**Role of the Faculty and Students**

Cañada College seeks the counsel of its faculty and students through a system of permanent councils, committees and informal consultation. Standing and ad hoc committees are organized under the College Council or the Academic Senate which operates through a Governing Council (elected by the faculty). Classified staff members of committees are appointed by the Classified Senate; student members are appointed by the Associated Student Government. Instructors, students, staff and administrators participate in curriculum development and the learning processes and in the general campus environment as full voting members of the various college committees which provide guidance and assistance to the President.

**Statement on Academic Freedom**

The San Mateo County Community College District is dedicated to maintaining a climate of academic freedom encouraging the sharing and cultivation of a wide variety of viewpoints. Academic freedom expresses our belief in inquiry, informed debate and the search for truth; academic freedom is necessary in order to provide students with a variety of ideas, to encourage them to engage in critical thinking and to help them understand conflicting opinions.

Academic freedom encompasses the freedom to study, teach, and express ideas, including unpopular or controversial ones, without censorship or political restraint. Academic freedom, rather than being a license to do or say whatever one wishes, requires professional competence, open inquiry and rigorous attention to the pursuit of truth.

The District's faculty have the right to express their informed opinions which relate, directly or indirectly, to their professional activities, whether these opinions are expressed in the classroom, elsewhere on campus or at college-related functions. In a search for truth and in a context of reasoned academic debate, students also have the right to express their opinions and to question those presented by others.

Employment by the District does not in any way restrict or limit the First Amendment rights enjoyed by faculty as members of their communities. Faculty members are free to speak and write publicly on any issue, as long as they do not indicate they are speaking for the institution.

Protecting academic freedom is the responsibility of the college community. Therefore, in a climate of openness and mutual respect, free from distortion and doctrinal obligation, the District protects and encourages the exchange of ideas, including unpopular ones, which are presented in a spirit of free and open dialogue and constructive debate.

**Revision of Regulations**

Any regulation adopted by the administration of Cañada College or the San Mateo County Community College District will be considered an official ruling and will supersede regulations on the same subject which appear in this catalog and other official publications, provided that the new regulation has been officially announced and posted.

Student Grievances and Appeals
Students are encouraged to pursue their academic studies and become involved in other college sponsored activities that promote their intellectual growth and personal development. The College is committed to the concept that, in the pursuit of these ends, students should be free of unfair and improper actions on the part of any member of the academic community. If, at any time, a student believes that he or she has been subject to unjust actions or denied his or her rights, redress can be sought through the filing of a grievance or an appeal of the decision/action taken in response to a grievance, in accordance with the relevant District policies and procedures.

The chart above summarizes the appropriate college channels to be utilized by any student seeking redress. Detailed information and copies of the Student Grievance and Appeal Policy and Procedures are in the Student Handbook which is available in the Student Activities Office, Bldg. 5, Room 211C. POLICIES

(Políticas en español están en la página 15.)

Matriculation
Matriculation is a state-mandated process designed to support student access and success. The matriculation process begins with steps students must complete to enroll in classes, continues through the students’ educational careers at Cañada, and concludes when students accomplish their educational goals and objectives. The matriculation policy applies to those who plan to complete a college certificate program, complete an Associate degree, transfer to a baccalaureate institution, or students who are undecided about specific goals but are considering a certificate, degree, or transfer.

The intention of Matriculation is to bring the College and the student into agreement for the purpose of developing and realizing the student’s educational goals. Matriculation components include the following.

Admissions: Through the Admissions Application the College collects and analyzes information on each applicant, identifies student goals, and provides matriculation process information to new and former students.

Placement Test/Assessment: The Placement Test/Assessment measures students’ abilities in English, reading, writing, and mathematics. This process is used to identify current academic readiness, select and plan appropriate coursework necessary to accomplish educational goals, provide a pathway to strengthen academic skills, and refer students to special programs and support services. This component of matriculation also includes assessing students’ interests and values related to the work of work.

Orientation: The College Orientation Program acquaints students with essential information about the College and includes an overview of educational options and goals, college enrollment procedures, college policy, special programs and services, how to plan coursework, academic expectations, and College facilities. Orientation programs are offered online at the College website or in-person as indicated in the Schedule of Classes.

Counseling/Advisement: Students are expected to meet with a counselor at least once a semester. Early in the educational process students work with a counselor to develop a Student Educational Plan (SEP). The SEP is a personalized map that identifies semester by semester the courses and sequences of courses that students must complete to meet educational goals. Students meet with counselors each semester to monitor SEP progress and make modifications as necessary. At Cañada College students have the opportunity to identify the counselor they want to work with and the responsibility to schedule counseling appointments through the Counseling Center.

Student Follow-up: Follow-up matriculation services represent a college-wide effort that assists students to stay focused and successfully complete educational goals and objectives. Follow-up includes but is not limited to, use of student support services, programs and activities, use of academic alert systems, access to faculty to support ongoing communication with professors, published processes and procedures.

The Matriculation agreement acknowledges responsibilities of both the student and the College that enable students to achieve educational goals through established college programs, services, and policies. Matriculation identifies both College and student responsibilities.

The College is responsible for providing the following services.

- An admissions process.
- Accessible College Orientation programs.
- Pre-enrollment assessment and advising.
- Advice and counseling for educational planning that includes course selection and the development of a Student Educational Plan.
- Counseling follow-up to monitor educational progress.
- Referrals to use support services.
- Follow-up activities to enhance student success and retention.
- A program of institutional training, research, and evaluation.

Students are responsible to

- Express an educational intent/interest at entrance to the College.
- Declare an educational goal within a reasonable period of enrollment, usually following completion of 15 semester units of degree-applicable coursework.
- Be diligent about class attendance and completing assigned coursework.
- Get to know professors’ academic expectations for success.
- Meet with a counselor to discuss and develop a Student Educational Plan.
- At least once a semester meet with a counselor to discuss academic progress, review the Student Educational Plan and make modifications as needed.
- Use support services.

The Matriculation process entitles students to services listed above. A student who believes the College has not afforded him/her the opportunity to use these services may file a complaint in the Office of Matriculation, Transfer, Counseling and Articulation, Building 5, Room 204. Students may request a waiver or exemption of any of the matriculation requirements based on extraordinary circumstances. The Matriculation Exemption Petition is available at the Office of Enrollment Services. For any questions contact the Office of Matriculation, Transfer, Counseling and Articulation at (650) 306-3310.
Alternative Matriculation Procedures

Students with physical, psychological, or learning disabilities who may need modified matriculation services are advised to contact the DSPS, Building 5, Room 207, (650) 306-3259, TDD/TTY (650) 306-3161, www.canadacollege.edu/student/disabled. Students who speak English as a second language and may need additional assistance may contact the English Institute, Building 13, Room 121 or call 306-3412.

Matriculation Exemptions

Any student who has completed an associate degree or higher is exempt from orientation and counseling and may be exempt from assessment depending on the Cañada College course selections. Students are also exempt from matriculation if they are enrolled as a matriculating student at another college or university and only taking classes at Cañada to meet the requirements of the home institution. Students taking classes for personal enrichment or to enhance employment related skills only are exempt from matriculation. Students who have completed college level course work at another accredited American institution may be exempt from placement tests/assessment if they have evidence of successfully completing a college level course in English, reading and/or mathematics. Exempt students may elect to participate in any or all of the matriculation services provided.

Prerequisite and Corequisite Policy

What are Prerequisite, Corequisite, and Recommended Preparations?

A prerequisite (Prereq) is a condition of enrollment that students are required to meet to demonstrate current readiness for enrollment in a course. Students who fail to meet the prerequisite may be involuntarily dropped from the course.

A corequisite (Coreq) is a condition of enrollment consisting of a course that must be taken concurrently with another course. When students register for courses requiring a corequisite, they must register for both courses. Students who fail to meet the corequisite may be involuntarily dropped from the course.

A recommended course is advisory only and reflects a condition of enrollment that is strongly advised by not required.

How Can Students Meet Prerequisite Requirements?

There are several ways for students to meet prerequisite requirements.

1. Students may take the prerequisite courses.
2. Students may go through the placement test/assessment process and place into the target course.
3. Students can complete the prerequisite course or an equivalent course at another accredited college or university in the United States. This equivalency must be approved by the Office of Matriculation, Transfer, Counseling and Articulation.
4. Students may meet prerequisites through the College Board Advanced Placement tests. The use of AP Tests as prerequisites must be approved by the Office of Matriculation, Transfer, Counseling and Articulation.

How Can Prerequisites and Corequisites Be Challenged?

Prerequisites and Corequisites may be challenged. Challenges must be submitted prior to the first day of the term. Prerequisite Challenge Petition forms are available in the Office of Enrollment Services and the Office of Matriculation, Transfer, Counseling and Articulation. The completed Challenge Petition, a letter justifying the challenge, and all documentation (transcripts, samples of work, letters) must be submitted to the Office of Matriculation, Transfer, Counseling and Articulation, Building 5, Room 204. The challenge is resolved within 5 working days and an appeal to the decision may be made through the Office of the Vice President of Student Services. A challenge to a prerequisite or corequisite must be based on one of the following grounds.

1. The prerequisite or corequisite is not established in accordance with district policies or Title 5 regulations.
2. The student has the knowledge and ability to succeed in the course despite not meeting the course prerequisite.
3. The student is subject to undue delay in goal attainment because the prerequisite or corequisite has not been made reasonably available.
4. The prerequisite or corequisite is unlawfully discriminatory or applied in an unlawfully discriminatory manner.

Prerequisite Checking and Enrollment Blocks

The San Mateo County Community College District enforces all prerequisite and corequisite requirements. Some prerequisites are subject to computerized prerequisite checking and students who have not met the prerequisites are blocked from enrolling in the course. Some prerequisites are enforced by counselors and instructional faculty. A counselor may inform a student that he/she has not met the course prerequisite prior to registration. Instructional faculty may enforce course prerequisites during the first week of instruction. No staff or faculty member can “waive” an enrollment prerequisite or corequisite. Once a prerequisite has been legally established and adopted, all students who wish to enroll in the course must be required to meet the prerequisite and this requirement must be applied consistently. A computerized prerequisite blocking procedure is in place for English 800/836 (Writing Development), English 100 (Reading and Composition), English 110 (Composition & Literature), and English 165 (Advanced Composition). Students are blocked at registration from enrolling in these courses unless they have met the prerequisites. Some students may have met prerequisites through coursework completed at other colleges or universities. These students should contact the Office of Matriculation, Transfer, Counseling and Articulation to verify prerequisite completion and to register for blocked courses.

Policy of Non-discrimination

Cañada College is committed to equal opportunity regardless of age, gender, marital status, disability, race, color, sexual orientation, religion, national origin, or other similar factors, for admission to the College, enrollment in classes, student services, financial aid, and employment in accordance with the provisions of Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972 (45CRF 86), Section 504 of the Rehabilitation Act of 1973 (P.L. 93-112), and the Americans with Disabilities Act of 1990.

It is important that students, staff, and all others associated with the College understand the importance of reporting concerns about possible violations of this policy. The College’s commitment to equal opportunity demands full investigation of possible violations and an opportunity for a fair and impartial hearing on any matter relating to these laws and policies.

Any person seeking information concerning these laws and policies or claiming grievance because of alleged violations of Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act of 1990 should contact the Vice President of Student Services, (Building 8, Room 310, 306-3234).
All grievances will be reviewed in terms of Title VI and Title IX law, and persons involved will be advised of the provisions of the law and their legal rights. If normal channels are not available or fail to meet legal requirements, the necessary action will be initiated.

Inquiries regarding Federal laws and regulations concerning nondiscrimination in education or the District's compliance with those provisions may also be directed to:

Office for Civil Rights  
U.S. Department of Education  
50 United Nations Plaza, Room 239  
San Francisco, CA 94102

**Policy on Americans with Disabilities Act**

The purpose of the Americans with Disabilities Act (ADA), PL 101-336, is to extend to people with disabilities civil rights similar to those now available on the basis of race, color, national origin, sex and religion through the Civil Rights Act of 1964. It prohibits discrimination on the basis of disability in private sector employment, services rendered by state and local governments, places of public accommodation, transportation, and telecommunications relay services. The ADA says that no covered entity shall discriminate against a qualified individual with a disability because of the disability of such individual in regard to job application procedures; the hiring, advancement, or discharge of employees; employee compensation; job training; and other terms, conditions, and privileges of employment.

Major employment provisions of the ADA require equal opportunity in selection, testing, and hiring of qualified applicants with disabilities (applicants with disabilities may request that special accommodations be made in order to complete these processes); equal treatment in promotion and benefits; reasonable accommodation for applicants and workers with disabilities when such accommodations would not impose "undue hardship"; and prohibits discrimination against workers with disabilities. (This provision is similar to the Civil Rights Act of 1964 and Title V of the Rehabilitation Act of 1973).

Employers may require that an individual not pose a direct threat to the health and safety of others; may not make pre-employment inquiries about an applicant's disability or conduct pre-employment medical exams; and may conduct a test for illegal drug use and prohibit all workplace use of illegal drugs and alcohol.

If you need further information or if there are any problems or complaints on campus regarding compliance, please contact ADA Coordinator Dr. Denise Swett, Vice President, Student Services, at 306-3234.

**Policy on Sexual Harassment**

Pursuant to California Code of Regulations Title 5, Section 59300 et seq., it is the policy of San Mateo County Community College District and Cañada College to prohibit, in any and all forms, the sexual harassment of its students and staff. Sexual harassment of students by other students or staff, and/or the harassment of staff by students, is considered intolerable behavior that will be investigated and acted upon immediately.

Students or staff seeking further information concerning this policy or claiming grievance because of alleged violation of this policy should contact Dr. Denise Swett, Vice President, Student Services, Building 8, Room 310, telephone 306-3234.

**Additional Redress**

In addition to, and concurrently with, the filing of a written grievance, a student has the right to file a complaint or charges with other appropriate governmental agencies such as the Equal Opportunity Commission, the Office for Civil Rights, the Department of Fair Employment and Housing, the Chancellor's Office of the California Community Colleges, or State or Federal court.

**Policy on Smoking**

In order to provide a safe learning and working environment for students and employees, smoking is prohibited in all indoor locations, outdoor balconies, terraces and stairs, and within a distance of fifteen (15) feet from any District doorway, entrance to an interior area, or air intake vents. Violation of this policy could lead to disciplinary action under usual disciplinary procedures.

**Policy on Drug-Free Campus**

The San Mateo County Community College District and Cañada College, in compliance with the Federal Drug-Free Schools and Communities Act Amendments of 1989, prohibits the use, possession, sale or distribution of alcohol, narcotics, dangerous or illegal drugs or other controlled substances, as defined in California statutes, on District or College property, or at any function sponsored by the District or College. Students are expected to conduct themselves as responsible citizens and in a manner compatible with the community college function as an educational institution. Students are subject to civil authority and to all District and College rules and regulations.

Students found to be in violation of the drug-free campus policy by manufacturing, distributing, dispensing, possessing, or using controlled substances, as defined in California statues, on any District property will be subject to disciplinary measures up to and including possible cancellation of registration.

Persons seeking further information concerning this policy or the health risks and effects associated with alcohol and narcotics or other dangerous or illegal drugs, should contact Lesli Sachs, College Nurse, Bldg. 5, Room 213 (306-3309).

**Privacy Rights of Students - Annual Notification**

The Family Educational Rights and Privacy Act (Section 438, Public Law 93-380, as amended) requires educational institutions to provide: access to official educational records directly related to the student; an opportunity for a hearing to challenge such records on the grounds that they are inaccurate, misleading, or otherwise inappropriate; that the College must obtain the written consent of the student before releasing personally identifiable information about the student except to those persons and agencies specified by the Act; and that these rights extend to present and former students of Cañada.

Education records generally include documents and information related to admissions, enrollment in courses, grades, and related academic information.

The Dean of Enrollment Services has been designated Records Officer, as required by the Act. Education records will be made available for inspection and review, during working hours, by currently and formerly enrolled students, within 5 days following completion and filing of a request form with the Records Officer.

If a student wishes to challenge any information in the educational record, the student shall review the matter with the Records Officer. During the informal proceedings the Records Officer may make such adjustments or changes not constituting interference or integrity of professional entries.
If these informal proceedings do not settle the dispute with the students records, the student may submit a request in writing to the Designated Officer, the Dean of Enrollment Services, on forms provided by that office. The Designated Officer will then assign the matter within 10 college calendar days to a Hearing Officer. The Hearing Officer will set a date for the hearing. At the conclusion of the hearing he/she will render his/her decision to the President of Cañada who will make the final decision on what action is to be taken.

The student has the right to consent to disclosures of personally identifiable information contained in the student’s education records except to the extent that FERPA authorizes disclosure without consent. One exception that permits disclosure without consent is disclosure to “college officials” with “legitimate educational interests”. A college official is a person employed by the College or District as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the Board of Trustees; a person or company with whom the College has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another college official in performing his or her tasks. A college official has a “legitimate educational interest” if the official needs to review an education record in order to fulfill his or her professional responsibility and/or clearly specified duties.

The Act provides that Cañada may release certain types of Directory Information, unless the student submits in writing to the Records Officer that certain or all such information not be released without his/her consent. Directory Information at this College includes: (1) student name address, and telephone number, (2) participation in recognized activities and sports, (3) dates of attendance, (4) degrees, certificates, and awards received, (5) the most recent previous educational agency or institution attended, (6) height and weight of members of athletic teams.

Upon request, the College discloses education records without consent to officials of another college in which a student seeks or intends to enroll.

Students have the right to withhold any item in “directory information”, but must notify the College of such in writing (completion of College form, Request to Withhold release of Directory Information, available at the Admissions and Records Office) within 30 days of applying for admissions to the College.

The eligible student (18 years and over) or parents (of a dependent student 17 years and under) have the right to file a complaint with the U.S. Department of Education concerning alleged failures by the College to comply with the requirement of FERPA. The name and address of the Office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
600 Independence Avenue, SW
Washington, DC 20202-4605

A copy of the College policy, the Family Education Rights and Privacy Act (Section 438 P.L. 93-380), and other pertinent information is available for review and inspection in the Admissions & Records Office, Building 8, Room 215, during normal business hours.

Student Right to know and Campus Security Act

In order to make Cañada College a safe and pleasant environment for students and employees, the College has established procedures in compliance with Federal Public Law 101-542 (Student Right-to-Know and Campus Security Act). Persons seeking information concerning Cañada campus law enforcement procedures, crime prevention efforts, and crime statistics should contact Campus Security, Building 13, Room 28, or call 306-3420.

In compliance with the Student-Right-to-Know and Campus Security Act of 1990 (Public Law 101-542), it is the policy of the San Mateo County Community College District and Cañada College to make available its completion and transfer rates to all current and prospective students. Beginning in Fall 1998, a cohort of all certificate-, degree-, and transfer-seeking first-time, full-time students were tracked over a three-year period. Their completion and transfer rates are listed below. These rates do not represent the success rates of the entire student population at Cañada College, nor do they account for student outcomes occurring after this three-year tracking period.

Based upon the cohort defined above, 28.3 percent attained a certificate or degree or became ‘transfer prepared’ during a three-year period, from Fall 1998 to Spring 2001. Students who are ‘transfer-prepared’ have completed 56 transferable units with a GPA of 2.0 or better.

Based on the cohort defined above, 38.7 percent transferred to another postsecondary institution, (UC, CSU, or another California Community College) prior to attaining a degree, certificate, or becoming ‘transfer-prepared’ during a five-semester period, from Spring 1999 to Spring 2001.

More information about Student Right-to-Know Rates and how they should be interpreted can be found at the California Community Colleges "Student Right-to-Know Information Clearinghouse Website" located at http://srtk.cccco.edu.

Non-District Sponsored Transportation

Some classes may be conducted off campus. Unless specifically advised otherwise, students are responsible for arranging for their own transportation to and from the class site. Although the District may assist in coordinating the transportation and/or recommend travel times, route or caravanning, students are advised that the District assumes no liability or responsibility for the transportation, and any person driving a personal vehicle is not an agent of the District.

**ADA-Decreto para Americanos con Incapacidades**

El 26 de Enero de 1992 el Decreto para Americanos con Incapacidades (ADA), que gobierna el acceso y utilidad de las comodidades públicas y facilidades comerciales, se hizo efectivo. Este decreto afectará el empleo, servicios públicos, transporte y los servicios de comunicaciones telefónicas. Este estatuto literalmente abre las puertas a los individuos con incapacidades que han necesitado acceso a muchos efectos y servicios que el público trata normalmente con indiferencia como baños, agua para beber, lavanderías, máquinas cajeras automáticas (ATM), y así sucesivamente.

La ADA es diseñada para prohibir discriminación en contra de esos individuos con una incapacidad física o mental que limita una mayor actividad en la vida. Características físicas como ser zurdo, tener un propio estilo de vida, uso de drogas, etc., estos temas no son aplicados en el decreto (ADA). Muchas estructuras existentes requerirán alteraciones de diseño mayores y/o menores. Las normas para diseño accesible son delineadas en las "Normas de Accesibilidad del ADA para Edificios y Facilidades". Estas normas son muy similares a esas establecidas por el Instituto de Normas Nacional Americano (ANSI):

1. Proveer acceso general a las facilidades.
2. Proveer acceso específico a esas áreas dentro de una facilidad donde efectos y servicios son disponibles.
3. Proveer acceso a los baños.
4. Implementar algunas otras medidas necesarias para proveer acceso y funcionamiento.

Esto incluye todas las construcciones nuevas y existentes de las comodidades públicas y facilidades comerciales. Los arrendatarios y los arrendatarios serán responsables de obrar de acuerdo a la ley. Las comodidades públicas incluyen: facilidades de hospedaje, restaurantes, facilidades de entretenimiento, tiendas, establecimientos de servicio, transportación pública, museos, facilidades recreativas, facilidades educativas, centros de servicio social, facilidades deportivas y de ejercicio. Clubes privados y facilidades religiosas no están cubiertas por el decreto (ADA). Facilidades comerciales no son de uso residencial por una entidad privada cuyas operaciones afecten el comercio. Esto incluye todas las facilidades comerciales que ocupen una casa o apartamento.

Es requerido que cada facilidad conduzca un programa de evaluación propio relacionado a los mandatos del ADA. A personas con incapacidades y/o organizaciones que las representan se les debe proporcionar la oportunidad de participar en la evaluación para el desarrollo del plan transitorio. Este programa debería ser completado yarchivado, a más tardar el 26 Enero de 1995. Pueden ocurrir condiciones especiales como una "desproporcionada alteración de costos" y puede ser revaluado por la oficina del Procurador General de Estados Unidos.

Infracciones al ADA pueden ser llevadas ante un juez por personas particulares o por el Procurador General de Estados Unidos. El juez puede otorgar a una persona particular daños monetarios, incluyendo gastos de abogado, como también fijar una pena civil en contra de la entidad ofensiva, de $50,000 a $100,000.

En conclusión, los requerimientos de la ADA serán vistos como una norma para diseño y construcción. Les da responsabilidad sobre esos (AEC) envueltos en el diseño, construcción y operaciones de estructuras comerciales y públicas. La ADA está abriendo muchas oportunidades en los campos del AEC para diseñadores, constructores y consultores. Política de Colegio Libre de Drogas
El Distrito de Colegios Comunitarios del Condado de San Mateo y el Colegio de Cañada, en cumplimiento con las Escuelas Libres de Drogas y las Enmiendas de las Actas Comunitarias de 1989, prohíben el uso, posesión, venta o distribución de alcohol, narcóticos, drogas dañinas o ilegales, u otras substancias reguladas definidas en los estatutos de California, en las propiedades del Distrito o Colegio, o en cualquier evento auspiciado por el Distrito o Colegio.

Los estudiantes deben conducirse como ciudadanos responsables y de una manera compatible con la función del Colegio Comunitario como una institución educativa. Los estudiantes están sujetos a la autoridad civil y a todas las reglas y regulaciones del Distrito y del Colegio.

Based upon a physician's recommendation, each student is given an individualized exercise program tailored to his/her specific physical abilities and limitations. Improvement in muscular strength, flexibility, balance, coordination, and cardiovascular endurance is the primary goal of the general conditioning classes. Emphasis is placed also upon providing enjoyable, positive experiences in order to enhance self-image and social interaction, with independence and mainstreaming (where possible) as a long-range goal. Students should call Barbara McCarthy at 306-3473 for more information.

Students work with instructors and job supervisors to establish measurable learning objectives appropriate for their jobs. Credit is earned toward an associate degree or certificate when these objectives are successfully accomplished. Spring and Fall semesters, students must be enrolled in seven (7) units, including Cooperative Education/Work Experience. Summer session, students must be enrolled in any half-unit (0.5) course plus Cooperative Education/Work Experience. Call 306-3367 for additional information.

Students who have jobs related to their occupational goals may earn one unit of credit for each 75 hours of paid work with a maximum of four units per semester for a total not to exceed 16 units while enrolled in a community college. Students in volunteer jobs with non-profit organizations may earn one unit of credit for each 60 hours of work.

Disabled Student Program

The Disabled Student Program offers a range of services to students with various disabilities, including physical, psychological, and learning disabilities. The program encourages the active participation of disabled students by serving as an information, counseling and academic center. Any student with a learning, psychological, or learning impairment is encouraged to seek the services of the Disabled Student Program. Through supportive services, an individual can meet his/her academic, social and personal goals while attending Cañada College. Interested students should contact the Disabled Student Office for more information, 306-3259. TDD/TTY (650) 306-3161. (Bldg. 5, Room 207)

The Learning Achievement Program is designed to meet the needs of students with particular learning disabilities. After assessment, an IEP (Individualized Educational Plan) is developed for each student. Tutorial assistance in numerous academic and vocational subject areas is provided through peer tutors approved by Cañada instructors and trained at the College. Adults with possible learning disabilities or diagnosed learning disabilities should contact the Learning Achievement Program at 306-3259.

Financial Assistance Programs

Financial aid falls into three categories:

- Grants/Fee Waivers: Aid which does not have to be repaid and in most cases is awarded primarily or solely based on financial need. The major programs of this type include the BOGW (Board of Governor Fee Waiver) which waives the enrollment and health fee for California residents; the Federal Pell Grant which is a direct grant payment to the student to meet college and educationally related living costs; Federal SEOG (Supplemental Education Opportunity Grant) which is a direct grant payment drawn on a limited college allocation; CAL Grant which is a direct grant payment for California residents requiring grade point average confirmation as well as financial aid application; and the PCF Emergency Grant program which is a one time grant for emergency situations.

- Federal Work-Study (FWS): Aid which allows the student to work, generally on campus, to earn funds while attending college. These funds do not have to be repaid.

- Loans: Borrowed funds which must be repaid. The major programs in this category include the Dean’s Emergency Loan program, and the Freshmen Success Book Loan. These loans are generally paid back within the semester the funds were released.

Eligibility

Eligibility depends upon the program being applied for. For example, the BOGW program is available to students who demonstrate at least one dollar of financial need and have been classified as a resident of California by the Admissions and Records Office. This program serves over 2,000 Cañada students as of the 2001-02 year. The Federal Pell Grant requires financial need be demonstrated by the federal aid application (the FAFSA) and the student must either by a U.S. citizen or in one of a group of categories known as eligible non-citizen (typically INS approved status as either a permanent resident, resident alien, refugee, or asylee). As the criteria to qualify can vary widely, all students who have a financial need are strongly encouraged to apply. The Financial Aid staff provides guidance on what programs a student can apply for. In a number of cases, a student may qualify for more than one program to assist them in their college costs.

As application processes can vary depending on the programs being applied for, it is recommended to apply as early as possible so eligibility can be determined and notification provided before the start of enrollment. At the same time, many of the financial aid programs that are offered (particularly the grant and fee waiver programs) can be applied for after a semester has begun. Deadlines do exist for certain programs—specifically the CAL Grant, Federal SEOG and FWS. If remaining funds exist in these programs after awarding those that have applied by a deadline, applicants may be awarded on a first come first served basis. Please review the extensive material available (in English or in Spanish) in the Financial Aid Office or on the College website - canadacollege.net. For more detailed information on deadlines and procedures to apply. It is also recognized that there may be circumstances that the aid application does not capture which impact the ability to attend college. The Unusual Circumstance form and the Dependency Override Request form provide the opportunity for the student to describe those situations and have this additional information included in their review of financial aid eligibility.

For detailed information regarding specific assistance programs, students should contact the Financial Aid Office, Bldg. 8, Room 211 between the hours of 7:30 a.m. - 4:30 p.m., Monday through Thursday, 7:30 a.m. - 8:00 p.m. on Wednesday, and 7:30 a.m. - 12:00 p.m. on Friday.

New Federal Regulation: Return of Title IV Funds

A student who receives Federal Aid and withdraws from all classes prior to completing more than 60% of the semester, will be required to pay money back to the federal government.

Ability to Benefit

Any person applying for Financial Aid who is 18 years of age or older, who has not earned a high school diploma, or who has not received a satisfactory GED score, or a passing score on the high school proficiency test should be prepared to show evidence of ability to benefit from community college courses. Such evidence may include, but is not limited to, ability to read, write, compute, and converse at an acceptable level as determined by assessment tests administered by the college.

Those who apply for financial aid and for admission to Cañada College and who are not high school graduates as defined in the above paragraph, must complete assessment testing and participate in orientation. (Federal Ability to Benefit reference 34CFR600.11)

For GED testing information, interested persons should call the unified school district in their area. In the local area the GED test is offered through the Sequoia Union High School District, 365-2116 or 369-6809.

EOPS is designed to help students work towards a certificate or an AA/AS degree, train for a career, or transfer to a four-year university. It also aims to provide students with a sense of identification and to prepare them for assuming responsible positions within their communities and within a larger society. EOPS provides the following:

**Scholarships**

Cañada College provides a scholarship program to recognize and honor outstanding achievement and to provide students financial assistance when furthering their academic pursuits. A number of scholarships are available to new, continuing or transferring Cañada students. All applicants for scholarships will be considered for the general scholarship program. Awards are based on stated criteria of the donor(s), which usually include demonstrated academic achievement and promise, involvement in extra-curricular activities, and financial need.

Cañada’s Scholarship Committee meets each spring to review applications and select recipients for the following academic year. Information and applications are available for a number of privately awarded scholarships. Deadlines are usually early in the year. Requests for applications and information should be directed to the Financial Aid Office, Building 8, Room 211. The application deadline is March 1 for the general scholarship program.

**Freshman Success Program and Learning Communities**

The Freshman Success Program is an innovative approach to traditional course offerings, created by linking a course with specific curriculum content and a course to give the student strategies to be successful in college.

Teachers in the linked courses work as a team, coordinating assignments, exams, and other class activities in their specified courses. Students, too, become a team by joining together in a "cohort" or group, to take the linked classes. Students in this environment are better able to connect and apply information and learning from one course to another. Participation in such a program contributes to improved student success, and reduced attrition.

Learning communities are "packaged" classes with a common theme taught by two instructors. They can lead students to a deeper understanding of both subjects and enhance problem-solving, an essential ability for the 21st century work force.

**Health Services**

The Health Center is located in Bldg. 1, Room 117. A variety of services are available: information and consultation on health problems, evaluation of symptoms, over-the-counter medications, personal health counseling, first aid, pregnancy testing, vision screening, blood pressure screening, health oriented programs, assistance with referrals for medical and dental care and psychological services, and arrangements for emergency care and student insurance.

Quality health insurance is available to all students enrolled in a minimum of 4 units of credit. All students are covered by District accident insurance. Dental insurance plans at reasonable cost are available to all students.

All Health Services are free and confidential. They are available to both day and evening students on either a drop-in or appointment basis. For further information, call the Health Center, 306-3309.

**Learning Centers**

The on-campus Learning Center, located on the second floor of Building 5, Room 105, is designed to provide a positive learning environment that integrates technological resources and learning assistance services to support student learning across the curriculum. The Learning Center provides a wide range of individualized college credit programs and self-paced courses in essential skill areas of English as a Second Language, reading, vocabulary, study skills, writing and mathematics. Learning Center courses are designated with the course prefix LCTR. Both non-degree and degree credit courses are available. Degree credit courses articulated with the CSU system are transferable.

The Learning Center programs and self-paced courses incorporate the content and language of college subject areas. Students are assessed and provided program plans focusing on areas of need. Students complete assigned programs using computer, internet, audio, audio-visual, and print material. As they proceed through the programs and self-paced courses with the assistance of instructors, aides, tutors and/or student assistants, their performance is evaluated periodically before they proceed to higher level objectives.

Also incorporated within the Center are the Computer Center, Tutorial Center, Math Center, Writing Lab, and MESA Center. The programs are coordinated with both related classroom offerings and the individualized LCTR programs and self-paced courses.

The Computer Center, which is internet-accessible, is used by students completing individualized LCTR programs and self-paced courses and by students taking a course with supplementary assignments requiring computer use. Students completing supplementary assignments for a course must enroll in the appropriate course. Information about enrollment is available through the front desk.
The **Tutorial Center** provides individual and small group tutorial assistance in Cañada courses. Peer tutors, recruited from a wide range of academic and vocational areas, must enroll in LCTR 100 for tutor training unless they have previous experience tutoring in college subject areas. All participating tutees must enroll in LCTR 698 (no fee, no credit) and must remain enrolled in the course in which they receive assistance.

The **Math Lab** is an area in the Center where students who are currently enrolled in Cañada math courses may receive drop-in assistance.

The **Writing Center** offers students enrolled in writing courses and other courses requiring writing skills, additional instruction and skill reinforcement.

The **Writing Center** offers students enrolled in writing courses and other courses requiring writing skills, additional instruction and skill reinforcement.

The **MESA Program** (Math Engineering Science Achievement) provides students who are considering math, science, engineering majors with academic excellence workshops, mentoring, field trips and counseling.

**Learning Center hours:**
- Monday-Thursday: 8:00 a.m. - 8:00 p.m.
- Friday: 8:00 a.m. - 3:00 p.m.

(Summer session hours may vary; contact the Learning Center at 306-3348 for specific summer hours.) Also, certain areas may not be available to students during all hours of operation. Please check posted hours for specific LCTR areas.

The **Learning Center at the Menlo Park Center (OICW Building)** is open from 7 a.m. to 3 p.m., Monday through Thursday, and from 7 a.m. to 11:30 a.m. on Friday. The Center offers self-paced instruction in many levels of English, reading, writing, and English as a Second Language. These courses prepare students for college-level work or provide students the skills they need for success in job training programs and at work. Students starting at the Center are provided an assessment of their skill level so as to place them appropriately. Students may use the Center whenever it is open and at times convenient to them.

For more information, call Martha Chavez at (650) 325-0164. Para más información pueden llamar a Martha Chavez al teléfono (650) 325-0164 de lunes a juegos de 7 am a 3 pm, o los viernes de 7 am a 11:30 am.

**Library**

The Cañada College Library is housed in the westernmost section of the lower floor of the Campus Center. It is reached by stairway or elevator starting on the Cafeteria (third floor) level, or by paved pathway across from Building 13.

The Library is the information center of the campus and strives to support the educational mission of the College. It includes a collection of books, periodicals, newspapers, microfilm, microfiche, video tapes and CD-ROM databases. Students may also access the Internet in the Library.

The Library offers a one unit course which teaches students how to conduct research.

There are three service areas. The **Circulation/Reserve** desk issues library cards and contains restricted loan material as well as college catalogs. The **Reference/Periodical area** services the research needs of students. Shelved there are periodical and newspaper indexes, the microfilm collection, as well as a large variety of reference source material. A general collection of some 46,000 volumes is arranged on open shelves for easy access in the **Reading Room**. Table and carrel seating for students is provided in this room, which affords a panoramic view of the wooded slopes of Skyline Ridge and is an inviting place for quiet study.

The libraries of Cañada, CSM, and Skyline are members of the Peninsula Library System, a consortium of San Mateo County’s public libraries. The combined collections of these member libraries total more than 2.5 million volumes and are accessible by means of the on-line public catalog. Intra-systems loans can be delivered to the campus or picked up at one of the member libraries.

Students may borrow college library materials with their Peninsula Library System (PLS) card, issued by any public or community college library in San Mateo County. Students who live in San Mateo County and do not have a PLS card, as well as students who do not live in San Mateo County, may obtain a library card from the Cañada Library Circulation Desk. Proof of enrollment is all that is required.

**Programs for High School Students**

**High School Concurrent Enrollment Program**

Students currently attending high school, who have completed their sophomore year, may apply for this special program. High School Concurrent Enrollment is an enrichment program designed to provide eligible high school students with the opportunity to start college while still in high school. College courses are demanding and students must meet eligibility requirements that indicate they are ready for the academic challenge. Prior academic performance must indicate an expectation of successful completion of high school and concurrent college courses.

Program eligibility includes the following criteria: students must 1) maintain minimum daily attendance at high school; 2) have earned and maintain at least a 2.0 grade point average or higher in high school (excluding physical education courses); 3) work with the high school counselor to determine appropriate course selections; 4) submit to the Office of Enrollment Services a completed Concurrent Enrollment Application packet by the program deadline; 5) attach to the application packet current copies of high school transcripts that include all coursework completed to date; and 6) meet all course prerequisites and co-requisites. Many college courses have prerequisites and/or co-requisites. Students who wish to enroll in English, English as a Second Language, Mathematics, or any course that has an English or a Math prerequisite must take Cañada College placement tests in English, ESL, and/or Mathematics. Participation in High School Concurrent Enrollment is approved on a semester-by-semester basis and therefore students must submit Concurrent Enrollment Application packets.
for each semester of participation in the Program. Continuing student status does not apply to High School Concurrent Enrollment. Program deadlines are earlier than regular admissions deadlines. Typically the deadline for application packets for the summer session is the first week in June, for fall semester the first week in August, and for the spring semester the first week in January. The application packet deadline for short courses is one week prior to the beginning date of the short course.

In all cases, the final decision of admission of any student to any course rests with the college.

Although every attempt is made to enroll students in courses of their choice, college policy gives first priority for enrollment to continuing college students. All academic credit earned by students in High School Concurrent Enrollment is college credit and appears as such on students’ Cañada College transcripts. If students wish to use this credit toward high school graduation as well as accumulate college credit, they must complete a Transcript Request form or submit a written request to the Office of Enrollment Services to have transcripts sent to the high school.

High School Outreach
The office of High School Outreach develops and coordinates outreach services for the high schools. The primary goal of the office is to inform the community about educational, vocational and transfer programs, and to facilitate the application process at Cañada College. Cañada College's outreach and recruitment efforts utilize faculty and staff, current students, and alumni to increase the College’s accessibility to potential students.

The outreach staff provides, but is not limited to, the following services:

- Presentations to high school students, parents, and community groups on admissions procedures, academic programs and student services
- Application and financial aid workshops
- Schedule placement testing at the high schools
- Schedule visits at the high schools to meet with students
- Attend College/Educational Fairs at the high schools and businesses
- Give campus tours: individual, as well as, large groups

For more information, contact the College Representative, Carmina Chavez, at 306-3427.

Middle College
The Cañada Middle College is a joint partnership between the Sequoia Union High School District and Cañada College. Middle College is designed to reach high potential, underachieving high school students who want a head start on college. Students may complete requirements for a high school diploma and earn credits towards an AA degree at the same time. Approximately 60 juniors and seniors from the Carlmont, Menlo Atherton, Redwood, Sequoia and Woodside High School attendance area are accepted into the program each Fall. Students must satisfy the graduation requirements of the Sequoia Union High School District and earn a diploma from their home high school. A minimum of two high school courses per semester is required each year: English III or IV and Economics or American Government. The remaining classes are selected from Cañada College courses to fulfill the credits and requirements for high school graduation. College classes give high school and college credit simultaneously and many may apply towards a four-year college or university degree.

Sequoia Union High School District teachers teach the required high school classes on the Cañada College campus. These teachers also advise students on academic classes, graduation requirements, and career preparation. Faculty members at Cañada College teach all college courses. For more information, contact the Middle College Office Assistant at 306-3120 stop by the Middle College Office located in Bldg. 17-212, or visit our website at www.canadacollege.edu/middlecollege.

Technical Preparation (Tech Prep)/School-to-Career
Tech Prep articulation agreements have been approved by local high schools, San Mateo County Regional Occupational Programs (ROP), OICW, and Cañada College in the following occupational areas: Accounting, Office Technology, Early Childhood Education, Fashion Design, Architectural Drawing, Multimedia, and Information Technology. Other approved articulation agreements exist at the College of San Mateo and Skyline College.

The articulation agreements will be honored at any of the three colleges in the San Mateo County Community College District. Students may be granted from one to six college units after enrolling in and successfully completing six units with a GPA of 2.0 or better in the approved Tech Prep programs. For more information, call 306-3201, or visit our website at www.smccd.net/accounts/techprep.

Student Life
To gain the most from college life, students are encouraged to participate in Cañada clubs and activities, which offer many opportunities for making both social and educational contacts. Anyone interested in joining or starting a club or organization should contact the Office of Student Life, Bldg. 5, Room 211C, (306-3364). The following is a list of current or recently active clubs: International Student Club, Dance Club, Science and Engineering Club, Black Students Union, Environmental Club, A.S.I.D - Interior Design Club, Latin American Friendship Club, LGBT (Lesbian, Gay, Bisexual, Transgender Union), Phi Theta Kappa International Honor Society, Truth Seekers (Cañada Christian Fellowship Club), Italian Club and Rotar-Act (Rotary) Club.

Housing
The Office of Student Life maintains a housing file for use by Cañada students. Most of these listings are rooms in private homes; a few are available on the basis of work in exchange for room and board. All arrangements are made between the owner and the student. Students should contact Student Life, 306-3373, if they have a room or apartment to rent, or need housing. International students may call Soraya Sohrabi at (650) 306-3494 for housing information.

Student Government
All students enrolled at Cañada College are members of the Associated Students of Cañada College (ASCC). The following elected student officers represent the official voice of students on campus: President, Vice President, Student Services, and ten Senators. The officers inform students about campus issues, administer student association monies, and represent student interests on Cañada's governing committees.

Student government provides a unique educational opportunity to learn by doing in the world of college governance. Participation is demanding and time consuming, but students have testified that their involvement was the most valuable learning experience they had at college, both educationally and socially.

The student government operates under the provisions of the State Education Code and the regulations of the Board of Trustees and Cañada College. It serves as a vehicle through which students can recommend and help effect changes at their college.

Any student who is interested in becoming a senator or participating in student government should contact the Office of Student Life, Building 5, Room 214.
Student Publications
The Student Handbook contains information about student organizations, college services, college rules, student rights, student disciplinary due process procedures, and Cañada’s staff and governance structure. The handbook is available in the Student Life Office.

Study Abroad Program
Cañada College students can earn college credit while studying abroad. Any student who has completed at least 12 units of college credit is eligible to participate. All courses are transferable to four-year institutions. Transportation, housing and meals are offered at reasonable cost. For more information and brochures regarding the District’s Study Abroad Program, students should contact the program’s 24-hour hotline at 574-6595 or computers.

Veterans Affairs
Cañada College is approved to certify veterans as students who are enrolled in pursuit of an associate degree under Chapter 35 (veterans dependents), Chapter 31 (rehabilitation), Chapter 30, and VEAP. All students, except those eligible under Chapter 31, must buy their own books and supplies. Those interested in attending Cañada under any of these chapters should contact the Veterans Administration Office to determine eligibility for benefits. The VA Regional Office maintains a toll-free number (1-800-827-1000) from 8:00 a.m. to 4:00 p.m., Monday-Friday.

After eligibility is determined, the veteran should bring a copy of his/her DD-214 (separation papers), the Certificate of Eligibility and Cañada registration receipt to the VA Clerk in the Office of Enrollment Services (Building 8, Room 215) for processing. Veterans who have previously attended college must have official copies of college transcripts on file in the Office of Enrollment Services. Eligible veterans have 10 years from the date of separation from active duty to use their educational benefits. Interested students can visit or call (650) 306-3492 between 3:30 and 8:00 p.m., Monday through Thursday.

Upon presentation of separation or discharge papers, veterans will be awarded six units of academic credit in recognition of military service. When possible, these units are to be used to satisfy the physical education and natural science requirements for the associate degree. Units which cannot be applied in this manner will be considered as elective units.

Also, veterans may receive credit toward the associate degree for training received in military service schools. Such training must be documented by a certificate of completion issued by the military school from which training was received. Students must complete a minimum of 12 units of coursework at Cañada with a grade-point average of 2.0 or above to qualify for this credit.

In addition to the academic standards outlined in the paragraphs above, veterans receiving educational benefits will be subject to the following academic standards for continuing eligibility:

• Must maintain a minimum of at least a 2.0 (C) overall grade point average in all course work attempted.
• Veterans whose overall grade point average falls below 2.0 (C) will be given a maximum of two semesters to correct the academic deficiency and bring the overall grade point average to at least the 2.0 (C) minimum requirement.
• Veterans whose overall grade point average remains below 2.0 (C) for more than two semesters will be allowed to pursue their educational goals but will not be certified for educational benefits until such time that the overall grade point average is at least 2.0 (C) or higher.

ASSESSMENT/PLACEMENT TEST INFORMATION

The Assessment /Placement Test process is designed to assess students’ current academic skills and used to determine course placement in the areas of English, English as a Second Language, Reading, Writing, Mathematics and some computer and science courses. Assessment results are valid for two years. If students do not accept the course placement results they may retake the same placement test once within a two-year period.

Placement test scores and multiple measures information are used to place students in courses that are commensurate with current academic skills. Appropriate course placement and selection is essential to a successful college experience and important for academic development. The Cañada College English Placement Test calculates multiple measures criteria in the final scores and the results are used to verify English, Reading and Writing course prerequisites and subsequent placement. For placement into Mathematics courses, the score on the math placement test is reviewed with other measures as appropriate.

Students who are not currently enrolled should submit a completed College Application prior to taking the placement tests. Specific dates, times, and locations for testing are published in the Schedule of Classes and located on the College website. Pre-registration for placement tests is not required. Students must bring to testing sessions photo identification, the student identification number (or social security number), and #2 pencils. Placement tests begin promptly at the scheduled times and latecomers are not admitted. The English/Reading and ESL placement tests take approximately 2 hours to complete. The Mathematics test takes 1.5 hours to complete and calculators are not allowed.

English/Reading Assessment Information

The English Placement Test is required for enrollment in English, Reading and Writing courses and it may be required to verify prerequisites for other courses as well. Cañada College administers the Companion Reading Comprehension and the Companion Sentence Structure tests for English placement. A student may be exempt from the English Placement Test/Assessment if:

• A placement test in English/Reading was completed at Cañada College or CSM or Skyline College within the last two years and the results are available; or
• Transcripts from an accredited college or university in the United States are provided and indicate course work in English and Reading has been successfully completed with a grade of “C” or better (it is often necessary for students to provide catalog descriptions or course outlines of the coursework completed to verify the skill level of the course completed); or
• A copy of the College Board Advanced Placement (AP) test scores indicating completion of the English Language or English Literature test with a score of 3, 4, or 5 is provided.

To view example questions of the English Placement Test go to the College website and select the Online College Orientation.

Cañada College administers the Mathematics Diagnostic Testing Project (MDTP) instrument that includes four math level tests: Test #1 Algebra Readiness, Test #2 Elementary Algebra, Test #3 Intermediate Algebra, and Test #4 Precalculus. At the testing site, students select to complete the test which is commensurate with their math experience and knowledge. It is recommended that students review mathematics materials prior to taking the Math Placement Test. Local libraries or bookstores have math review books and materials or computer software to use for this purpose. To assist with the review process, Test #1 Algebra Readiness includes questions related to: integers, fractions, decimals, exponents, measurement of geometrical objects, percents, and geometry. Test #2 Elementary Algebra includes questions related to: arithmetic operations, polynomials, linear equations and inequalities, quadratic equations, graphing, rational expressions, exponents, square roots, and geometry. Test #3 Intermediate Algebra includes questions related to: elementary operations, rational expressions, exponents and radicals, linear equations and inequalities, quadratic polynomials, equations, and inequalities, graphing and coordinate geometry, logarithms and functions. Test #4 Precalculus includes questions related to: polynomial, trigonometric, logarithmic and exponential functions, rational expressions, exponents and radicals, linear equations and absolute values.

Students may be exempt from Mathematics Assessment if:

• A placement test in Mathematics was completed at Cañada College or CSM or Skyline College within the last two years and the results are available; or
• Transcripts from an accredited college or university in the United States are provided and indicate course work in Mathematics has been successfully completed with a grade of “C” or better (it is often necessary for students to provide catalog descriptions or course outlines of the coursework completed to verify the skills level of the course completed); or
• A copy of College Board Advanced Placement (AP) test scores indicating completion of the Calculus AB or BC test with a score of 3, 4, or 5 is provided.
English as a Second Language (ESL) Assessment Information

College Board Advanced Placement Test (AP) Policy

Cañada College grants credit toward the Associate Degree for all College Board Advanced Placement Tests on which a student scores 3 or higher. The credit may be subject credit, elective credit or credit toward general education requirements as determined by college evaluators. Students should send an official copy of AP results to the Office of Enrollment Services and consult with a College Counselor.

The Counseling Center: Educational, Career, and Transfer Services

(Información en español está en la página 16.)

All students who plan to complete a vocational certificate, an Associate degree, or to transfer to a university should meet regularly (at least once a semester) with a counselor. The Counseling Center, located in Building 5, Room 204, 306-3452, offers integrated services in the areas of educational counseling, career, and transfer information. Open Mondays through Fridays during the day and evening, the Center’s hours of operation are posted on the door.

Centralized Counseling Appointment System

Go to the Counseling Center to schedule an appointment to meet with a Cañada College counselor or call the Counseling Center appointment desk at 306-3452. All counseling appointments are scheduled at this location.

Educational Counseling Services

Available to all Cañada College students, Educational Counseling Services are designed to: 1) help students make decisions and set educational and career goals; 2) provide academic program planning to complete certificate, associate degree, and/or university transfer programs; 3) help students evaluate current academic readiness and plan coursework to build skills; 4) assist students to connect with campus services and resources; 5) evaluate transcripts from other American colleges and universities for credit applied to certificates and degrees at Cañada College; 6) teach students about important skills, strategies, and techniques to enhance classroom and academic success; and 7) work with students to resolve personal concerns that may interfere with the ability to succeed.

Educational planning is an important part of the work that counselors and students do together. In this regard, counselors assist students to develop Student Educational Plans (SEPs). The SEPs map out, semester by semester, courses necessary to complete specific educational goals and objectives. Once the SEP is developed, students are expected to meet with a counselor at least once a semester to review the SEP, evaluate ongoing educational progress, and make any modifications necessary to stay on the path and successfully complete educational goals.

Career Services

The primary goal of Career Services is to assist students to develop and carry out both short- and long-term employment and career goals. Services include: 1) a resource library of career exploration and job hunting books, videos, publications detailing preparatory education and training and labor market trends for career areas; 2) EUREKA, a computer-based California career information system; and 3) students looking for employment can use binders, access career related websites, and use the computerized MONSTERTRAK services, a college targeted internet job site.

Career Services also offers students an opportunity to use assessment tools to enhance career exploration and study skill awareness. Students may use the following assessments for a nominal cost: The Myers-Briggs Type Indicator (MBTI), The Strong Interest Inventory (SII), and Study Behavior Inventory (SBI).

Career Services hosts career and job hunting workshops, employer recruiting, and other activities throughout the year. Drop by the Counseling Center for more information.

Transfer Services

University transfer is the goal of many students who attend Cañada College. Students interested in transferring to a four-year college or university can use Transfer Services to research universities, majors, academic requirements, college costs, and other transfer issues. Resources include college catalogs, college directories and guides, videos, applications, articulation information, and access to PROJECT ASSIST, a self-guided site that provides general education, major, and course equivalency information.

Each semester Transfer Services invites representatives from colleges and universities to our campus to meet with students and discuss and evaluate transfer preparation. A variety of workshops take place in the Counseling Center on topics such as: Transfer Planning for the Freshman Student, How to Transfer to a CSU or UC Campus, How to Transfer to a Private/Independent College or University, How to Complete University Applications, Writing a Personal Essay for Transfer, Transfer and Financial Aid Opportunities, Guaranteed Admission Transfer Agreements, and more. Each fall semester Transfer Services hosts Transfer Day, an activity that provides the opportunity for students to gather information from different colleges and universities. The ultimate goal of Transfer Services is to assist community college students to meet their transfer goals! Located in the Counseling Center, the direct phone line to Transfer Services is 306-3372.

Counseling faculty teach courses in career and life planning and personal development. These courses provide a framework for college success, and career and educational exploration and decision-making. First-time college students are strongly encouraged to take one or more of these classes.

**Cooperative Admissions Program (CAP)**
The University of California, Berkeley’s College of Letters and Science and Cañada College offer a Cooperative Admissions Program for students not admitted to UCB because of space limitation but who met the eligibility requirements for admission.
Provided they meet specified criteria, CAP students are guaranteed admission to UCB as juniors. Students are required to spend the first two years at Cañada College completing specific requirements for both their major at UC Berkeley and breadth requirements of the College of Letters and Science. For more information, students may call the Counseling Center at 306-3452.

**Academic Planning**
Students are encouraged to meet with a College Counselor/Advisor on a regular basis (at least once a semester) to participate in academic planning. Counselors/Advisors are available throughout the academic year to 1) assist students to make decisions and set educational and career goals, 2) provide academic planning program to complete certificate, associate degree, and/or university transfer programs, 3) help students evaluate current academic readiness and plan coursework to build skills, 4) assist students to connect with campus services and resources, 5) evaluate transcripts from other American colleges and universities for credit applied to certificates and degrees at Cañada College, and 6) teach students about important skills and strategies to enhance classroom and academic success. Cañada College Counselors/Advisors are generalists and, as such, equipped to assist students with all Associate degree majors and certificates, and university transfer information and guidance.

A good relationship between a student and a counselor is essential. To this end, students may select the counselor/advisor with which they wish to work. Counseling/Advising services are available during day and evening hours. For more information or to schedule an appointment to meet with a counselor/advisor go to the Counseling Center, Building 5, Room 204, or phone (650) 306-3452.

Please note, the final responsibility for knowing college policy and procedures, college deadlines, program requirements and enrolling in appropriate courses rests with the student.

**Registration**
*(Información en español está en la página 16.)*

**Open Enrollment**
Every course offered at Cañada College (unless specifically exempted by legal statute) is open for enrollment and participation by any person who has been admitted to Cañada and who meets the prerequisites of the course, provided space is available.

**Schedule of Classes**
Complete information regarding registration dates and procedures is published in the College Schedule of Classes for each semester. The schedules are available on the Cañada campus, in local high schools and Public Libraries, and on our web site: www.canadacollege.edu.

**Online (WebSMART) and Touchtone phone (SMART)**
Computerized registration online or by telephone takes place prior to each semester. Students should refer to the printed Schedule of Classes or the Cañada website (www.canadacollege.edu) for detailed procedures.

**Program Changes**
Once registration has been completed, the student’s program may be changed by the student via SMART or WebSMART through the second week of class. After the second week of classes, changes must be submitted to the Office of Enrollment Services by the student on an Add/Drop form. Students may use WebSMART the entire semester to register for short-term classes that begin after the start of the semester and to drop classes.

**Courses With Overlapping Times**
Students may not register in two courses which meet at the same time or have overlapping times. Exceptions to this rule may be approved under circumstances of academic necessity (not scheduling convenience). In addition, approval requires submission of a documented plan describing how the student will make up missed class time under the instructor's supervision. Overlap exception forms are available in the Office of Enrollment Services.

**Unit Load Limitations**
A normal load for a full-time student is 15 units. No student is permitted to take more than 9 units during the Summer Session or 19 units during the Fall and Spring semesters without special approval of the Director of Matriculation, Transfer and Articulation. Approval forms are available in Admissions and Records. Students working full time should limit their program to six or fewer units. Combinations of work and college study should be carefully discussed with the counselor.

A program of 12 or more units during Fall and Spring semesters, and 6 units during Summer session is considered full-time for athletic eligibility, financial aid, international students (F-1 visa), veterans benefits, Social Security benefits, and most other benefits which are dependent upon student enrollment status.

**Course Repetition**
The Board of Trustees of the San Mateo County Community College District has adopted a policy (District Rules and Regulations, Section 6.12) which permits a student to repeat certain courses for credit a maximum of three times (total of four class enrollments) within the SMCCCD.
These courses require increasing levels of student performance or provide significantly different course content each subsequent semester. Such courses will be designated as “may be repeated for credit” in the course description. Courses which are not so designated may not be repeated under this policy. Further information about this policy is available from Cañada College counselors and Division Offices.
Repetition of Courses for Legally Mandated Training

Student will be permitted to repeat courses indefinitely where repetition is needed for the student to meet a legally mandated training requirement as a condition of continued paid or volunteer employment. The grade received each time shall be included for purposes of calculating the student’s grade point average. Students wishing to repeat courses must present documentation that course repetition is necessary to complete legally mandated training requirements.

Audit Courses

In compliance with State regulations, Cañada has identified the following courses as audit courses: Art 207, 232; Danc 215, 350; Dram 300; Fitn 204, 215; Fren 803; Indv 164, 254; Mus. 304, 464; Team 115, 175. To register in a course as an auditor, the student must have taken the course on a credit basis for the maximum times allowable.

An auditor may register only after the Late Registration period has concluded, with the professor's signature on an Add/Drop form and on a space available basis. A $15 per unit fee, the Health Services fee, and the Student Representation fee will be charged at the time of enrollment. Students enrolled in 10 units or more for credit can audit up to 3 units free. Students enrolling as auditors in variable unit classes must enroll in the maximum number of units available for a course.

Grades & Academic Standing

Grades

Academic Record Symbols and Grade Point Average

Grades from a grading scale shall be averaged on the basis of the point equivalencies to determine a student’s grade point average. The highest grade shall receive four points, and the lowest grade shall receive zero points, using only the following evaluative symbols:

<table>
<thead>
<tr>
<th>Symbol</th>
<th>Definition</th>
<th>Grade Point</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Excellent</td>
<td>4</td>
</tr>
<tr>
<td>B</td>
<td>Good</td>
<td>3</td>
</tr>
<tr>
<td>C</td>
<td>Satisfactory</td>
<td>2</td>
</tr>
<tr>
<td>D</td>
<td>Passing, less than satisfactory</td>
<td>1</td>
</tr>
<tr>
<td>F</td>
<td>Failing</td>
<td>0</td>
</tr>
<tr>
<td>CR</td>
<td>Credit (satisfactory: C or better; units not counted in GPA)</td>
<td></td>
</tr>
<tr>
<td>NC</td>
<td>No credit (less than satisfactory or failing; units not counted in GPA)</td>
<td></td>
</tr>
</tbody>
</table>

The GPA (grade point average) is determined by dividing the total number of grade points earned by the total number of units attempted.

The following non-evaluative symbols are used at Cañada College:

I-Incomplete

This symbol is used if academic work is not completed by end of term, unusual circumstances were a factor for the student not completing the coursework, and the instructor agrees to provide an extension for when that work can be submitted. The work to be completed and the time allowed for its completion shall be set forth by the instructor in a written record which the student agrees to and signs. The record indicates the grade to be assigned in lieu of removal. The student will receive a copy of the record. A copy of the record will also be filed with the Office of Enrollment Services. A final grade will be assigned by the instructor when the outstanding academic work has been completed within the required period. The grade determined by the instructor will be entered in the permanent record.

An “Incomplete” must be made up within one year following the end of the term in which it was assigned. Established college procedures may be utilized to request a time extension in cases involving unusual circumstances. The “I” shall not be used in the computation of grade point average.

IP-In Progress

This symbol is used in the permanent record of the student to confirm current enrollment and/or to indicate that the course extends beyond the normal end of the term. It indicates that work is in progress and that unit credit and a grade will be assigned when the course is completed. The “IP” shall not be used in the computation of grade point average.

RD-Report Delayed

This symbol is used by the Office of Enrollment Services to indicate a delay in reporting the grade due to circumstances beyond the control of the student. An approved withdrawal, under these conditions, shall be recorded as a “W”. Petitions for late withdrawal may be obtained from the Office of Enrollment Services or at the college website: www.canadacollege.edu.

W-Withdrawal

Note: It is the responsibility of the student to withdraw from a class. The term “drop” is used to refer to a specific period at the beginning of a term whereby removing oneself from enrollment will result in no record of enrollment in the class for transcript purposes.

A student may drop from a semester length course during the first four weeks of instruction and no notation will be made on the academic record of the student. In courses of less than a regular semester duration, a student may drop prior to the completion of 30% of the period of instruction and no notation will be made on the academic record of the student.

A student may withdraw from a semester length course, whether passing or failing, at any time after the fourth week of instruction through the last day of the fourteenth week of instruction. A “W” symbol shall be noted on the student record. In courses of less than a regular semester duration, a student may withdraw from the 30% period of completion on instruction to the completion of 75% of the period of instruction. A “W” grade shall be noted on the student record.

Late Withdrawal

The academic record of a student who remains in class beyond the time periods set forth above must reflect an authorized symbol other than “W”. However, after the end of the fourteenth week (or after the 75% period of instruction for course less than semester length) withdrawal may be authorized in the case of extenuating circumstances. These are defined as verified cases of accident, illness or other circumstances beyond the control of the student. An approved withdrawal, under these conditions, shall be recorded as a “W”. Petitions for late withdrawal may be obtained from the Office of Enrollment Services or at the college website: www.canadacollege.edu.

MW-Military Withdrawal

Military withdrawal will be authorized when a student who is a member of an active or reserve U.S. Military Service unit receives orders compelling a withdrawal from courses. Upon verification of such orders, a notation of “MW” may be made on the student record. Military withdrawals are not counted in probation or dismissal calculations. Further information may be obtained by the Office of Enrollment Services.
Any student not following the established withdrawal procedures may be assigned an “F” or “NC” grade by the instructor.

Student Notification
If the student is on probation or in dismissed status, he/she will receive notification in writing at the end of the semester.

Grade Reports
Progress reports are available from the faculty at mid-semester. The midterm deficiency notice is not made a part of a student’s permanent record; it is for information purposes only. After the end of the semester, the final grade report is available to the student through the SMART telephone system (see Schedule of Classes for SMART dates), and on Cañada’s web site: www.canadacollege.edu. A student may also make a request at the Office of Enrollment Services to have a copy mailed to them. The official final grade report becomes a part of the student’s permanent record.

Grade Option
Each division of the College may designate letter grade courses in which a student may elect to receive Credit/No Credit (i.e., Pass/Fail). Grade option courses allow students to explore various fields of study and to broaden their knowledge, particularly in fields outside their major, without jeopardizing their grade point average. Both methods of grading require the student to complete all assignments, exams, and/or class projects. Students who elect the credit/no credit option are required to sign appropriate forms in the Office of Enrollment Services. This decision must be made within the first 30% of the class length and is irreversible.

Courses taken on a credit/no credit basis may or may not be applicable toward fulfillment of the major, the certificate or general education requirements. In addition, four-year colleges and universities vary widely in the number of units of “Credit” grades they will accept. Students should consult the catalog of the college to which they plan to transfer to determine what limitations apply.

The use of courses graded “Credit” to satisfy major or certificate requirements must be approved by the Division Dean, in consultation with members of the division faculty. A maximum of 12 units toward an associate degree or 6 units toward a certificate may be in grade-option courses in which a student has elected to receive a grade of “Credit.”

Each division of the College may also designate courses in which all students are evaluated on a credit/no credit basis only. “Credit” grades earned in these courses are exempt from the 12/6 unit maximum described in the paragraph above.

Final Grades and Grade Challenges
In the absence of mistake, fraud, bad faith, or incompetency, the determination of the student’s grade by the instructor shall be final once it has been filed and recorded by the Office of Enrollment Services.

An earned grade of A, B, C, D, F, W, CR, NC may be changed by the instructor within one year if a clerical error is determined to have been made in calculating the grade. Grades cannot be changed on the basis of a student completing course work after the assignment of the final grade.

Students who believe a grade was assigned incorrectly should first attempt to resolve the matter with the instructor; if unsuccessful, they should contact the Division Dean; and, finally, submit a petition to the Academic Standards Committee. Petitions are available at the Office of Enrollment Services.

Academic Standing
Academic standing is based upon all coursework completed in the San Mateo County Community College District (includes Cañada, CSM, and Skyline).

Scholastic Honors
A Dean’s List of Students who achieve academic honors is posted at the end of each semester containing the name of each student who has completed 12 units or more of work for a letter grade during that semester with a grade point average of 3.3 or higher. A Part-Time Students Dean's List is for part-time students who have completed at least 12 units, completing at least 6 units and not more than 11.5 units within a term, and have earned a 3.3 GPA.

Academic honors are awarded at graduation to students who have attained a 3.3 cumulative grade point average in all coursework. High honors are awarded to students who have attained a 3.5 average or above.

Grade Point Deficiency
The Academic Standards Policy is based on a cumulative grade point average of “C”;, the minimum standard of progress toward graduation or transfer.

All units and grade points are on a cumulative basis. At all times, a student must maintain a cumulative grade point total that is double the total units attempted (“C” average). If a student undertakes 12.5 units in one semester and 15.5 in a second semester, his or her cumulative units are 28, requiring a grade point level of 56. (Example: 56/28=2.00 GPA.)

Any grade point total less than twice the attempted units is regarded as deficient. (Example: 55/28=.196 GPA)

Credit/No Credit courses will not affect a student’s grade point deficiency.

Academic Renewal
Up to 36 semester units of substandard course work (i.e., D, F, and NC) within a maximum of two semesters and one summer session which are not reflective of the student’s current demonstrated scholastic ability may be alleviated and disregarded in the computation of the grade point average under the following conditions:

1. A period of at least three years must have elapsed since the course work to be alleviated was completed.
2. A student seeking the alleviation must have since completed 9 units of course work with a 3.5 cumulative grade point average, or 15 units of course work with a 3.0 cumulative grade point average, or 21 units of course work with a 2.5 cumulative grade point average, or 24 units of course work with a 2.0 cumulative grade point average.
3. The substandard coursework to be alleviated must have been taken at Cañada College, College of San Mateo, or Skyline College. However, the course work upon which the application for alleviation is based may be completed at any college or university accredited by the Western Association of Schools and Colleges or an equivalent accrediting agency.

The academic renewal policy may be applied when alleviation of prior course work is necessary to qualify a student for financial aid or admission to a program or transfer to another institution or for completion of a certificate or degree program. To request Academic Renewal, a student must file a formal petition to the Office of Enrollment Services located in on the bottom floor of Building 8.

When academic course work is alleviated from the computation of the grade point average, the student’s permanent academic record shall be properly annotated in a manner to ensure that all entries are legible, providing a true and complete academic history.

Grade Alleviation
A student who has received a grade of D, F, or NC in a course may repeat the course once for purposes of grade alleviation. Upon satisfac-
Academic probation based on grade point average: A student who has attempted at least 12 semester units, as shown by the official cumulative record, shall be placed on academic probation if the student has earned a grade point average below 2.0 in all units which were graded on the basis of the grading scale (see page 32).

Academic probation based on failure to maintain satisfactory progress: A student who has enrolled in a total of at least 12 semester units, as shown by the official cumulative record, shall be placed on academic probation when the percentage of all enrolled units for which entries of W, I, and NC are recorded reaches or exceeds 50 percent.

The two probationary criteria described above will be applied in such a manner that a student may be placed on probation under either or both systems, and subsequently may be dismissed under either or both systems.

A semester in which a student completes an official “Leave of Absence” will not be included in the tabulation used to determine satisfactory academic progress as outlined above.

Removal from Probation
A student placed on academic probation on the basis of grade point average shall be removed from probation when his/her cumulative grade point average is 2.0 or higher.

A student placed on academic probation on the basis of failure to maintain satisfactory progress shall be removed from probation when the percentage of units completed is at or above 50 percent.

Dismissal
A student on probationary status shall be subject to dismissal if in any two subsequent semesters either or both of the following criteria are applicable:

- The student's cumulative grade point average is less than 1.75 in all units attempted.
- The cumulative total of units in which the student has been enrolled for which entries of “W,” “I,” and “NC” have been recorded reaches or exceeds 50 percent.

Normally, a dismissed student must remain out of day and evening classes for one semester before petitioning the Office of Enrollment Services for reinstatement.

A dismissed student may present a written appeal to the Academic Standards Committee requesting immediate reinstatement if dismissal has resulted from unusual circumstances. A registered student making such an appeal should remain in classes until the decision regarding reinstatement is made.

Students in dismissed, probationary or reinstated status must meet with a counselor for appropriate intervention.

Attendance Regulations
Regular attendance in class and laboratory sessions is an obligation assumed by each student at the time of his/her registration. When a student fails to attend class, he/she misses the content of the session, and course continuity is lessened. When failure to attend class places a student's success in jeopardy, the instructor may drop the student from the class.

Total hours of absence which exceed twice the number of hours a class meets in a week define “excessive absence” as used by many instructors in dropping students for nonattendance. Instructors may, however, utilize stricter attendance requirements.

Absence due to participation in college-sponsored activities may be considered excused when the student informs the instructor in advance of the absence and makes up all work missed.

A student dropped from any class for nonattendance may appeal in writing to the Division Dean within five college calendar days of such a drop if the student thinks the absences should be excused, and reinstatement in class can be justified. Students may, with the permission of the instructor, remain in class while their appeal is being reviewed. A recommendation regarding the appeal will be forwarded to the instructor whose decision is final.

Emergency Leave of Absence
A student who finds it necessary to withdraw from all enrolled courses at any time after registration must obtain a petition for semester leave of absence. This petition may be obtained from the Health Center if the emergency is of a medical nature. A petition for non-medical emergency leave of absence may be obtained from the Office of Enrollment Services. It is the student’s responsibility to complete the petition process. The leave of absence shall only be used when verified circumstances beyond the student’s control force a complete withdrawal from all courses. Withdrawals resulting from an approved leave will not be included in the determination of the student’s academic progress.

A student absent 5 days or more with a medical problem should notify his/her instructor(s).

Credit by Examination
A student who wishes to earn credit by examination must first receive written certification from the Office of Enrollment Services indicating that the following criteria have been met:

- The student is registered at Cañada and in good standing, with a GPA of 2.0 or better.
- The student can demonstrate that he/she is qualified, through previous training or instruction, to successfully complete such examination.
- The Division Dean, in consultation with faculty, will make the decision to offer or not offer the exam based upon: a) the availability of a faculty member to administer the exam, and b) an assessment of the student’s readiness to take the exam.
• Only courses which transfer to four-year baccalaureate granting institutions are available for credit by exam (this excludes all 800 level courses and certain other courses), except for certain occupational program courses. Laboratory-based science courses and Cooperative Education courses are not available for credit by exam.

• Credit by examination is available only for courses listed in the Cañada College catalog.

Credit may be earned by examination provided that the examination has been approved or prepared, administered and graded by faculty and other designated authorities of Cañada College.

A maximum of 12 units toward an Associate Degree or 6 units toward a Certificate may be earned for courses for which credit has been earned by examination. Credits earned by examination cannot be used to satisfy the 12 unit residence requirement for the Associate Degree or Certificate of Completion.

A Letter grade or Credit/No Credit grade will be assigned upon successful completion of credit by examination, and the student's academic record shall be clearly annotated to reflect that credit has been earned by examination. A student may challenge a course by examination only one time. Petitions for credit by exam may be obtained from the Office of Enrollment Services.

Transcripts

Official transcripts will be sent to employers, colleges and other institutions upon a student's written request. Requests are generally processed within 3–5 working days from date received. Only courses taken at Cañada College, CSM, and/or Skyline appear on the transcript; transcripts from high schools and other colleges will not be forwarded. The first two transcripts are free. Each additional transcript costs $3.00. Official transcripts given directly to the student may be opened only by the receiving institution.

Currently enrolled students who wish to have their academic records from other accredited institutions within the United States evaluated by the Office of Enrollment Services and have those units placed on their permanent record at Cañada College may do so by requesting their official transcript to be sent directly to the Office of Enrollment Services. Upper-division credits completed at a four-year college or university will not be accepted or counted toward an AA/AS Degree or Certificate at Cañada College. Lower division coursework completed at a college or university outside the United States will be considered for inclusion on a transfer student’s record at Cañada College only after the transcript from the foreign institution has been evaluated by an approved agency which is able to provide a translation of the transcript, and a detailed report which includes subject breakdown, grades, upper or lower division, semester or quarter and number of units completed. Students should contact the Office of Enrollment Services for the names of approved agencies.

Transferring within the District

Students may take classes at more than one of the San Mateo Community College District. Students may transfer from one College within the San Mateo County Community College District to another without penalty, although differences in curriculum offerings among the three colleges may exist. District students who transfer to one District College to another receive full credit for instruction completed at any of the SMCCD Colleges. Individual courses taken at a particular College within the District that satisfy an area in the associate degree general education pattern, statutory, and/or specific area requirements shall be accepted by the other two District colleges as satisfying those same requirements.

Students who have completed the entire General Education pattern, basic competency, and statutory and specific area requirements at one District College shall be determined to have completely fulfilled all of those same areas for graduation at any of the District Colleges. Upon transferring to another District College, students shall be required to complete only those courses applicable toward the major for the Associate Degree or Certificate program. Students are expected to meet the major course requirements established by the College to which they have transferred that will issue the Associate degree or Certificate.

Students who have taken course work at more than one of the District's Colleges shall ordinarily be recommended for graduation from the College in which they have taken the majority of their course work.

Units of Work and Credit

A “unit” of college credit usually represents one hour per week of lecture and approximately two hours per week of homework, or 3 hours per week of laboratory for semester-length courses.

Graduation Requirements

A student remaining in continuous attendance at Cañada College, College of San Mateo, and/or Skyline College may, for purposes of graduation, elect to meet the requirements in effect at the college from which the student will graduate either at the time the student began such attendance or any subsequent year of continuous enrollment.

For the purposes of this policy, "continuous enrollment" means attendance through at least the fourth week of instruction in either a fall or spring semester in each calendar year. Absence to attend another accredited college or university shall not be considered an interruption in attendance if the absence does not exceed one year. Catalog rights cannot supersede any State or Federal regulation or requirement in effect at the time of graduation.

Degree Credit & Non-Degree Credit Courses

The State of California has legislated a series of reforms designed to strengthen the community colleges. One of these reforms mandated a comprehensive review of the standards of instruction in each course in the curriculum. Each course was classified as “degree credit” or “non-degree credit”. A course offered for “non-degree credit” cannot be counted toward certificate completion, graduation or transfer. The following notation is placed at the end of the course description for all non-degree credit courses: “Units do not apply toward the AA/AS degree.”

Precollegiate Basic Skills Courses

With the exception of English as a Second Language and learning disabled students, no student may receive more than 30 semester units of credit for precollegiate basic skills courses. Students who show significant, measurable progress toward the development of skills appropriate to enrollment in college-level courses may apply to the Director of Matriculation to request a limited waiver of this requirement.

Certificate Programs

Certificate programs are designed for students looking for short-term programs of instruction with a high degree of specialization. They are designed to prepare individuals to enter a particular field of employment or provide a level of in-service training or education for those already employed. Cañada College awards two levels of certificates. Certificates of Completion are those that are less than 18 units of course work. Certificates of Proficiency are those that are 18 units or more of course work. The section–Associate Degrees, Certificates, Transfer—in this Catalog lists programs alphabetically by subject and identifies the certificate and associate degree programs available.

The Certificates (Competency and Proficiency) have been designed on the career ladder concept and courses taken to fulfill the lower level of certificate, the Certificate of Completion, can be applied to the next level, the Certificate of Proficiency, if the certificate of proficiency exists. The course work applied to the certificates can also be applied to associate degrees. If no associate degree major exists in the area then the units can be counted as electives toward any associate degree. If an associate degree with the specific major exists then the units may make up an Associate Degree major.

Certificate of Completion (Certificates Requiring Less Than 18 Units) General Requirements and Certificate of Proficiency (Certificates Requiring 18 Units or More) General Requirements

1. The prescribed courses and units must be completed as identified in the Cañada College Catalog under core and selective courses.
2. Fifty percent of the required courses (identified as core and selectives) must be completed at Cañada College. Equivalent lower division courses completed at other institutions holding district approved accreditation may be submitted on a Request for Substitution petition for consideration to satisfy some certificate requirements. Petitions for this purpose are available in the Enrollment Services Office, Building 8, bottom floor.
3. All CORE classes applied to the certificate must receive a grade of C or better. If the course is evaluated by credit or no credit ONLY then a “credit” evaluation for the course is acceptable. If the course is offered as “grade option” a letter grade of C or better is required.
4. Computer Literacy Requirement: satisfactory completion of a minimum of 1 unit of the following – Actg 190, 196, Art 314, Intd 362, 363, Legl 276, Bus 103, 440, 441, or any computer related courses above Bus 417, any Comp or CIS course, OR a passing score on the Cañada College computer literacy test (both written and hands-on).
5. English Competency Requirement: eligibility for English 100 and Reading 420 as determined by the Cañada College English Placement Exam or satisfactory completion of English 836 and Reading 836.
6. Students must be in “good academic standing” to receive a Certificate of Completion.

Associate Degree (AA/AS) Requirements

Graduation from Cañada College with the Associate in Arts or Associate in Science degree is based upon the completion of 60 units of lower division college work, including the requirements A through G listed below. An application for the degree must be filed in the Office of Admissions and Records during the last semester of attendance. The application should include a counselor’s signature. Refer to the Calendar of Important Dates on page 3 for the deadline dates.

A. Residence
A minimum of 12 units of the 60 units must be completed at Cañada College.

B. Scholarship Requirement
A minimum overall grade point average of 2.0, a minimum 2.0 grade point average in the 60 units submitted for the Associate degree, a minimum 2.0 grade point average in course work taken in the San Mateo County Community College District, and a minimum 2.0 grade point average in units applied to a major must be attained. Grades earned in nondegree applicable courses will not be counted in the GPA calculation.

The purpose of General Education is to foster the preservation, communication and development of knowledge, the cultivation of wisdom, and the understanding of values that will help ensure the survival of humankind and improve the quality of human life. In support of this purpose, the General Education requirement seeks not only to prepare students who are knowledgeable and well-informed, but to engender in them:

- a taste for learning in a climate of curiosity and wonder
- an independent and critical cast of mind based on a respect for knowledge
- a capacity for creativity and imagination
- a sense of ethical responsibility that includes tolerance, sympathy for humankind, and commitment to improve the quality of life
- a respect for knowledge and ability to think independently and critically

Courses which meet the General Education Requirements introduce students to the variety of means through which people comprehend the modern world.

The subject matter presented in these courses is designed to be general, broad, and frequently introductory, rather than specialized. In order to promote these goals, the General Education requirement incorporates the following curricular objectives:

- to improve the essential communication skills of listening, speaking, reading, and writing based on analytical thinking
- to acquire broad perspectives on the human experience, through a study of both western and non-western civilizations
- to gain an understanding of the principles of natural phenomena, technological developments and the effects they will have on society, the insights afforded by the social sciences into the human experience, the contributions of the humanities to the enrichment of human existence
- to develop sensitivity to the dilemmas facing humankind by an introduction to key social issues of the contemporary era
- to develop the knowledge and understanding of the rights, responsibilities and privileges involved in becoming a participating citizen in a democratic, pluralistic society
- to provide opportunities to gain information which could aid students in making realistic career decisions

Specific General Education Unit Requirements

- Associate in Arts Degree—21 units minimum
- Associate in Science Degree—18 units minimum

F. Ethnic Studies

Edicated people celebrate and value cultural diversity. The ethnic studies/cultural diversity graduation requirement of one 3-unit course at Cañada College demonstrates the commitment to include in the education of students the knowledge of the ever-changing diversity of our country. With the fulfillment of this requirement, students have the opportunity to see themselves and others in the mutually supportive relationship basic to the survival and prosperity of all of us. Refer to Ethnic Studies in the Course Descriptions section of this Catalog for a list of specific courses.

G. Physical Education

One or more courses in physical education for a minimum of 2 units is required for an AA/AS degree. This requirement will be waived or modified for students in the following categories:

- graduates of community colleges or other accredited colleges and universities

Completion of all IGETC requirements permits students to transfer from a community college to the CSU or the UC systems without the need, after transfer, to take additional lower-division general education courses to satisfy individual campus general education requirements. Many Independent Colleges accept all or part of IGETC in lieu of their specific general education course patterns. All areas must be satisfied, and all courses must be completed with a grade of “C” or better before the IGETC can be certified. At the completion of course work at Cañada College and prior to transfer, it is important to request an IGETC CERTIFICATION from the Enrollment Services Office to be mailed with the FINAL transcript to the transfer destination. Use PROJECT ASSIST (www.assist.org) for the most up-to-date transfer information which includes general education and lower division major requirements. Credit for this courses is given only after a review of the course outline by the enrolling UC campus. This usually occurs after transfer. UC will not give credit for variable topics courses in Journalism, Photography, Health, Business Administration, Architecture, Administration of Justice, or Library Departments due to credit restrictions in those areas.

Physical Education Activity Courses
The University of California gives a maximum of four semester units of credit for Physical Education activity courses. P.E. activity courses are not listed on the TCA, however, P.E. theory or courses that do not fit either the theory or activity category are listed.

The Business Department offers a transfer curriculum to a four-year university, an AS Degree, and a certificate program designed to give the students both formal and practical training in accounting. The accounting AS degree and certificate programs are designed to give students enough practical experience so that they can secure a position in either the public, governmental, or private accounting sector when they have completed the recommended 27.5 - 29.5 units. Courses specifically required for the student’s major must be evaluated by a letter grade, not by the credit (CR) grade.

TRANSFER PROGRAM - BIOLOGICAL SCIENCE

Cañada College offers lower division coursework required for transfer in the area of Biological Sciences. Students should use PROJECT ASSIST (www.asist.org) to research lower division major requirements at the transfer destination(s) of their choice. Also, work with a Counselor/Advisor to determine appropriate transfer coursework.

PROFESSIONAL SCHOOL PREPARATION
(Pre-Dentistry, Pre-Medicine, Pre Pharmacy, Pre-Veterinary, Pre-Optometry)

Many students are interested in careers in the health science - medicine, dentistry, veterinary medicine, optometry - and wonder what they should major in at Cañada College. Students often have the misconception that “pre-med” is an academic major and it is not. Students should major in what they enjoy as long as they take the appropriate courses required for professional school (medical, dental, veterinary) admission. Some students choose majors like biological science, genetics, or microbiology, where there is a great deal of overlap between courses required for their major and the professional school undergraduate requirements. Many other students choose majors not directly related to their career objective, such as English, psychology, anthropology, and use their elective units to meet the professional school requirements. Professional schools, especially medical schools, are looking for well-rounded students who have taken courses in the humanities and social sciences, and who have participated in activities and community work. More information can be found at numerous websites (i.e., www.aamc.org) and by speaking with a Counselor/Advisor.

Each professional school has a minimum number of prerequisite courses to be taken at the undergraduate level. Requirements vary from school to school. Many prerequisite courses may be taken at Cañada College. The following is not a definitive list, but an overview of requirements for most schools. Biology 225, 230, Chemistry 210, 220, Mathematics 241 & 242, Physics 210 & 220, Psychology 100, English 100, and 110 or 165, Humanities and Social Science coursework.

TRANSFER PROGRAM - COMPUTER INFORMATION SCIENCE
Cañada College offers lower division coursework required for transfer in the areas related to Computer Science. In this regard, it is suggested that students research Computer Information Systems, Management Information Systems, Computer Science, and Computer Engineering programs. EARLY CHILDHOOD EDUCATION/CHILD DEVELOPMENT
Certificate of Completion - Family Development 9 units+
Certificate of Proficiency - Early Childhood Education/Child Development 24 units+
Associate in Science - Early Childhood Education/Child Development 24 units*
Transfer Program Available
+meet Certificate Program requirements listed on page 37.
*and required General Education coursework and electives as needed to meet the minimum 60 units required for the Associate degree.

The Early Childhood Education/Child Development Program is designed to meet individual career goals, foster positive parenting skills, and increase individuals' general understanding and appreciation of childhood. Children's growth, developmentally appropriate practice, and professional development within the child care field are major aspects of the program. The child from birth to ten years is the primary focus. Current research and practical applications are combined in order to assist students in planning their most effective role with children.

Any student in the ECE/CD Program may complete the certificate program in one year if a minimum of 12 units is taken each semester. Students coming from other colleges and universities may have equivalencies established if "child" is in the title of the course and no "Elementary Education" designation exists. All courses that apply toward the certificate program must be lower division work. A minimum of 12 units must be taken at Cañada College to receive the Cañada College ECE certificate. A minimum of a "C" grade in all course work is required.

AREAS OF SPECIALIZATION WITHIN THE ECE/CD PROGRAM

In accordance with the guidelines established by the Child Development Permit for the Master Teacher, Cañada College’s ECE/CD Program has created several "specializations." ("Administration" is not considered a specialization.) Six semester units in specific areas define a specialization. These focus areas can be useful to students when seeking work advancement or career development options.

Geography provides insights about the earth as the human habitat. It is a way of looking at the earth, not an inventory of its contents. This viewpoint rests on fundamental interlocking concepts. The cultural appraisal of the earth, the regional concept, areal coherence, human ecology, spatial interaction, study of landscape, and the concept of change are all ways the geographer tries to better understand the environment.

The History Department at Cañada College offers a broad variety of courses intended to prepare students for transfer and for global citizenship. In history classes, students deepen their knowledge of the past while improving their reading, writing, and research skills. Our courses meet many general education requirements in addition to providing the classes necessary for History majors.

History majors commonly become lawyers, teachers, professors, museum professionals, journalists, and archeologists. History provides a solid foundation for those wishing to work in business, politics, and public policy. History is also an excellent major for anyone hoping to get a teaching credential in the Social Sciences.

Transfer Program Available

The Interior Design Department offers courses designed for individuals interested in preparing for careers in the professional fields of interior design. Included in the program are a transfer program, an AS degree, and three certificate programs—a core certificate, residential and commercial, and kitchen and bath design. The Kitchen & Bath Certificate is endorsed by the NKBA, National Kitchen & Bath Association. The AS degree in conjunction with the residential and commercial design or kitchen and bath certificate meets the minimum qualifying requirements for the American Society of Interior Designers (ASID) allied membership. Completion of the Kitchen & Bath Certificate prepares students for the AKBD (Associate Kitchen & Bath Design) exam and the CKD (Certified Kitchen Designer) and CBD (Certified Bath Designer). Interior Design students are required to complete the core requirements in Interior Design before taking the residential, commercial design and kitchen and bath certificate requirements. If a student has an earned Bachelor’s degree, he/she must see a counselor regarding courses completed during the first two years of college that may be substituted for core requirement courses.

Mathematics provides the foundation for studying engineering, the physical, biological and health sciences, economics, business, computer science, statistics and many other fields. A major in mathematics itself opens up job opportunities in many fields since mathematical problem-solving skills are widely applicable. Thus, people with mathematical degrees work in fields such as accounting, budget and financial analysis, market research analysis, demographics, banking and finance and systems analysis, and many others.

MUSIC

Associate in Arts 18 units*
Transfer Program Available

*and required General Education coursework and electives as needed to meet the

“In a world of political, economic, and personal disintegration, music
is not a luxury but a necessity, not simply because it is therapeutic nor
because it is the universal language, but because it is the persistent focus
of man’s intelligence, aspiration, and good will.” -Robert Shaw.

The Music Department at Cañada College, through its outstanding faculty,
places strong emphasis upon performance, both individual and group.
At the same time, the department offers the general student enhanced
understanding and appreciation of all forms of music. Through this
two-fold approach, the department’s purpose becomes clear: to promote
excellence in all aspects of music performance and academic course
work, to provide basic preparation for careers in music, and to promote
interest in all musical and artistic endeavors at the college and in the
Bay Area community.

The Physical Science Department is designed to give the student breadth in the physical sciences while providing considerable strength in one of the specialized science fields of chemistry, geology, or physics. The lower-division program in the physical science major is virtually the same as that taken in the first two years of college by a chemistry major, physics major, or geology major, thus enabling students to transfer among these majors if they so choose. A major in physical science can serve as preparation for further study in technical fields and serves as an excellent background for professional training in law, business, medicine, or education.

SPEECH

The Speech Department at Cañada College offers classes in the two primary forms of verbal communication: public address (rhetoric), and conversation or private discourse (dialectic). The department also offers a course in Oral Interpretation of Literature (reading aloud from the printed page), which, though concerned with neither rhetoric nor dialectic, is closely related to both of those forms of verbal address. The instructors in this department emphasize the necessity of strong and logically structured argument, at the same time recognizing the primacy of humane and empathetic elements in human communication. Speech classes at Cañada College are designed to encourage students to understand and use the traditional elements and devices of good speaking, while learning how to apply that understanding to their personal speaking styles.

THEATRE ARTS

Transfer Program Available

*and required General Education coursework and electives as needed to meet the minimum 60 units required for the Associate degree.

The Cañada College Drama Department presents a program rich in depth and diversity. Students pursuing a career in the theatre arts or simply desiring creative expression, will find in the drama department, a wide array of pertinent courses, as well as an extensive opportunity to put their developing knowledge and talent to work in performing on stage, in technical work, or in both. Because the department usually produces five plays during the year, a student has the opportunity to work with at least two different directors and in plays ranging from comedy to heavily dramatic works.

The Cañada Drama Department can point with satisfaction to a significant and steadily growing number of its former students who go on to professional stage, movie, and television work performing, producing, and technical and also to the many gratified amateurs.

It should be emphasized that the drama program is designed for students of all levels of experience—beginning, intermediate, and advanced.

COURSES

General Information ........................................ 82
Descriptions .................................................. 83
GENERAL INFORMATION

BASIC SKILLS ADVISORY SYSTEM
A Basic Skill Advisory refers to the recommended skill level in reading, writing, and/or mathematics which is needed before enrolling in a course. In order to succeed in most courses, students need to demonstrate at specific levels reading and writing skills and, for some courses, perform mathematical operations before enrolling. Designating these basic skill levels informs students at which minimum levels they need to perform before enrolling in the target courses.

Basic skill levels are recommended rather than mandatory, but students are strongly encouraged to adhere to them and follow the advice of their counselor. Counselors use placement test results and other information to determine whether a student needs to raise his/her skill levels before enrolling in a target course.

Open Curriculum
Some courses are designated as OPEN CURRICULUM (OC) courses. This designation means that specific levels of reading, writing and/or math are not required for successful course completion. Most OC designated courses are activity courses which do not require students to use reading, writing, and/or math skills. Some OC designated courses are entry level reading, writing, and/or math courses. Specific levels of proficiency for enrollment in these courses are not designated because students may begin at their current instructional levels and proceed to higher levels of performance until they reach exit levels for course completion. Some of these courses, however, such as READ 801, ENGL 801, and MATH 811 may require that placement test results and other information be on file prior to the first day of class.

Recommended Basic Skill Level Summary:

CALIFORNIA ARTICULATION NUMBER (CAN)
The California Articulation Number (CAN) identifies some of the transferable lower division, introductory courses commonly taught within each academic discipline on college campuses. The system assures students that CAN courses on one participating campus will be accepted in lieu of the comparable CAN course on another participating campus. Counselors will provide interested students with a list of participating institutions.
The CAN system is new and growing and designed to facilitate student transfer between and among public institutions of higher education in the State of California. CAN numbers are listed parenthetically after the course descriptions in the listing of courses.

PARKING

Parking anywhere on campus is by permit only, in clearly designated areas. The Cañada College campus consists of all parking lots and access roads between Farm Hill Blvd. and Cañada Road. Parking is free Friday nights, Saturday and Sunday.

Student parking permits are available for $30 per semester and $20 for the Summer Session and may be purchased during registration or from the Business Office, Building 8, Room 305 during the day, or from the Enrollment Services Office during the evening. Parking permits must be affixed to the rear, left bumper or the lower left corner of the rear window. A second permit may be purchased for $1 on presentation of current registration certificates from both vehicles showing ownership by the same person.

Students attending class only one day or evening per week may purchase a daily permit each time they come on campus. These permits are available from vending machines for $1.00 and allow parking in student lots only. Daily permits are to be placed on the left hand side of the dashboard clearly visible to the security officer.

Visitor Parking Lot 4 is limited to one-hour parking only, except in spaces designated for disabled persons. Visitors on official business may request a temporary Visitor’s Permit allowing them to park in Visitor or permit lots. They are available from the Business Office located in Building 8, Room 305. No staff or student parking is allowed in visitor Lot 4.

Special parking permits for disabled students, day and evening, are issued by the Business Office, Building 8, Room 305. For further information, call the Enable Center at 306-3490 or the Business Office at 306-3270. Parking permits fees are refundable through the second week of instruction in semester-length classes, or the first 10% of the instructional period in less than semester-length classes. During late registration, a grace period will be in effect in student parking lots only, in order to enable students to purchase a permit during the late registration period. Parking regulations are enforced at all times in staff lots and in other restricted areas.

Parking spaces are available on a first-come, first-served basis. Therefore, a permit is not a guarantee of a parking space. Cañada College and the San Mateo County Community College District do not accept liability for vandalism, theft or accidents. Use of parking facilities is at the user’s risk. Student parking permits are valid at all three campuses of the SMCCCD.
