementing Electronic Health Record

SLO4: Demonstrate ability to spell, punctuate, and use standard medical nomenclature in medical scribing and medical editing

CAN MEDA 141 : Medical Transcription: Adv.

SLO1: Utilize references available to the transcriptionist

CAN MEDA 141 : Medical Transcription: Adv.

SLO2: Further develop a transcriptionist's notebook for use in medical settings

CAN MEDA 141 : Medical Transcription: Adv.

SLO3: Demonstrate proofreading and correction skills while transcribing

CAN MEDA 141 : Medical Transcription: Adv.

SLO4: Transcribe a variety of hospital-type medical reports, including operative reports, discharge summaries, autopsies, radiologic and nuclear medicine reports, psychiatric consultations, and histories and physicals

CAN MEDA 150 : Medical Office Procedures

SLO1: Identify and demonstrate the necessary techniques used in specific medical office procedures

CAN MEDA 150 : Medical Office Procedures

SLO2: Demonstrate both oral and written telephone and administrative techniques used in a medical office

CAN MEDA 150 : Medical Office Procedures

SLO3: Analyze and administer a plan of organization for a medical office

CAN MEDA 150 : Medical Office Procedures

SLO4: Define medico-legal principles and medical ethics in the medical profession

CAN MEDA 160 : Medical Insurance Procedures

SLO1: Demonstrate insurance billing procedures by abstracting information and completing claim forms to the specifications of the carriers involved for reimbursement

CAN MEDA 160 : Medical Insurance Procedures

SLO2: Compare and contrast the skills and techniques used for computerized medical insurance claims and billing

Students completing this program will be able to apply their education and training to begin employment in health care.

CAN MEDA 160 : Medical Insurance Procedures

SLO3: Identify the medical insurance procedures to follow in a medical office

CAN MEDA 160 : Medical Insurance Procedures

SLO4: Analyze and summarize the laws and ethics pertaining to the medical profession

CAN MEDA 164 : CPT Beginning Coding

SLO1: Explain why coding is used in the medical profession

CAN MEDA 164 : CPT Beginning Coding

SLO2: Analyze and compare the steps involved in coding

CAN MEDA 164 : CPT Beginning Coding

SLO3: Define and explain the meaning of terms

CAN MEDA 164 : CPT Beginning Coding

SLO4: Analyze and compare the conditional terms and assign proper CPT codes

CAN MEDA 165 : CPT Intermediate Coding

SLO1: Identify intermediate principles and philosophy of coding logic

CAN MEDA 165 : CPT Intermediate Coding

SLO2: Analyze and compare the steps involved in coding

CAN MEDA 165 : CPT Intermediate Coding

SLO3: Define and explain the meaning of terms

CAN MEDA 165 : CPT Intermediate Coding

SLO4: Analyze and compare the conditional terms and assign proper CPT codes

CAN MEDA 166 : CPT Advanced Coding

SLO1: Identify advanced principles and philosophy of coding logic

CAN MEDA 166 : CPT Advanced Coding

SLO2: Analyze and compare the steps involved in coding

CAN MEDA 166 : CPT Advanced Coding

SLO3: Define and explain the meaning of terms

CAN MEDA 166 : CPT Advanced Coding

SLO4: Analyze and compare the conditional terms and assign proper CPT codes

CAN MEDA 167: ICD-10-CM Beginning Coding

SLO1: Analyze why coding is important in the medical industry

Students completing this program will be able to apply their education and training to begin employment in health care.

CAN MEDA 167: ICD-10-CM Beginning Coding

SLO2: Identify and explain the steps involved in coding

CAN MEDA 167: ICD-10-CM Beginning Coding

SLO3: Compare and contrast the meaning of medical terms

CAN MEDA 167: ICD-10-CM Beginning Coding

SLO4: Assign proper ICD-10-CM codes

CAN MEDA 168 : ICD-10-CM Intermediate Coding

SLO1: Analyze and implement intermediate principles of coding logic

CAN MEDA 168 : ICD-10-CM Intermediate Coding

SLO2: Define and explain the meaning of coding logic according to ICD-10-CM

CAN MEDA 168 : ICD-10-CM Intermediate Coding

SLO3: Determine and assign proper ICD-10-CM codes

CAN MEDA 168 : ICD-10-CM Intermediate Coding

SLO4: Compare and contrast the use of source documents, multiple coding, sequencing, Z codes, and tables

CAN MEDA 169 : ICD-10-CM Advanced Coding

SLO1: Identify advanced principles and philosophy of coding logic

CAN MEDA 169 : ICD-10-CM Advanced Coding

SLO2: Define and explain the meaning of terms used in the classification of diseases

CAN MEDA 169 : ICD-10-CM Advanced Coding

SLO3: Analyze and assign proper ICD-10-CM codes

CAN MEDA 169 : ICD-10-CM Advanced Coding

SLO4: Compare and contrast the use of source documents, multiple coding, sequencing, V through Z codes, and tables

CAN MEDA 190 : Introduction To Pharmacology

SLO1: Define vocabulary terms specific to pharmacology

CAN MEDA 190 : Introduction To Pharmacology

SLO2: Explain the difference between administering, prescribing, and dispensing of medication

CAN MEDA 190 : Introduction To Pharmacology

SLO3: Classify drugs according to the action they have on the body

CAN MEDA 190 : Introduction To Pharmacology

SLO4: Identify all parts of a medication order including drug classification and correctly calculate a patient's dosage

Students completing this program will be able to apply their education and training to begin employment in health care.

CAN MEDA 190 : Introduction To Pharmacology

SLO4: Identify all parts of a medication order including drug classification and correctly calculate a patient's dosage

CAN MEDA 672 : Cooperative Education: Internship

SLO1: Demonstrate knowledge and skill in medical administrative skills

CAN MEDA 672 : Cooperative Education: Internship

SLO2: Demonstrate knowledge and application of applicable law and ethics

CAN MEDA 672 : Cooperative Education: Internship

SLO3: Demonstrate knowledge and skill in performing appropriate clinical skills

CAN MEDA 672 : Cooperative Education: Internship

SLO4: Demonstrate knowledge and proper use of medical equipment and supplies

CAN MEDA 801 : Computerized Medical Billing/Medical Assisting Exam Preparation

SLO1: Define, explain, and analyze concepts and skills for appropriate computer program

CAN MEDA 801 : Computerized Medical Billing/Medical Assisting Exam Preparation

SLO2: Complete step-by-step training for the appropriate computer program

CAN MEDA 801 : Computerized Medical Billing/Medical Assisting Exam Preparation

SLO3: Demonstrate skills and techniques required for the appropriate computer program

CAN MEDA 801 : Computerized Medical Billing/Medical Assisting Exam Preparation

SLO4: Complete testing for the appropriate computer program

Students completing this program will be able to use updated job skills to maintain or advance in current employment in health care.

CAN Dept - Medical Assisting

CAN MEDA 110 : Basic Medical Terminology I

SLO1: Demonstrate a recognition of the principles of word construction and word analysis as they relate to body systems

CAN MEDA 110 : Basic Medical Terminology I

SLO2: Identify standard medical abbreviations and symbols

CAN MEDA 110 : Basic Medical Terminology I

SLO3: Compare and contrast medical terminology as it relates to diagnosis, pathophysiology, and their interrelationship with body systems

CAN MEDA 110 : Basic Medical Terminology I

SLO4: Identify medical terminology related to laboratory, pathology, and clinical procedures

CAN MEDA 111 : Basic Medical Terminology II

SLO1: Demonstrate a recognition of the principles of word construction and word analysis as they relate to body systems

CAN MEDA 111 : Basic Medical Terminology II

SLO2: Identify medical terminology relating to the specialty medical fields

CAN MEDA 111 : Basic Medical Terminology II

SLO3: Compare and contrast medical terminology as it relates to diagnosis, pathophysiology, and their interrelationship with body systems

CAN MEDA 111 : Basic Medical Terminology II

SLO4: Identify medical terminology related to laboratory, pathology, and clinical procedures

CAN MEDA 140 : Implementing Electronic Health Record

SLO1: Successfully scribe patient history, medical reports, consultation reports, lab reports, discharge summaries, and letters

CAN MEDA 140 : Implementing Electronic Health Record

SLO2: Enter patient medical chart progress notes properly

CAN MEDA 140 : Implementing Electronic Health Record

SLO3: Analyze, edit, and correct medical reports

CAN MEDA 140 : Implementing Electronic Health Record

SLO4: Demonstrate ability to spell, punctuate, and use standard medical nomenclature in medical scribing and medical editing

CAN MEDA 150 : Medical Office Procedures

SLO1: Identify and demonstrate the necessary techniques used in specific medical office procedures

CAN MEDA 150 : Medical Office Procedures

Students completing this program will be able to use updated job skills to maintain or advance in current employment in health care.

CAN MEDA 150 : Medical Office Procedures

SLO2: Demonstrate both oral and written telephone and administrative techniques used in a medical office

CAN MEDA 150 : Medical Office Procedures

SLO3: Analyze and administer a plan of organization for a medical office

CAN MEDA 150 : Medical Office Procedures

SLO4: Define medico-legal principles and medical ethics in the medical profession

CAN MEDA 160 : Medical Insurance Procedures

SLO1: Demonstrate insurance billing procedures by abstracting information and completing claim forms to the specifications of the carriers involved for reimbursement

CAN MEDA 160 : Medical Insurance Procedures

SLO2: Compare and contrast the skills and techniques used for computerized medical insurance claims and billing

CAN MEDA 160 : Medical Insurance Procedures

SLO3: Identify the medical insurance procedures to follow in a medical office

CAN MEDA 160 : Medical Insurance Procedures

SLO4: Analyze and summarize the laws and ethics pertaining to the medical profession

CAN MEDA 164 : CPT Beginning Coding

SLO1: Explain why coding is used in the medical profession

CAN MEDA 164 : CPT Beginning Coding

SLO2: Analyze and compare the steps involved in coding

CAN MEDA 164 : CPT Beginning Coding

SLO3: Define and explain the meaning of terms

CAN MEDA 164 : CPT Beginning Coding

SLO4: Analyze and compare the conditional terms and assign proper CPT codes

CAN MEDA 165 : CPT Intermediate Coding

SLO1: Identify intermediate principles and philosophy of coding logic

CAN MEDA 165 : CPT Intermediate Coding

SLO2: Analyze and compare the steps involved in coding

CAN MEDA 165 : CPT Intermediate Coding

SLO3: Define and explain the meaning of terms

CAN MEDA 165 : CPT Intermediate Coding

SLO4: Analyze and compare the conditional terms and assign proper CPT codes

Students completing this program will be able to use updated job skills to maintain or advance in current employment in health care.

CAN MEDA 165 : CPT Intermediate Coding

SLO4: Analyze and compare the conditional terms and assign proper CPT codes

CAN MEDA 166 : CPT Advanced Coding

SLO1: Identify advanced principles and philosophy of coding logic

CAN MEDA 166 : CPT Advanced Coding

SLO2: Analyze and compare the steps involved in coding

CAN MEDA 166 : CPT Advanced Coding

SLO3: Define and explain the meaning of terms

CAN MEDA 166 : CPT Advanced Coding

SLO4: Analyze and compare the conditional terms and assign proper CPT codes

CAN MEDA 167: ICD-10-CM Beginning Coding

SLO1: Analyze why coding is important in the medical industry

CAN MEDA 167: ICD-10-CM Beginning Coding

SLO2: Identify and explain the steps involved in coding

CAN MEDA 167: ICD-10-CM Beginning Coding

SLO3: Compare and contrast the meaning of medical terms

CAN MEDA 167: ICD-10-CM Beginning Coding

SLO4: Assign proper ICD-10-CM codes

CAN MEDA 168 : ICD-10-CM Intermediate Coding

SLO1: Analyze and implement intermediate principles of coding logic

CAN MEDA 168 : ICD-10-CM Intermediate Coding

SLO2: Define and explain the meaning of coding logic according to ICD-10-CM

CAN MEDA 168 : ICD-10-CM Intermediate Coding

SLO3: Determine and assign proper ICD-10-CM codes

CAN MEDA 168 : ICD-10-CM Intermediate Coding

SLO4: Compare and contrast the use of source documents, multiple coding, sequencing, Z codes, and tables

CAN MEDA 169 : ICD-10-CM Advanced Coding

SLO1: Identify advanced principles and philosophy of coding logic

CAN MEDA 169 : ICD-10-CM Advanced Coding

SLO2: Define and explain the meaning of terms used in the classification of diseases

Students completing this program will be able to use updated job skills to maintain or advance in current employment in health care.

CAN MEDA 169 : ICD-10-CM Advanced Coding

SLO3: Analyze and assign proper ICD-10-CM codes

CAN MEDA 169 : ICD-10-CM Advanced Coding

SLO4: Compare and contrast the use of source documents, multiple coding, sequencing, V through Z codes, and tables

CAN MEDA 190 : Introduction To Pharmacology

SLO1: Define vocabulary terms specific to pharmacology

CAN MEDA 190 : Introduction To Pharmacology

SLO2: Explain the difference between administering, prescribing, and dispensing of medication

CAN MEDA 190 : Introduction To Pharmacology

SLO3: Classify drugs according to the action they have on the body

CAN MEDA 190 : Introduction To Pharmacology

SLO4: Identify all parts of a medication order including drug classification and correctly calculate a patient's dosage

CAN MEDA 801 : Computerized Medical Billing/Medical Assisting Exam Preparation

SLO1: Define, explain, and analyze concepts and skills for appropriate computer program

CAN MEDA 801 : Computerized Medical Billing/Medical Assisting Exam Preparation

SLO2: Complete step-by-step training for the appropriate computer program

CAN MEDA 801 : Computerized Medical Billing/Medical Assisting Exam Preparation

SLO3: Demonstrate skills and techniques required for the appropriate computer program

CAN MEDA 801 : Computerized Medical Billing/Medical Assisting Exam Preparation

SLO4: Complete testing for the appropriate computer program
