A Welcome to Cañada College from Interim President Tom Mohr

Dear students and community members,

I hope that you find the contents of our college catalogue to be informative and reflective of the wide range of academic offerings and support services available at Cañada College. With many higher education options available, what makes Cañada College stand out as a top choice for students in the Bay Area? In a word, it's service. Cañada College is one of the smallest community colleges in the Bay Area and offers personal service that you won't find anywhere else. Whether it's in the classroom, Learning Center, Counseling Services or our soon-to-open, state-of-the-art Library, you'll find friendly people who will work with you to help you achieve your academic and career goals. This is the reason Cañada College consistently ranks at the top of all California community colleges in preparing students to transfer to universities and to re-enter the workforce.

In addition to superior academic offerings and support services, students at Cañada College are literally exposed to a world of new ideas. A wide variety of students bring diversity and cultural awareness to the campus. Professors emphasize the importance of critical thinking, ethics, and interpersonal skills as they prepare students to succeed in the global workplace. Silicon Valley sits in the middle of an ever-changing global economy and Cañada College is connected to the cutting-edge businesses and industries in this region. Our new 3D Animation and Video Game Art program is the only one of its kind in the Bay Area and is a perfect example of how we continually update our class offerings to help you compete in a growing industry in the global workplace.

Cañada College has also forged partnerships with local school districts, especially high schools, offering programs that address the needs of highly skilled students who are ready to accelerate their college enrollment. Did you know that you can begin your college education at Cañada College as soon as you finish your sophomore year in high school? Did you know that most of the classes are free? If you participate in our concurrent enrollment program you can finish your first two years of college at about the same time you receive your high school diploma. Cañada College also offers collaborative programs for students who are immigrants, low-income and unfamiliar with the college environment.

Finally, at Cañada College, you don't have to transfer to earn a bachelor's degree. Cañada College is home to the first legislatively designated "University Center" at a California community college. More than 1,000 students are enrolled in classes taught at the University Center by professors from universities around the Bay Area. You can earn a bachelor's degree in nursing, early childhood education, a master's degree in business administration or your teaching certificate.

Those of us who work and teach at Cañada College are proud to bring you top quality education at a public community college. We are honored to serve you and will do all we can to make your experience with us successful.

Tom Mohr

The District

District Mission Statement

Preamble

The Colleges of the San Mateo County Community College District, Cañada College, College of San Mateo, and Skyline College, recognizing each individual's right to education, provide the occasions and settings which enable students to develop their minds and their skills, engage their spirits, broaden their understanding of social responsibilities, and realize their individual potential. The District is committed to leadership by providing quality education and lifelong learning in partnership with its community and its surrounding educational institutions. It actively participates in the economic, social and cultural development of San Mateo County. In a richly diverse environment and with increasing awareness of its role in the global community, the District is dedicated to maintaining a climate of academic freedom in which a wide variety of viewpoints is cultivated and shared. The District actively participates in the continuing development of the California Community Colleges as an integral and effective component of the structure of public higher education in the State.

Mission

In an atmosphere of collegiality and shared responsibility, and with the objective of sustaining open access for students and being responsive to community needs, the San Mateo County Community College District will fulfill the following mission with excellence:

1. provide a breadth of educational opportunities and experiences which encourage students to develop their general understanding of human effort and achievement;
2. provide lower division programs to enable students to transfer to baccalaureate institutions;
3. provide occupational education and training programs directed toward career development, in cooperation with business, industry, labor, and public service agencies;
4. provide developmental and remedial education in language and computational skills required for the successful completion of educational goals;
5. provide a range of student services to assist students in attaining their education and career goals;
6. provide self-supporting community education classes, contract education and training, and related services tailored to the human and economic development of the community;
7. celebrate the community's rich cultural diversity; reflect this diversity in student enrollment; and promote it in its staff and maintain a campus climate that supports student success.

To fulfill this educational mission, the District is committed to effective institutional research that supports the evaluation and improvement of programs, services, and student outcomes. Shared governance is practiced through processes that are inclusive with regard to information sharing and decision making, and that are respectful of all participants. The District plans, organizes, and develops its resources to achieve maximum effectiveness, efficiency, equity and accountability.

Cañada College

Cañada College opened in 1968. Its 131-acre site is located in the western part of Redwood City and overlooks the Bay. The College takes its name from Cañada Road, which winds its way through the valley to the west of the College; the Spanish word "cañada" means "long valley." Cañada is one of three community colleges in the San Mateo County Community College District and its primary service area is the southern portion of San Mateo County, Redwood City, San Carlos, Menlo Park, Atherton, East Palo Alto, La Honda, Portola Valley and Woodside.

Mission Statement

The mission of Cañada College is to ensure that students from diverse backgrounds achieve their educational goals by providing quality instruction in transfer and general education courses, professional/technical programs, basic skills and activities that foster students' personal development and academic success. Cañada College accepts responsibility for serving the community's diverse needs for lifelong enrichment and highly values close teacher to student teaching and learning relationships, support services and a co-curricular environment that contributes to personal growth and success for students.

Vision

Cañada College ensures student success through personalized, flexible, and innovative instruction. The College infuses essential skills and competencies throughout the curriculum and assesses student learning and institutional effectiveness to make continuous improvement. Cañada responds to the changing needs of the people it serves by being involved in and responsive to the community, developing new programs and partnerships and incorporating new technologies and methodologies into its programs and services.

Values

Striving to produce responsible, lifelong learners who become resourceful, adaptive, independent, and productive employees, employers, and members of their community, Cañada College values and actively promotes:

- Personalized instruction and service
- Active learning and interaction
- High standards of excellence
- Increased student access
- Diversity in staff, student body, and curriculum
- Partnerships with business, schools, colleges and universities, governments, and community based organizations

Role of the Faculty and Students

Cañada College seeks the counsel of its faculty and students through a system of permanent councils, committees and informal consultation. Standing and ad hoc committees are organized under the College Council or the Academic Senate which operates through a Governing Council (elected by the faculty). Classified staff members of committees are appointed by the CSEA; student members are appointed by the Associated Student Government. Instructors, students, staff and administrators participate in curriculum development and the learn-

ing processes and in the general campus environment as full voting members of the various college committees which provide guidance and assistance to the President.

Statement on Academic Freedom

The San Mateo County Community College District is dedicated to maintaining a climate of academic freedom encouraging the sharing and cultivation of a wide variety of viewpoints. Academic freedom expresses our belief in inquiry, informed debate and the search for truth; academic freedom is necessary in order to provide students with a variety of ideas, to encourage them to engage in critical thinking and to help them understand conflicting opinions.

Academic freedom encompasses the freedom to study, teach, and express ideas, including unpopular or controversial ones, without censorship or political restraint. Academic freedom, rather than being a license to do or say whatever one wishes, requires professional competence, open inquiry and rigorous attention to the pursuit of truth.

The District's faculty have the right to express their informed opinions which relate, directly or indirectly, to their professional activities, whether these opinions are expressed in the classroom, elsewhere on campus or at college-related functions. In a search for truth and in a context of reasoned academic debate, students also have the right to express their opinions and to question those presented by others.

Employment by the District does not in any way restrict or limit the First Amendment rights enjoyed by faculty as members of their communities. Faculty members are free to speak and write publicly on any issue, as long as they do not indicate they are speaking for the institution.

Protecting academic freedom is the responsibility of the college community. Therefore, in a climate of openness and mutual respect, free from distortion and doctrinal obligation, the District protects and encourages the exchange of ideas, including unpopular ones, which are presented in a spirit of free and open dialogue and constructive debate.

Registration

Steps to Enroll in Classes for New Students, Former Students, and New Transfer Students

Si necesita ayuda en Español para entender el proceso de matriculación, presentese en la oficina de admisión en el edificio #5 y pregunte por alguien que hable español. Será nuestro placer servirle.

Matriculation

Matriculation is a state mandated process that describes a partnership that you, the student, and Cañada College agree to form for the purpose of realizing your individual educational goals. This partnership acknowledges responsibilities of both the College and YOU, the student, to reach those goals through established programs, policies and requirements currently in place.

Complete the matriculation steps prior to registration if you have one or more of the following educational goals:

- obtain a vocational certificate,
- obtain an Associate degree,
- transfer to a four-year college or university, or
- are undecided about your specific educational goals but are considering the above options.

You are exempt from matriculation if on your application you have indicated one of the following:

- have completed an Associate or higher degree, or
- have enrolled in classes for personal enrichment only and do not intend to earn a degree or certificate, or
- are primarily a student at another educational institution and taking courses at Cañada College to meet requirements of that institution.

If you are EXEMPT from matriculation, after your application is processed, you will receive in the mail an assigned date to register via WebSMART.

Matriculation Steps

Step #1 - Admissions:

Complete the Application for Admission located in the center insert of the schedule or apply online at <https://websmart.smccd.edu>.

After your Application for Admission has been processed, you will receive a Permit to Register to guide you through the remaining matriculation steps.

Step #2 - Placement Tests/Assessment:

From the Placement Test Schedule, select a date to complete the testing requirement.

- Placement test results are valid for up to two years.
- Placement tests in English or English for Non-Native Speakers (ESL) and Mathematics are given to all new matriculating students.
- Placement tests are required for enrollment in English, English for Non-Native Speakers, and/or mathematics courses and any course that has an English, reading, or mathematics prerequisite.

- Placement tests are required for most of the Associate degree and university level courses.

You are automatically EXEMPT from taking the Placement Tests and may move directly to Step #3 if you fall into one of the following categories:

- Have taken the Placement Tests at Cañada College or CSM or Skyline College within the last two years and the test results are available.
- Are a former student or new transfer student from another accredited college in the United States and have completed course work in Mathematics and/or English with a grade of “C” or better. (Bring unofficial transcripts or other evidence of grades to your counseling appointment to verify this exemption.)
- Can show evidence of completing the College Board Advanced Placement Test (AP) in English Language or in English Literature with a score of 3, 4, or 5.
- Can show evidence of completing the College Board Advanced Placement Test (AP) in Mathematics with a score of 3, 4, or 5.

Bring evidence of test scores or course completion to your counseling appointment described in Step #4.

Step #3 – College Orientation

The College Orientation Program is REQUIRED and provides information about registration procedures, college policies, academic expectations, educational goals, and student services. Sign-up for an orientation session at the Counseling Center or call (650) 306-3452 OR complete the Online College Orientation: <http://canadacollege.edu/admissions/orientation.html>.

Step #4 - Counseling

Meet with a Counselor to discuss your assessment results and select courses appropriate to your academic readiness and educational and career goals.

Step #5 – Register for Classes

Return your completed Permit to Register to the Admissions and Records Office to receive an assigned registration date for your classes. Use WebSMART to register for your classes. Complete information regarding registration dates and procedures is published in the College Schedule of Classes.

After you have registered and paid for classes, you are officially enrolled at Cañada College. Be sure to attend the first class meeting. Work with your professors to meet the challenges and demands of each class. Use Counseling services regularly. At least once a semester, schedule an appointment to meet with a Counselor to 1) discuss progress toward your academic goals, 2) develop or update your Student Educational Plan (SEP), and 3) learn about important student services that enhance student success.

Matriculation waivers/exemptions: If you wish to request an exemption of any matriculation requirement, petitions are available in the Office of Admissions and Records. The Dean of Counseling and Enrollment Services reviews petitions, and applicants are notified of the status of the petition within five business days.

Students with a disability needing assistance with any part of the matriculation process should contact the Disabled Student Program at (650) 306-3490, TDD: (650) 306-3161.

Schedule of Classes

Complete information regarding registration dates and procedures is published in the College Schedule of Classes for each semester. The schedules are available on the Cañada campus, in local high schools and Public Libraries, and on our web site: www.canadacollege.edu.

Program Changes

Once you have completed registration, you may change your program via WebSMART. Once a class has started, an authorization code is required and can be obtained from the instructor. Students may use WebSMART the entire semester to register for short-term classes that begin after the start of the semester and to drop classes.

Courses With Overlapping Times

Students may not register in two courses which meet at the same time or have overlapping times. Exceptions to this rule may be approved under circumstances of academic necessity (not scheduling convenience). In addition, approval requires submission of a documented plan describing how the student will make up missed class time under the instructor’s supervision. Overlap exception forms are available in the Admissions and Records Office.

Unit Load Limitations

A normal load for a full-time student is 15 units. No student is permitted to take more than 9 units during the Summer Session or 19 units during the Fall and Spring semesters without special approval of the Academic Standards Committee. Approval forms are available in the

Admissions and Records Office. Students working full time should limit their program to six or fewer units. Combinations of work and college study should be carefully discussed with the counselor.

A program of 12 or more units during Fall and Spring semesters, and 6 units during Summer session is considered full-time for athletic eligibility, financial aid, international students (F-1 visa), veterans benefits, Social Security benefits, and most other benefits which are dependent upon student enrollment status.

Course Repetition

The Board of Trustees of the San Mateo County Community College District has adopted a policy (District Rules and Regulations, Section 6.12) which permits a student to repeat certain courses for credit a maximum of three times (total of four class enrollments) within the SMCCCD.

These courses require increasing levels of student performance or provide significantly different course content each subsequent semester. Such courses will be designated as "may be repeated for credit" in the course description. Courses which are not so designated may not be repeated under this policy. Further information about this policy is available from Cañada College counselors and Division Offices.

Repetition of Courses for Legally Mandated Training

Student will be permitted to repeat courses indefinitely where repetition is needed for the student to meet a legally mandated training requirement as a condition of continued paid or volunteer employment. The grade received each time shall be included for purposes of calculating the student's grade point average. Students wishing to repeat courses must present documentation that course repetition is necessary to complete legally mandated training requirements.

Auditing of Courses

In compliance with State regulations, Cañada College has identified certain courses that may be audited. Courses which can be audited shall be performance-type courses or skill-building courses where continued participation adds to the student's growth and where continued participation strengthens the program itself, or courses in which the subject content changes from semester to semester. To register in a course as an auditor, the student must have taken the course on a credit basis for the maximum times allowable.

An auditor may register only after the Late Registration period has concluded with the professor's signature on an Add/Drop form and on a space-available basis. A \$15.00 per unit fee, the Health Services fee, and the Student Representative fee will be charged at the time of enrollment. Students enrolling as auditors in variable unit classes must enroll in the maximum number of units available for a course.

Fees

The fees listed in this Catalog are those in effect at the time of publication. Fees are subject to change at any time by action of Federal or State statute, the Board of Governors of the California Community Colleges, or the San Mateo County Community College District Board of Trustees. A list of fees is published in each semester's Class Schedule and is available on WebSMART and in this Catalog under Fees.

Enrollment Fee

A state-mandated enrollment fee of \$26 per unit is payable by all students. The enrollment fee is calculated each semester based upon the student's combined enrollments at Cañada College, Skyline College, and/or the College of San Mateo.

The Board of Governors of the California Community Colleges has established a fee waiver program to help students pay the enrollment fee. Information on eligibility requirements, application deadlines, and application forms are available in the Financial Aid Office, in the Class Schedule, and on WebSMART under "Financial Aid Forms."

Students classified as nonresidents of the State of California must pay an additional Nonresident fee. (See details under "Nonresident Tuition Fee.")

Health Services Fee

All students, except high school students or those registering exclusively for Saturday, Sunday, or off-campus courses, are required to pay a \$14 Health Services Fee each semester for day or evening classes, or \$11 for each summer session. This fee provides campus health services and medical coverage for injuries incurred while the student is on campus or attending an off-campus, College-sponsored event.

Students who depend exclusively upon prayer for healing in accordance with the teachings of a bona fide religious sect, denomination, or organization may be exempted from paying the Health Services Fee. A petition for a Health Services Fee exemption may be obtained from the Admissions and Records Office, Building 8, Room 215, or by calling (650) 306-3226.

Student Representation Fee

The Student Representation Fee of \$1 per student per semester was established by an election of the student body of Cañada College. Under applicable provisions of the California Education Code, the students established the fee by a two-thirds majority of the students who voted in the election. The money collected through the Student Representation Fee will be expended to provide support for students or their representatives who may be stating their positions and viewpoints before city, county and district government, as well as before offices and agencies of local, State, and Federal governments. A student has the right to refuse to pay the Student Representation Fee for religious, political, moral or financial reasons. The fee is not covered by the California Community Colleges Board of Governors Waiver (BOGW) via financial aid and is not refundable unless an action of the College prevents the student from attending. A petition for a Student Representative Fee exemption may be obtained from the Cashier's Office, or by calling (650) 306-3270.

Nonresident Tuition Fee

Students who do not qualify as California residents as determined by the California Education Code must pay Nonresident Tuition fees. Refer to the Class Schedule or the Fees link on the Cañada College homepage for the current fee rate. The Office of Admissions and Records determines residency status at the time of admission. Refer to the "Residency Requirements" section of this Catalog for more information.

International (F-1 Visa) students pay the Nonresident Tuition plus a nominal capital outlay fee (in addition to the Enrollment fee).

International Student (F-1 Visa) Health Insurance

Required of international students that do not have the required level of private health insurance. For current rates call (650) 306-3494.

Student Body Fee (optional)

The voluntary Student Body Fee is \$8 per semester (Fall and Spring only) payable at the time of registration on WebSMART or at the Cashier's Office. Students who pay the fee receive an Associated Student Body ID Card which entitles them to special discounts at local businesses, movie theaters, shops, restaurants, and on-campus athletic events. Funds collected also help support student activities, services and scholarships. Students must contact the Student Activities Office at (650) 306-3373 for removal or reimbursement of charge if they choose not to pay.

Parking Fee

All persons driving an automobile, truck or van who utilize campus parking facilities during scheduled class hours and final examination periods are required to pay a parking permit fee (motorcycles are excluded if parked in designated motorcycle parking). Students enrolled exclusively in weekend or off-campus classes are exempt. The parking fee is \$30.00 for fall and spring semesters and \$20.00 for the summer session. These fees are nonrefundable except by action of the College. Parking permits may be transferred from one vehicle to another. One replacement permit may be purchased for \$20.00 if the initial permit is lost or stolen.

One-day parking permits are available for \$1.00 per day (in quarters only) from coin operated parking permit dispensers.

Students may pay for their parking permits at the time of WebSMART registration, or in person at the Cashier's Office, Bldg. 8, Administration. The permit, once purchased, may be obtained at the Cashier's Office.

Students must park in Student lots only. All Staff lots are reserved for staff only. Please refer to the campus map for parking lot locations. While parking in Cañada College campus parking lots, students must obey all campus, local and state regulations.

At the beginning of each term, a grace period of two weeks (one week for summer session) will be in effect in student parking lots only. The grace period does not apply to staff and metered lots and other restricted areas.

Parking spaces are available on a first-come, first-served basis. Therefore, a parking permit is not a guarantee of a parking space. Cañada College and the San Mateo County Community College District do

not accept liability for vandalism, theft or accidents. Use of campus parking facilities is at the user's risk. However, any such incidents should be reported to the Campus Security Office, Bldg. 13, Room 28, (650) 306-3420.

Disabled Student Parking

Physically disabled students who drive vehicles to campus must have a state-issued DMV placard. This placard allows parking in designated disabled parking spaces on campus. Students must purchase a student parking permit issued through Cañada College Cashier's Office. Students with temporary ambulatory disabilities who do not have a placard may receive special parking consideration by contacting DSPS, Bldg. 5, Room 207 or by calling (650) 306-3259, TDD: (650) 306-3161.

Audit Fee

An appropriate per unit audit fee will be assessed at time of registration. See "Auditing of Courses" section in this Catalog for further information.

Transcript Fee

An official transcript summarizing a student's complete academic record of course work taken at Cañada College, College of San Mateo, and Skyline College will be sent directly to colleges, employers, and other agencies upon written request by the student. Transcripts from high schools and other colleges will not be forwarded. There is no fee for the first two transcripts requested. There is a \$5 fee for each additional transcript requested. Express Service, usually within twenty-four hours or less, is available for an additional \$10. Contact the Admissions and Records Office for additional information.

Duplicate Diploma Fee

\$20 duplicate diploma fee.

Returned Check Fee

\$10 per returned check.

Materials Fee

Required in certain classes in which required materials are provided to students. Fees typically range from \$2-8 per class.

Payment of Fees

Fees may be paid in any of the following ways:

- By credit card (using Visa, MasterCard, American Express or Discover) via WebSMART at <http://WebSMART.smccd.net>
- By mailing a check or money order to the Cashier's Office, Building 8, Administration
- In person at the Cashier's Office, Building 8, Administration

Holds on Student Records

A hold will be placed on a student's record by the Business Office for fees and any other financial obligations owed to Cañada College, College of San Mateo, and/or Skyline College. Educational records will not be released, including grades, transcripts, certificates, and degrees, while an outstanding balance remains on their account.

Fines

Fines are assessed for failure to comply promptly with library and other campus regulations, and students are required to pay for careless or unnecessary damage to College property. Students delinquent in their financial obligations to the College may not receive grade reports or other records of their work until such delinquencies have been adjusted to the satisfaction of the college authorities.

Refund Policies

Enrollment fees shall be refunded in accordance with the following guidelines:

Prior to the First Day of Instruction

- Students dropping all classes will receive full credit toward future registration fees for the amount of all fees paid. A \$10 processing fee (plus an addition \$50 processing fee for non-resident students and F-1 Visa international students) will be retained by the College if a refund is issued to the student.
- If a parking permit has been issued, it must be returned to the Business Office before a credit or refund of the Parking Fee will be processed.

On or After the First Day of Instruction

- Enrollment Fee/ Nonresident Tuition
Students will receive full enrollment fee and non-resident tuition credit toward future registration fees if they reduce their program or officially drop from all courses within the first 10% of the period of instruction of their courses. Students who officially drop from all courses and request a refund will be subject to a \$10 processing fee. An additional \$50 processing fee will be retained by the College for non-resident and F-1 Visa international students who request a refund. (Example: If

a course has 12 meetings, 10% of 12 = 1.2. The College will round up to 2.0. Therefore, to be eligible for a credit or refund, the student must drop no later than the end of the day of the second class meeting.)

- Variable Unit Courses
No Enrollment Fee or Nonresident Tuition refund or credit will be available to students enrolled in variable unit courses who earn fewer units of credit than the number for which they originally registered. Students earning additional units will be charged accordingly.
- Health Services and Parking Fees
Students will receive a full refund through the second week of instruction for semester-length classes and through the first 10% of the instructional period for students enrolled in less than semester-length classes.
- Student Body Fee
Students will receive a full refund upon request and within the published deadlines listed in the Schedule of Classes.
- Student Representation Fee
The Student Representation Fee will be waived for students who refuse to pay for religious, political, moral, or financial reasons. This waiver must be submitted in writing within the first 10% of the period of instruction of the course(s).

Credit balances remain on student accounts for a maximum of five (5) years. A student may either choose to maintain a credit balance on account or contact the Business Office to arrange for a refund. Refunds are NOT issued automatically. Fees paid by personal check will require 30 days for bank clearance before refunds can be processed. To be eligible for a refund/credit, a student must officially drop from a course. Student records are automatically held until all debts to the District colleges have been cleared.

Grades & Academic Standing

Academic Record Symbols (Grades) and Grade Point Average

Grades from a grading scale shall be averaged on the basis of the point equivalencies to determine a student’s grade point average. The highest grade shall receive four points, and the lowest grade shall receive zero points, using only the following evaluative symbols:

| Symbol | Definition | Grade Point |
|--------|---|-------------|
| A | Excellent | 4 |
| B | Good | 3 |
| C | Satisfactory | 2 |
| D | Passing, less than satisfactory | 1 |
| F | Failing | 0 |
| CR | Credit (satisfactory: C or better; units not counted in GPA) | |
| NC | No credit (less than satisfactory or failing; units not counted in GPA) | |

The GPA (grade point average) is determined by dividing the total number of grade points earned by the total number of units attempted.

The following non-evaluative symbols are used at Cañada College:

I-Incomplete

This symbol is used if academic work is not completed by end of term, unusual circumstances were a factor for the student not completing the coursework, and the instructor agrees to provide an extension for when that work can be submitted. The work to be completed and the time allowed for its completion shall be set forth by the instructor in a written record which the student agrees to and signs. The record indicates the grade to be assigned in lieu of removal. The student will receive a copy of the record. A copy of the record will also be filed with the Admissions and Records Office. A final grade will be assigned by the instructor when the outstanding academic work has been completed within the required period. The grade determined by the instructor will be entered in the permanent record.

An “Incomplete” must be made up within one year following the end of the term in which it was assigned. Established College procedures may be utilized to request a time extension in cases involving unusual circumstances. The “I” shall not be used in the computation of grade point average.

IP-In Progress

This symbol is used in the permanent record of the student to confirm current enrollment and/or to indicate that the course extends beyond the normal end of the term. It indicates that work is in progress and that unit credit and a grade will be assigned when the course is completed. The “IP” shall not be used in the computation of grade point average.

RD-Report Delayed

This symbol is used by the Admissions and Records Office to indicate a delay in reporting the grade due to circumstances beyond the control

of the student. It is replaced by a permanent symbol as soon as the grade is made available. The “RD” shall not be used in the computation of grade point average.

W-Withdrawal

Note: It is the responsibility of the student to withdraw from a class. Any student not following the established withdrawal procedures may be assigned an “F” or “NC” grade by the instructor.

The term “drop” is used to refer to a specific period at the beginning of a term whereby removing one-self from enrollment will result in no record of enrollment in the class for transcript purposes. A student may drop from a semester length course during the first four weeks of instruction and no notation will be made on the academic record of the student. In courses of less than a regular semester duration, a student may drop prior to the completion of 30% of the period of instruction and no notation will be made on the academic record of the student.

A student may withdraw from a semester length course, whether passing or failing, at any time after the fourth week of instruction through the last day of the fourteenth week of instruction. A “W” symbol shall be noted on the student record. In courses of less than a regular semester duration, a student may withdraw from the 30% period of completion on instruction to the completion of 75% of the period of instruction. A “W” grade shall be noted on the student record.

Late Withdrawal

The academic record of a student who remains in class beyond the time periods set forth above must reflect an authorized symbol other than “W.” However, after the end of the fourteenth week (or after the 75% period of instruction for a course less than semester length) withdrawal may be authorized in the case of extenuating circumstances. These are defined as verified cases of accident, illness or other circumstances beyond the control of the student. An approved withdrawal, under these conditions, shall be recorded as a “W.” Petitions for late withdrawal may be obtained from the Admissions and Records Office or at the College website: www.canadacollege.edu.

MW-Military Withdrawal

Military withdrawal will be authorized when a student who is a member of an active or reserve U.S. Military Service unit receives orders compelling a withdrawal from courses. Upon verification of such orders, a notation of “MW” may be made on the student record. Military withdrawals are not counted in probation or dismissal calculations. Further information may be obtained at the Admissions and Records Office.

Grade Reports

After the end of the semester, the final grade report is available to students through Cañada’s web site: www.canadacollege.edu. Students may also make a request at the Admissions and Records Office to have a copy mailed to them. The official final grade report becomes a part of the student’s permanent record.

Grade Option

Each division of the College may have designated letter grade courses in which a student may elect to receive Credit/No Credit (i.e., Pass/Fail). Grade option courses allow students to explore various fields of study

and to broaden their knowledge, particularly in fields outside their major, without jeopardizing their grade point average. Both methods of grading require the student to complete all assignments, exams, and/or class projects.

Students who elect the credit/no credit option are required to sign appropriate forms in the Admissions and Records Office. This decision must be made within the first 30% of the class length and is irreversible.

Courses taken on a credit/no credit basis may or may not be applicable toward fulfillment of the major, the certificate or general education requirements. In addition, four-year colleges and universities vary widely in the number of units of "Credit" grades they will accept. Students should consult the catalog of the college to which they plan to transfer to determine what limitations apply.

The use of courses graded "Credit" to satisfy major or certificate requirements must be approved by the Division Dean, in consultation with members of the Division faculty. A maximum of 12 units toward an associate degree or 6 units toward a certificate may be in grade-option courses in which a student has elected to receive a grade of "Credit."

Each division of the College may also designate courses in which all students are evaluated on a credit/no credit basis only. "Credit" grades earned in these courses are exempt from the 12/6 unit maximum described in the paragraph above.

Final Grades and Grade Challenges

In the absence of mistake, fraud, bad faith, or incompetency, the determination of the student's grade by the instructor shall be final once it has been filed and recorded by the Admissions and Records Office.

An earned grade of A, B, C, D, F, W, CR, NC may be changed by the instructor within one year if a clerical error is determined to have been made in calculating the grade. Grades cannot be changed on the basis of a student completing course work after the assignment of the final grade.

Students who believe a grade was assigned incorrectly should first attempt to resolve the matter with the instructor; if unsuccessful, they should contact the Division Dean; and, finally, submit a petition to the Vice President of Instruction. Petitions are available at the Admissions and Records Office.

Academic Standing

Academic standing is based upon all coursework completed in the San Mateo County Community College District (includes Cañada, CSM, and Skyline).

Scholastic Honors

A Dean's List of Students who achieve academic honors is posted at the end of each semester containing the name of each student who has completed 12 units or more of work for a letter grade during that semester with a grade point average of 3.3 or higher. A part-time students Dean's List is for part-time students who have completed

at least 12 units, completing at least 6 units and not more than 11.5 units within a term, and have earned a 3.3 GPA.

Academic honors are awarded at graduation to students who have attained a 3.3 cumulative grade point average in all coursework. High honors are awarded to students who have attained a 3.5 average or above.

Grade Point Deficiency

The Academic Standards Policy is based on a cumulative grade point average of "C," the minimum standard of progress toward graduation or transfer.

All units and grade points are on a cumulative basis. At all times, a student must maintain a cumulative grade point total that is double the total units attempted ("C" average). If a student undertakes 12.5 units in one semester and 15.5 in a second semester, his or her cumulative units are 28, requiring a grade point level of 56. (Example: $56/28=2.00$ GPA.)

Any grade point total less than twice the attempted units is regarded as deficient. (Example: $55/28=1.96$ GPA)

Credit/No Credit courses will not affect a student's grade point deficiency.

Grade Alleviation

A student who has received a grade of D, F, or NC in a course may repeat the course once for purposes of grade alleviation. Upon satisfactory completion of the repeated course (grade A, B, or C) the Admissions and Records Office will use the grade of the repeated course in computation of the grade-point average. The original grade will remain on the transcript, but will no longer be computed in the grade-point average. Course repetition completed at the other two colleges of the San Mateo County Community College District will be honored; course repetition involving work completed at a non-district institution may be honored upon request. Students may apply for such consideration to the Admissions and Records Office. Courses in which the student has received grades of A, B, C or CR are not subject to the provisions of this policy. Under unusual circumstances, a student may petition the Academic Standards Committee for permission to repeat a course more than once.

Under special, educationally justifiable circumstances, repetition of credit courses other than those for which substandard work has been recorded may be permitted. The student must obtain prior written permission from the Academic Standards Committee before such course repetition will be authorized. Grades awarded for courses repeated under this provision shall not be considered in calculating the student's grade point average and in no case will the unit value of the repeated course be counted more than once.

Academic Renewal Policy

Up to 36 semester units of substandard course work (i.e., D, F, and NC) within a maximum of two semesters and one summer session which are not reflective of the student's current demonstrated scholastic ability may be alleviated and disregarded in the computation of the grade point average under the following conditions:

1. A period of at least three years must have elapsed since the course work to be alleviated was completed, and
2. A student seeking the alleviation must have since completed 9 units of course work with a 3.5 cumulative grade point average, or 15 units of course work with a 3.0 cumulative grade point average, or 21 units of course work with a 2.5 cumulative grade point average, or 24 units of course work with a 2.0 cumulative grade point average, and
3. The substandard coursework to be alleviated must have been taken at Cañada College, College of San Mateo, or Skyline College. However, the course work upon which the application for alleviation is based may be completed at any college or university accredited by the Western Association of Schools and Colleges or an equivalent accrediting agency.

The academic renewal policy may be applied when alleviation of prior course work is necessary to qualify a student for financial aid or admission to a program or transfer to another institution or for completion of a certificate or degree program. To request Academic Renewal, a student must file a formal petition to the Admissions and Records Office located in on the bottom floor of Building 8.

When academic course work is alleviated from the computation of the grade point average, the student's permanent academic record shall be properly annotated in a manner to ensure that all entries are legible, providing a true and complete academic history.

Probation

A student is placed on academic probation using the following criteria:

Academic probation based on grade point average: A student who has attempted at least 12 semester units, as shown by the official cumulative record, shall be placed on academic probation if the student has earned a grade point average below 2.0 in all units which were graded on the basis of the grading scale (see page 16).

Academic probation based on failure to maintain satisfactory progress: A student who has enrolled in a total of at least 12 semester units, as shown by the official cumulative record, shall be placed on academic probation when the percentage of all enrolled units for which entries of W, I, and NC are recorded reaches or exceeds 50 percent.

The two probationary criteria described above will be applied in such a manner that a student may be placed on probation under either or both systems, and subsequently may be dismissed under either or both systems.

A semester in which a student completes an official "Leave of Absence" will not be included in the tabulation used to determine satisfactory academic progress as outlined above.

Removal from Probation

A student placed on academic probation on the basis of grade point average shall be removed from probation when his/her cumulative grade point average is 2.0 or higher.

A student placed on academic probation on the basis of failure to maintain satisfactory progress shall be removed from probation when the percentage of units completed is at or above 50 percent.

The student is required to meet with a counselor and complete a Petition for Reinstatement each semester until GPA reaches 2.0, or successful completion of classes reaches over 50%, or both of the above.

Dismissal

A student in probationary status shall be subject to dismissal if in any two subsequent semesters either or both of the following criteria are applicable:

- a. The student's cumulative grade point average is less than 1.75 in all units attempted.
- b. The cumulative total of units in which the student has been enrolled for which entries of W, I, and NC have been recorded reaches or exceeds 50 percent.

A student in dismissal status must meet with a counselor in the Student Success Program in order to be reinstated to the College and allowed to enroll in classes. The Student Success Program consists of a workshop and meeting with a counselor during the semester. Normally, students in dismissal status are restricted to a certain number of units. The student must demonstrate academic progress during the semester after reinstatement in order to enroll in subsequent semesters. Students who wish to waive the Student Success Program requirements must receive approval from a counselor or the Dean of Counseling and Enrollment Services.

Student Notification

If the student is on probation or in dismissed status, he/she will receive notification in writing at the end of the semester.

Credit by Examination

A student who wishes to earn credit by examination must first receive written certification from the Admissions and Records Office indicating that the following criteria have been met:

- The student is registered at Cañada and in good standing, with a GPA of 2.0 or better.
- The student can demonstrate that he/she is qualified, through previous training or instruction, to successfully complete such examination.
- The Division Dean, in consultation with faculty, will make the decision to offer or not offer the exam based upon: a) the availability of a faculty member to administer the exam, and b) an assessment of the student's readiness to take the exam.
- Only courses which transfer to four-year baccalaureate granting institutions are available for credit by exam (this excludes all 800 level courses and certain other courses), except for certain occupational program courses. Laboratory-based science courses and Cooperative Education courses are not available for credit by exam.
- A letter grade or Credit/No Credit grade will be assigned upon successful completion of credit by examination and the student's academic record shall be clearly annotated to reflect that credit has been earned by examination. A student may

challenge a course for credit by examination only one time. Petitions for credit by exam may be obtained from the Admissions and Records Office.

Credit may be earned by examination provided that the examination has been approved or prepared, administered and graded by faculty and other designated authorities of Cañada College.

A maximum of 12 units toward an Associate Degree or 6 units toward a Certificate may be earned for courses for which credit has been earned by examination. Credits earned by examination cannot be used to satisfy the 12 unit residence requirement for the Associate Degree or Certificate of Completion.

Prerequisites, Corequisites, and Recommended Preparation

The Board of Trustees of the San Mateo County Community College District allows colleges to establish prerequisites, corequisites, and recommended preparation for courses and educational programs. Prerequisites and corequisites must be determined to be necessary and appropriate and must be established in line with Title 5 regulations in the California Administrative Code.

A prerequisite is a condition of enrollment that a student is required to meet in order to demonstrate current readiness for enrollment in a course or program. Prerequisites are so designated in course descriptions in this Catalog. A prerequisite course must be completed successfully before enrolling in a course which follows. Successful completion is defined as earning a grade of "C" or better.

A corequisite is a course that a student is required to take simultaneously in order to enroll in another course. Corequisites are so designated in course descriptions in this Catalog.

Advisories or recommended preparation for a course or program is a condition that a student is advised, but not required, to meet before or in conjunction with enrollment. Advisories are designated as "recommended" in course descriptions in this Catalog.

Students who wish to challenge a prerequisite or corequisite must complete a Petition to Challenge a Prerequisite form. Petitions are available from Admissions and Records, Building 8; or the Cañada College website at www.canadacollege.edu.

Prerequisite Checking and Enrollment blocks

The San Mateo County Community College District enforces all prerequisite and corequisite requirements. Some prerequisites are subject to computerized prerequisite checking and students who have not met the prerequisites are blocked from enrolling in the course. Students may be dropped from a course for not meeting the prerequisite requirements.

College Board Advanced Placement Test (AP) Policy

Cañada College grants credit toward the Associate Degree for all College Board Advanced Placement Tests on which a student scores 3 or higher. Students should send an official copy of AP results to the Admissions and Records Office and consult with a College Counselor. See pages 42–43 for more information.

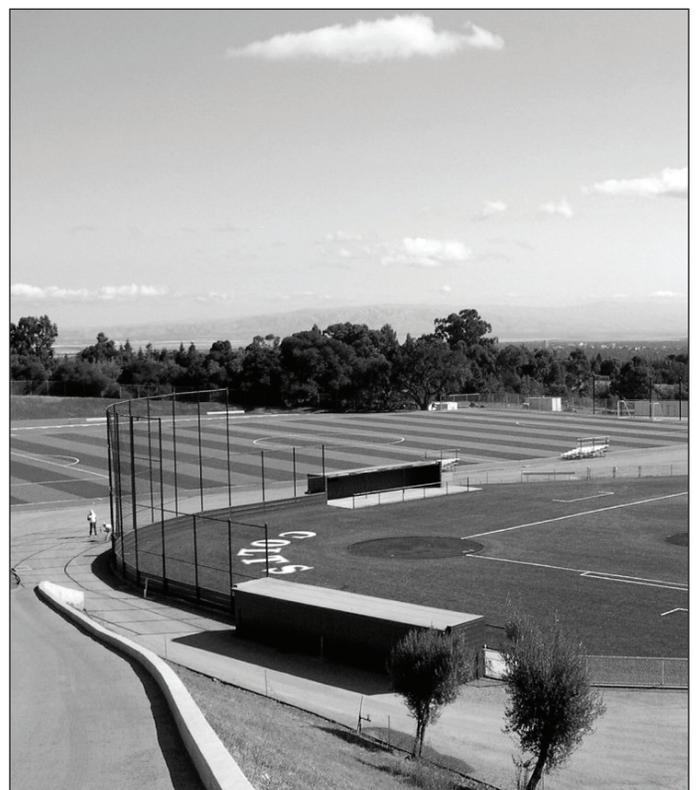

Transcripts

Official transcripts will be sent to employers, colleges and other institutions upon a student's written request. Requests are generally processed within 2 working days from date received. Only courses taken at Cañada College, CSM, and/or Skyline appear on the transcript; transcripts from high schools and other colleges will not be forwarded. The first two transcripts are free. Each additional transcript costs \$5.00. Official transcripts given directly to the student may be opened only by the receiving institution.

Currently enrolled students who wish to have their academic records from other accredited institutions within the United States evaluated by the Admissions and Records Office and have those units placed on their permanent record at Cañada College may do so by requesting their official transcript to be sent directly to the Admissions and Records Office. Upper-division credits completed at a four-year college or university will not be accepted or counted toward an AA/AS Degree or Certificate at Cañada College. Lower division coursework completed at a college or university outside the United States will be considered for inclusion on a transfer student's record at Cañada College only after the transcript from the foreign institution has been evaluated by an approved agency which is able to provide a translation of the transcript, and a detailed report which includes subject breakdown, grades, upper or lower division, semester or quarter and number of units completed. Students should contact the Admissions and Records Office for the names of approved agencies.

Transferring within the District

Students may take classes at more than one of the San Mateo Community College District. Students may also transfer from one College

within the San Mateo County Community College District to another without penalty, although differences in curriculum offerings among the three colleges may exist. District students who transfer from one District College to another receive full credit for instruction completed at any of the SMCCD Colleges. Individual courses taken at a particular College within the District that satisfy an area in the associate degree general education pattern, statutory, and/or specific area requirements shall be accepted by the other two District colleges as satisfying those same requirements.

Students who have completed the entire General Education pattern, basic competency, and statutory and specific area requirements at one District College shall be determined to have completely fulfilled all of those same areas for graduation at any of the District Colleges. Upon transferring to another District College, students shall be required to complete only those courses applicable toward the major for the Associate Degree or Certificate program. Students are expected to meet the major course requirements established by the College to which they have transferred that will issue the Associate degree or Certificate.

Students who have taken course work at more than one of the District's Colleges shall ordinarily be recommended for graduation from the College in which they have taken the majority of their course work.

Units of Work and Credit

A "unit" of college credit usually represents one hour per week of lecture and approximately two hours per week of homework, or 3 hours per week of laboratory for semester-length courses.

Student Rights, Responsibilities and Records

Privacy Rights of Students

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their educational records. These rights include the following:

1. The right to inspect and review the Student's education records within 45 days of the day the College receives a request for access. The Dean will make arrangements for access and notify the student of the time and place where the record(s) may be inspected.
2. The right to request the amendment of the student's education records that the student believes are inaccurate or misleading. Students may ask the College to amend a record that they believe is inaccurate or misleading. They should write the Dean of Counseling and Enrollment Services for the record they want changed, and specify why it is inaccurate or misleading. If the College decides not to amend the record as requested by the student, the College will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right of a hearing.
3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception, which permits disclosure without consent, is disclosure to

Conduct

Students enrolled in Cañada College are expected to conduct themselves as responsible citizens and in a manner compatible with the District and College function as an educational institution. Students are also subject to civil authority and to the specific regulations established by each college in the District. Violators shall be subject

to disciplinary action, including possible cancellation of registration, and may be denied future admission to the Colleges of the San Mateo County Community College District. Each student has the obligation to know and uphold College Rules and Regulations.

Students are also subject to civil authority and to the specific regulations established by each College in the District. Violators shall be subject to disciplinary action, including possible cancellation of registration, and may be denied future admission to the Colleges of the San Mateo County Community College District.

A system of derived authority provides the basis for the regulation of the conduct of students of the San Mateo County Community College District. Authority for the public educational system in California rests with the state. The state legislature has full authority, subject only to the limits placed upon it by the Constitution of the United States and the State of California, and fulfills its duty as follows:

1. By creating laws to regulate public education - these are to be found principally in the Education Code.
2. By delegating authority to local agencies such as the Board of Trustees of the San Mateo County Community College District, which, in turn, may delegate its administrative authority.

The following actions are prohibited and may lead to appropriate disciplinary action:

1. Continued disruptive behavior, continued willful disobedience, habitual profanity or vulgarity, the open and persistent defiance of the authority of, or persistent abuse of, college personnel.
2. Assault, battery, or any threat of force or violence upon a student or college personnel.

5. Interference with the normal operations of the College (i.e., obstruction or disruption of teaching, administration, disciplinary procedures, pedestrian or vehicular traffic, or other College activities, including its public service functions or other authorized activities on college premises).
6. Use of personal portable sound amplification equipment (e.g., radios and tape players) in a manner which disturbs the privacy of other individuals and/or the instructional program of the college. Determination of an acceptable level of amplification will be made by the Vice President, Student Services, or his/her designee(s).
7. Unauthorized entry into, or use of, College facilities.
8. Forgery, falsification, alteration or misuse of College documents, records, or identification.
9. Dishonesty such as cheating, plagiarism, or knowingly furnishing false information to the College and its officials.

16. Failure to satisfy College financial obligations.
17. Failure to comply with directions of College officials, faculty, staff, or campus security officers who are acting in performance of their duties.
18. Failure to identify oneself when on College property or at a College sponsored or supervised event, upon the request of a College official acting in the performance of his/her duties.

Any student may be subject to disciplinary action, including suspension and/or expulsion, if his/her actions on campus or in class are disruptive or are in violation of College rules and regulations. In cases involving disciplinary action, the student will have access to established appeals procedures.

Social or other functions which have been approved by the appropriate administrative office may use the name of the College and are thereby identified as College functions and become subject to the same high standards of conduct and of supervision, whether conducted on or off the campus.

Social or other functions for which no patrons are listed from the membership of the faculty are not College functions. No off-campus organizations may use the College name or imply College sponsorship in any publicity or other information.

Academic Integrity Policy

As members of the college community, students at Cañada are expected to demonstrate integrity in all academic endeavors. Students are evaluated on their own merits, so they should protect academic integrity at Cañada College and be proud of their achievements.

General principles of academic integrity include the concept of respect for the intellectual property of others, the expectation that individual work will be submitted unless otherwise allowed by an instructor, and the obligations both to protect one's own academic work from misuse by others and to avoid using another's work as one's own. Faculty, with the full support of the College, have the right to take standards of academic integrity into account when assigning grades. All students are expected to understand and abide by these principles.

Any act which gains or is intended to gain an unfair academic advantage or which compromises the integrity of the academic standards of the college may be considered an act of academic dishonesty.

Forms of Academic Dishonesty:

Violations or attempted violations of academic integrity include, but are not limited to: cheating, fabrication, plagiarism, multiple submissions, or facilitating academic dishonesty. Please note that culpability is not diminished when academic dishonesty occurs in drafts which are not the final version. Also, if the student receives any type of assistance or disability accommodations in the preparation or submission of materials, the student is expected to proofread the results and is responsible for all particulars of the submission.

Cheating—failure to observe the expressed procedures of an academic exercise, including but not limited to:

- communicating with fellow students during an exam, copying material from another student's exam, allowing another student to copy from an exam, allowing another person to take a quiz, exam, or similar evaluation in lieu of the enrolled student
- using unauthorized materials, information, or study aids (e.g., textbook, notes, data, images, formula list, dictionary, calculator, etc.) in any academic exercise or exam
- unauthorized collaboration in providing or requesting assistance, such as sharing information on an academic exercise or exam
- unauthorized use of another person's data in completing a computer exercise
- using computer and word processing systems to gain access to, alter and/or use unauthorized information
- altering a graded exam or assignment and requesting that it be regraded – submission of altered work after grading shall be considered academically dishonest, including but not limited to changing answers after an exam or assignment has been returned or submitting another's exam as one's own to gain credit
- attempting to hinder the work of another student

Fabrication—falsification or invention of any information in an academic exercise, including but not limited to:

- altering data to support research
- presenting results from research that was not performed—submitting material for lab assignments, class projects or other assignments which is wholly or partially falsified, invented or otherwise does not represent work accomplished or undertaken by the student
- crediting source material that was not used for research
- falsification, alteration or misrepresentation of official or unofficial records or documents including but not limited to academic transcripts, academic documentation, letters of recommendation, and admissions applications or related documents

Plagiarism—the presentation of another's words, images or ideas as if they were the student's own, including but not limited to:

- the submission of material, whether in part or whole, authored by another person or source (e.g., the internet, book, journal,

etc.), whether that material is paraphrased, translated or copied in verbatim or near-verbatim form without properly acknowledging the source (i.e. all sources of information must be cited in work submitted for a grade)

- the submission of material edited, in part or whole, by another person that results in the loss of the student's original voice or ideas (i.e. while an editor or tutor may advise a student, the final work submitted must be the work of the student, not that of the editor or tutor)
- translating all or any part of material from another language and presenting it as if it were student's own original work
- unauthorized transfer and use of another person's computer file as the student's own
- unauthorized use of another person's data in completing a computer exercise

Multiple Submissions—resubmission of a work that has already received credit with identical or similar content in another course without consent of the present instructor or submission of work with identical or similar content in concurrent courses without consent of all instructors.

Facilitating Academic Dishonesty—assisting another to commit an act of academic dishonesty, including but not limited to:

- taking a quiz, exam, or similar evaluation in place of another person
- allowing one student to copy from another
- attending a course posing as another student who is officially registered for that course
- providing material or other information (e.g., a solution to homework, a project or other assignments, a copy of an exam, exam key or any test information) to another student with knowledge that such assistance could be used in any of the violations stated above.
- distribution or use of notes or recordings based on college classes without the express permission of the instructor for purposes other than individual or group study. This includes, but is not limited to, providing materials for distribution by services publishing class notes. This restriction on unauthorized use applies to all information distributed or in any way displayed for use in relationship to the class, whether obtained in class, via email, on the Internet or via any other media.

*Some parts of this document were borrowed from the academic integrity policies of UCLA, De Anza College and USC. Modifications were made in order to address the specific needs of the Cañada College community.

Consequences of Academic Dishonesty:

Disciplinary sanctions may be applied in cases of academic dishonesty. Depending on the seriousness of the infraction, a student may:

- Receive a failing grade on the test, paper, or examination.
- Have his/her course grade lowered or fail the course.
- Under the District standards of Disciplinary Sanctions, the student may be subject to:
- A Warning: An instructor may give written or verbal notice to a student that continuation or repetition of specified conduct

may be cause for further disciplinary action.

- **Temporary Exclusion From An Activity Or Class:** An instructor may remove a student who is in violation of the guidelines for student conduct for the duration of the class period or activity during which the violation took place and, if necessary, for the day following. The instructor shall immediately report such removal to the college chief executive officer or his/her designee for appropriate action.
- **Censure:** The Vice President, Student Services may verbally reprimand a student or may place on record a written statement which details how a student's conduct violates District or College regulations. The student receiving such a verbal or written statement shall be notified that such continued conduct or further violation of District/College rules may result in further disciplinary action.
- **Disciplinary Probation:** The Vice President, Student Services or his/her designee may place a student on disciplinary probation for a period not to exceed one semester. Repetition of the same action or other violations of District/College rules and regulations during the probationary period may be cause for suspension or expulsion. Disciplinary probation may include one or both of the following: a. Removal from any or all College organization or offices; or b. Denial of privileges of participation in any or all College or student sponsored events.
- **Disciplinary Suspension:** The termination of student status for a definite period of time. A suspended student may not be present of campus and is denied College privileges including class attendance and all other student body or College granted privileges. Refer to Suspension Policy for details.
- **Expulsion:** A permanent termination of student status and all attending rights and privileges. Expulsion of a student is accomplished by action of the Board of Trustees on recommendation of the college chief executive officer and the Chancellor. An expelled student shall not be allowed to register in any subsequent semester without the approval of the chief executive office of the College. Refer to Expulsion Policy or details.
- If a sanction entails any action greater than a written or verbal notice, the instructor must submit a Notice of Student Violation of the Cañada College Academic Integrity Policy to the Vice President, Student Services for review and appropriate follow up. This form will identify the infraction and the sanction, and should be signed by both the student and instructor.
- If a student receives any of these sanctions, he/she must first address his/her concerns with the instructor. If the student believes that the instructors' decision is unfair, the student may appeal the decision to the Vice President of Student Services in accordance with the Student Discipline Policy and Appeals Process.
- The Vice President of Student Services maintains a record of students who have engaged in academic dishonesty. This information is used to identify and discipline students who have been reported for academic dishonesty more than once, and may be shared with other faculty in whose classes the student is enrolled.

- Any record of academic dishonesty will be maintained in the Vice President of Student Services's records for a period of two years at which time, barring further infractions, it will be permanently removed.

Attendance Regulations

Regular attendance in class and laboratory sessions is an obligation assumed by each student at the time of his/her registration. When a student fails to attend class, he/she misses the content of the session, and course continuity is lessened. When failure to attend class places a student's success in jeopardy, the instructor may drop the student from the class.

Total hours of absence which exceed twice the number of hours a class meets in a week define "excessive absence" as used by many instructors in dropping students for nonattendance. Instructors may, however, utilize stricter attendance requirements.

Absence due to participation in college-sponsored activities may be considered excused when the student informs and receives permission from the instructor in advance of the absence and makes up all work missed.

A student dropped from any class for nonattendance may appeal in writing to the Division Dean within five College calendar days of such a drop if the student thinks the absences should be excused, and reinstatement in class can be justified. Students may, with the permission of the instructor, remain in class while their appeal is being reviewed. A recommendation regarding the appeal will be forwarded to the instructor whose decision is final.

Emergency Leave of Absence

A student who finds it necessary to withdraw from all enrolled courses at any time after registration must obtain a petition for semester leave of absence. This petition may be obtained from the Health Center if the emergency is of a medical nature. A petition for non-medical emergency leave of absence may be obtained from the Admissions and Records Office. It is the student's responsibility to complete the petition process. The leave of absence shall only be used when verified circumstances beyond the student's control force a complete withdrawal from all courses. Withdrawals resulting from an approved leave will not be included in the determination of the student's academic progress.

A student absent 5 days or more with a medical problem should notify his/her instructor(s).

Student Grievances and Appeals

Students are encouraged to pursue their academic studies and become involved in other sponsored activities that promote their intellectual growth and personal development. The College is committed to the concept that, in the pursuit of these ends, the student should be free of unfair and improper actions on the part of any member of the academic community. If, at any time, a student feels that he/she has been subject to unjust actions, or denied his/her rights, redress can be sought through the filing of an appeal or grievance. Detailed information is provided in the Student Handbook which is available in the Student Activities Office. For further information concerning

any aspect of student grievances or rights of appeal, students should contact the Vice President of Student Services at (650) 306-3234. The chart on page 20 summarizes the appropriate college channels to be utilized by any student seeking redress.

Policy of Non-discrimination

Cañada College is committed to equal opportunity regardless of age, gender, marital status, disability, race, color, sexual orientation, religion, national origin, or other similar factors, for admission to the College, enrollment in classes, student services, financial aid, and employment in accordance with the provisions of Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972 (45CRF 86), Section 504 of the Rehabilitation Act of 1973 (P.L. 93-112), and the Americans with Disabilities Act of 1990.

It is important that students, staff, and all others associated with the College understand the importance of reporting concerns about possible violations of this policy. The College's commitment to equal opportunity demands full investigation of possible violations and an opportunity for a fair and impartial hearing on any matter relating to these laws and policies.

Any person seeking information concerning these laws and policies or claiming grievance because of alleged violations of Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act of 1990 should contact the Vice President of Student Services.

All grievances will be reviewed in terms of Title VI and Title IX law, and persons involved will be advised of the provisions of the law and their legal rights. If normal channels are not available or fail to meet legal requirements, the necessary action will be initiated.

Inquiries regarding Federal laws and regulations concerning non-discrimination in education or the District's compliance with those provisions may also be directed to:

Policy on Americans with Disabilities Act

The purpose of the Americans with Disabilities Act (ADA), PL 101-336, is to extend to people with disabilities civil rights similar to those now available on the basis of race, color, national origin, sex and religion through the Civil Rights Act of 1964. It prohibits discrimination on the basis of disability in private sector employment, services rendered by state and local governments, places of public accommodation, transportation, and telecommunications relay services. The ADA says that no covered entity shall discriminate against a qualified individual with a disability because of the disability of such individual in regard to job application procedures; the hiring, advancement, or discharge of employees; employee compensation; job training; and other terms, conditions, and privileges of employment.

Major employment provisions of the ADA require equal opportunity in selection, testing, and hiring of qualified applicants with disabilities (applicants with disabilities may request that special accommodations

be made in order to complete these processes); equal treatment in promotion and benefits; reasonable accommodation for applicants and workers with disabilities when such accommodations would not impose "undue hardship"; and prohibits discrimination against workers with disabilities. (This provision is similar to the Civil Rights Act of 1964 and Title V of the Rehabilitation Act of 1973).

Employers may require that an individual not pose a direct threat to the health and safety of others; may not make pre-employment inquiries about an applicant's disability or conduct pre-employment medical exams; and may conduct a test for illegal drug use and prohibit all workplace use of illegal drugs and alcohol.

If you need further information or if there are any problems or complaints on campus regarding compliance, please contact the Vice President of Student Services.

Policy on Sexual Harassment

Pursuant to California Code of Regulations Title 5, Section 59300 et seq., it is the policy of San Mateo County Community College District and Cañada College to prohibit, in any and all forms, the sexual harassment of its students and staff. Sexual harassment of students by other students or staff, and/or the harassment of staff by students, is considered intolerable behavior that will be investigated and acted upon immediately.

Students or staff seeking further information concerning this policy or claiming grievance because of alleged violation of this policy should contact the Vice President of Student Services to file a written grievance.

Additional Redress

In addition to, and concurrently with, the filing of a written grievance, a student has the right to file a complaint or charges with other appropriate governmental agencies such as the Equal Opportunity Commission, the Office for Civil Rights, the Department of Fair Employment and Housing, the Chancellor's Office of the California Community Colleges, or State or Federal court.

Policy on Smoking

In order to provide a safe learning and working environment for students and employees, smoking is prohibited in all indoor locations, outdoor balconies, terraces and stairs, and within a distance of fifteen (15) feet from any District doorway, entrance to an interior area, or air intake vents. Violation of this policy could lead to disciplinary action under disciplinary procedures.

Policy on Drug-Free Campus

The San Mateo County Community College District and Cañada College, in compliance with the Federal Drug-Free Schools and Communities Act Amendments of 1989, prohibits the use, possession, sale or distribution of alcohol, narcotics, dangerous or illegal drugs or other controlled substances, as defined in California statutes, on District or College property, or at any function sponsored by the District or College. Students are expected to conduct themselves as responsible citizens and in a manner compatible with the community college function as an educational institution. Students are subject to civil authority and to all District and College rules and regulations.

Students found to be in violation of the drug-free campus policy by manufacturing, distributing, dispensing, possessing, or using controlled substances, as defined in California statutes, on any District property will be subject to disciplinary procedures up to and including possible cancellation of registration.

Persons seeking further information concerning this policy or the health risks and effects associated with alcohol and narcotics or other dangerous or illegal drugs, should contact the College Health Center.

Cooperative Education - Work Experience

Through Cooperative Education/Work Experience, students earn college credit by improving their skills and knowledge on a paid or volun-

teer assignment. Students work with instructors and job supervisors to establish measurable learning objectives appropriate for their jobs. Credit is earned toward an associate degree or certificate when these objectives are successfully accomplished. Spring and Fall semesters, students must be enrolled in seven (7) units including Cooperative Education/Work Experience. Summer session, students must be enrolled in any half-unit (0.5) course plus Cooperative Education/Work Experience. Call 306-3367 for additional information.

Students who have jobs related to their occupational goals may earn one unit of credit for each 75 hours of paid work with a maximum of four units per semester for a total not to exceed 16 units while enrolled in a community college. Students in volunteer jobs with non-profit organizations may earn one unit of credit for each 60 hours of work.

Counseling Center

The Counseling Department at Cañada College is designed to assist students in all aspects of their development as students. The Department's aim is to help students be successful at accomplishing their goals. Career and educational counseling are emphasized. A counselor can help a student establish both immediate and long range goals and provide information about courses and programs that transfer to four-year colleges and universities. Counselors assist students in developing an individual Student Educational Plan (SEP), which is their guide to achieving their goals. All students are required to have an SEP on file once they have completed 15 units at Cañada College. Assistance with students' personal and social concerns is also available.

Counseling appointments are made in the Counseling Center, Building 5, Room 204, or by calling (650) 306-3452. Drop-in counseling is also available for brief informational questions. Check the Class Schedule for drop-in times.

Disabled Student Program and Services

The Disabled Student Program offers a range of services to students with various documented disabilities. These may include physical, psychological, and learning disabilities. The program encourages the active participation of disabled students by serving as an information, counseling and academic resource center. Through supportive services, an individual can meet his/her academic, social and personal goals while attending Cañada College. Interested students should contact the Disabled Student Office for more information, 306-3259. TDD/TTY (650) 306-3161. (Bldg. 5, Room 207), or visit the website: www.canadacollege.edu/student/disabled.html. The website is available in English and Spanish.

The Learning Achievement Program is designed to evaluate the needs of students who may have learning disabilities. After assessment, an Educational Plan is developed for each student. Tutorial assistance in reading, writing, and numerous academic and vocational subject areas is provided through the Cañada College Learning Center and DSKL courses. Adults with possible learning disabilities or diagnosed learning disabilities should contact the DSPS office at 306-3259.

Supportive Services may include:

- Individualized counseling, vocational and academic referral and information;

- Temporary authorization for handicapped parking permits;
- Coordination of services with high schools, agencies and the California Department of Rehabilitation;
- Referral to community resources for psychological counseling or support services;
- Readers and Note-Takers;
- Audio-visual equipment including tape recorders, tapes and E-text, adapted voice-actuated computer equipment and other alternate media equipment;
- Special equipment for the visually impaired student including Braille text materials;
- Developmental Skills classes;

The DSPTS Alternate Media Lab is located within the Learning Center in Room 105. Students with visual, print or other specific documented disability can access use of JAWS, Dragon Dictate, Kurzweil and Zoom-Text software in this lab. An Alternate Media Specialist is available to assist students and faculty with use of this specialized technology. This type of alternate media software has also been installed on other computers located throughout campus and the list of locations is available in both the DSPTS Office and Alternate Media Lab. Students who need text books or other printed materials converted to CD-Rom, Braille, audio cassette or other type of alternate format should request this service through the DSPTS office.

Additional services are available through The Learning Center.

Distance Learning

Distance learning courses are Cañada College credit courses that give students the opportunity to complete most of their course work outside the classroom, on their own time, usually at home. However, attendance at one or more on-campus meetings is usually required. These courses are offered as telecourses through KCSM TV, or as on-line internet courses. Telecourses and on-line courses are academically equivalent to on-campus courses and are transferable to most four-year colleges and universities. See the Schedule of Classes, or visit our website—www.canadacollege.edu—for information on specific course offerings.

(EOPS) Extended Opportunity Programs & Services

EOPS is a program for economically disadvantaged students designed to help students work towards a certificate or an AA/ AS degree, train for a career, or transfer to a four-year university. It also aims to provide students with a sense of identification and to prepare them for assuming responsible positions within their communities and within a larger society. EOPS provides the following:

- Financial assistance in the form of book grants and bus passes
- Help in applying for financial aid
- Academic support
- Counseling
- Guidance Classes

- Orientation to College
- Transfer assistance

Students qualify for EOPS if they are high school graduates or at least 18 years old and if they meet the State's definition for low income.

Financial Aid

Financial aid falls into three categories:

Grants/Fee Waivers-Aid which does not have to be repaid and in most cases is awarded primarily or solely based on financial need. The major programs of this type include the BOGW (Board of Governor Fee Waiver) which waives the enrollment fee for California residents; the Federal Pell Grant which is a direct grant payment to the student to meet college and educationally related living costs; Federal SEOG (Supplemental Education Opportunity Grant) which is a direct grant payment drawn on a limited college allocation for students demonstrating the greatest need and meet the priority deadline; CAL Grant which is a direct grant payment for California residents requiring grade point average (GPA) verification and meeting established income and asset ceilings. Eligibility determined after submission of GPA and Free Application for Federal Student Aid (FAFSA) by state deadlines (March 2nd and September 2nd award cycles). The College also administers the PCF Emergency Grant program which is a one time grant for non-educational emergency situations funded by the Peninsula community Foundation.

Federal Work-Study (FWS)-Aid which allows the student to work, generally on campus, to earn funds to meet the costs while attending college. These funds do not have to be repaid and are allocated to eligible students on a first-come first-serve basis until fully expended each aid-year.

Loans-Borrowed funds which must be repaid. Cañada College does not certify student loans. Limited funds are available for short term loans through the Dean's Emergency Loan program and EOPS Emergency Loan program. These loans are generally paid back within the semester the funds were released. The Bridge to Learning Book Loan program offers textbooks on loan to eligible students.

Eligibility

Eligibility depends upon the program of application. For example, the BOGFW program is available to students who have been classified as residents of California by the Admissions and Records Office and meet specific program eligibility, such as receiving TANF, SSI/SSP or General Assistance for method A, annual income standards for method B, or can demonstrate at least one dollar of unmet need for method C by filing a FAFSA. This program serves over 3,400 Cañada students as of the 2004-05 year. The Federal Pell Grant requires financial need be demonstrated by the federal aid application (the FAFSA) and the student must either be a U.S. citizen or in one of a group of categories known as eligible non-citizen (including permanent resident, resident alien, refugee, or asylee). As the criteria to qualify can vary widely, all students who have a financial need are strongly encouraged to apply. The Financial Aid staff provides guidance on what programs for which a student can apply. In a number of cases, a student may qualify for more than one program to assist them with their college costs.

Students are recommended to apply for financial aid as early as possible so eligibility can be determined and notification provided before the start of enrollment. While the Cal Grant has a firm deadline and priority is given in awarding limited campus-based funds (Federal SEOG and FWS), both Federal Pell and the BOGFW programs can be applied for after a semester has begun and throughout the aid-year. Please review the extensive material available (in English or Spanish) in the Financial Aid Office or on the College website-<http://canadacollege.edu/admissions/financial.html>.

It is also recognized that there may be unusual circumstances that the financial aid application material does not capture which impacts the ability to attend college. Students may submit an Unusual Circumstance form or Dependency Override Request form to explain those situations to be considered in reviewing financial aid eligibility. Additional documentation is required.

For detailed information regarding specific assistance programs, students should contact the Financial Aid Office, Bldg. 8, Room 21.

Federal Regulation: Return of Title IV Funds

A student who receives Federal Pell Grant and withdraws from all classes prior to completing more than 60% of the semester, will be required to pay a portion of the grant funds back to the federal government. Students who owe Return of Title IV funds are ineligible to receive additional federal financial assistance from any college or university until satisfactory repayment arrangements have been made.

Ability to Benefit

Any person applying for Financial Aid who is 18 years of age or older, who has not earned a high school diploma, or who has not received a satisfactory GED score, or a passing score on the high school proficiency test should be prepared to show evidence of ability to benefit from community college courses. Such evidence may include, but is not limited

to, ability to read, write, compute, and converse at an acceptable level as determined by assessment tests administered by the College. This assessment is referred to as an Ability to Benefit test.

Those who apply for financial aid and for admission to Cañada College and who are not high school graduates as defined in the above paragraph, must complete assessment testing and participate in orientation. (Federal Ability to Benefit reference 34CFR600.11)

For GED testing information, interested persons should call the unified school district in their areas. In the local area the GED test is offered through the Sequoia Union High School District Adult School, (650) 306-8866.

First-Year Experience Program

The First-Year Experience Program is an innovative approach to traditional course offerings, created by linking a course with specific curriculum content and a course to give the student strategies to be successful in college.

Instructors in the linked courses work as a team, coordinating assignments, exams, and other class activities in their specified courses. Students, too, become a team by joining together in a "cohort" or group, to take the linked classes. Students in this environment are better able to connect and apply information and learning from one course to another. Participation in such a program contributes to improved student success, and retention.

Health Services

A variety of services is available: information and consultation on health problems, evaluation of symptoms, over-the-counter medications, personal health counseling, first aid, pregnancy testing, HIV testing and counseling, vision screening, blood pressure screening, health oriented programs, assistance with referrals for medical and dental

care and psychological services, and arrangements for emergency care and student insurance.

All Health Services are free and confidential. They are available to both day and evening students on either a drop-in or appointment basis. For further information, the Health Center is located in Bldg. 1, Room 117 or call 306-3309.

Quality health insurance is available to all students enrolled in a minimum of 4 units of credit. All students are covered by District accident insurance. Dental insurance plans at reasonable cost are available to all students.

Housing

The Office of Student Life maintains a housing board for use by Cañada students. Most of these listing are rooms in private homes; a few are available on the basis of work in exchange for room and board. All arrangements are made between the owner and the student. Students should contact Student Life, 306-3373, if they have a room or apartment to rent, or need housing. International students may call (650) 306-3494 for housing information.

Learning Centers

The Learning Center is designed to provide a positive learning environment that integrates technological resources and learning assistance services to support student learning across the curriculum. The Learning Center provides a wide range of individualized college credit programs and self-paced courses in essential skill areas of reading, vocabulary, study skills, writing, English as a Second Language, and mathematics. Learning Center courses are designated with the course prefix LCTR. Both non-degree and degree credit courses are available. Degree credit courses articulated with the CSU system are transferable.

The Learning Center programs and self-paced courses incorporate the content and language of college subject areas. Students are assessed and provided program plans focusing on areas of need. Students complete assigned programs using computer, internet, audio, audio-visual, and print material. As they proceed through the programs and self-paced courses with the assistance of instructors, aides, tutors and/or student assistants, their performance is evaluated periodically before they proceed to higher level objectives.

Also incorporated within the Center are the Computer, Tutorial, Math, Writing, and MESA Centers. The TRiO Student Support Services (SSS) program is also located in the Center. The programs are coordinated with both related classroom offerings and the individualized LCTR programs and self-paced courses.

The Computer Center, which is internet-accessible, is used by students completing individualized LCTR programs and self-paced courses and by students taking a course with supplementary assignments requiring computer use. Students completing supplementary assignments for a course must enroll in the appropriate course. Information about enrollment is available through the front desk.

The Tutorial Center provides individual and small group tutorial assistance in Cañada courses. Peer tutors, recruited from a wide range of academic and vocational areas, must enroll in LCTR 100 for tutor training unless they have previous experience tutoring in college

subject areas. All participating tutees must enroll in LCTR 698 (no fee, no credit) and must remain enrolled in the course in which they receive assistance.

The Math Lab is an area in the Center where students who are currently enrolled in Cañada math courses can receive drop-in assistance.

The Writing Center offers students enrolled in writing courses and other courses requiring writing skills, additional instruction and skill reinforcement.

The MESA Center (Math Engineering Science Achievement) provides academic excellence workshops, mentoring, field trips and counseling to students who are considering math, science, engineering majors. The TRiO Student Support Services (SSS) program provides students with academic and career counseling, mentors, and graduate tutors. Program participants receive additional services and support such as workshops and speakers, cultural and social activities, and field trips to four-year colleges and universities.

Contact the Learning Center in Bldg. 5, Room 105 or call 306-3348 for specific hours.

The Learning Center at the Menlo Park Center (OICW Building) is open from 7 am to 3 pm, Monday through Thursday, and from 7 am to 11:30 am on Friday. The Center offers self-paced instruction in many levels of English, reading, writing, and English as a Second Language. These courses prepare students for college-level work or provide students the skills they need for success in job training programs and at work. Students starting at the Center are provided an assessment of their skill level so as to place them appropriately. Students may use the Center whenever it is open and at times convenient to them.

For more information, call Martha Chavez at (650) 325-0164. Para más información pueden llamar a Martha Chavez al teléfono (650) 325-0164 de lunes a jueves de 7 am a 3 pm, o los viernes de 7 am a 11:30 am.

Library

The Library is the information center of the campus and strives to support the educational mission of the College. It includes a collection of books, periodicals, newspapers, microfilm, microfiche, video tapes and CD-ROM databases. Students may also access the Internet in the Library.

The Library offers a one-unit course which teaches students how to conduct research.

There are three service areas. The Circulation/Reserve desk issues library cards and contains restricted loan material as well as college catalogs. The Reference/Periodical area services the research needs of students. Shelved there are periodical and newspaper indexes, the microfilm collection, as well as a large variety of reference source material. A general collection of some 46,000 volumes is arranged on open shelves for easy access in the Reading Room. Table and carrel seating for students is provided in this room, which affords a panoramic view of the wooded slopes of Skyline Ridge, and is an inviting place for quiet study.

The libraries of Cañada, CSM, and Skyline are members of the Peninsula Library System, a consortium of San Mateo County's public libraries.

The combined collections of these member libraries total more than 2.5 million volumes and are accessible by means of the on-line public catalog. Intra-systems loans can be delivered to the campus or picked up at one the member libraries.

Students may borrow college library materials with their Peninsula Library System (PLS) card, issued by any public or community college library in San Mateo County. Students who live in San Mateo County and do not have a PLS card, as well as students who do not live in San Mateo County, may obtain a library card from the Cañada Library Circulation Desk. Proof of enrollment is all that is required.

Lost and Found

Items found in any of the campus buildings are held for 30 days in the Bookstore in Building 2. Call 306-3313 to inquire about lost or found articles.

MESA Program

The Math, Engineering, and Science Achievement/Community College Program (MESA/CCCP) at Cañada College provides economically disadvantaged and underrepresented students, especially Latino and African American students, with maximum opportunity to pursue successful careers in mathematics, engineering, science, and computer science. The program, housed in the Learning Center (5-105), includes a MESA Orientation course, Academic Excellence Workshops, specialized academic counseling, tutoring and stipends for eligible students.

Middle College High School

The Cañada Middle College High School is a joint partnership between the Sequoia Union High School District and Cañada College. Middle College High School is designed to reach high potential, underachieving high school students who want a head start on college. Students may complete requirements for a high school diploma and earn credits towards an AA degree at the same time. Approximately 60 juniors and seniors from the Carlmont, Menlo Atherton, Redwood, Sequoia and Woodside High School attendance area are accepted into the program each Fall. Students must satisfy the graduation requirements of the Sequoia Union High School District and earn a diploma from their home high school. A minimum of two high school courses per semester is required each year: English III or IV and Economics or American Government. The remaining classes are selected from Cañada College courses to fulfill the credits and requirements for high school graduation. College classes give high school and college credit simultaneously and many may apply towards a four-year college or university degree.

Sequoia Union High School District teachers teach the required high school classes on the Cañada College campus. These teachers also advise students on academic classes, graduation requirements, and career preparation. Faculty members at Cañada College teach all college courses. For more information, contact the Middle College High School Office Assistant at 306-3120, stop by the Middle College High School Office located in Bldg. 13-106, or visit our website at www.canadacollege.edu/middlecollege.

Scholarships

Cañada College provides a general scholarship program to recognize and honor outstanding achievement and to provide students financial assistance when furthering their academic pursuits. Several scholarships are available to new, continuing or transferring Cañada students. All applicants who submit a completed application packet and meet the minimum criteria will be considered for the general scholarship program. Awards are based on stated criteria of the donor(s), which

usually include demonstrated academic achievement and promise, involvement in extra-curricular activities, and financial need. Cañada's Scholarship Committee meets each spring to review applications and select recipients for the following academic year. Information and applications are available each January for the general scholarship program. The application deadline is March 2 each year.

Additionally, Cañada College receives application materials for a number of privately awarded scholarships. Deadlines vary throughout the year with many occurring in the fall. Requests for applications and information should be directed to the Financial Aid Office, Building 8, Room 211.

Student Activities

Among many of the clubs active at Cañada College are the following: The Young Latino Leaders, Latin American Friendship Club, United African Student Union, Pre Med club, Science and Engineering Club, The Rainbow Alliance and the Political Awareness Club.

Student ID's

Student ID's are handled through the Student Activities Office. In order to receive a Student ID and become eligible for the many benefits it has, students must pay the \$8.00 activity fee during the fall and spring semester. This is an optional fee. Choosing not to pay this fee will automatically disqualify any student from receiving a Student ID card. Request for refunds must be made by the Final Fee payment due date of each semester.

Student Government

All students enrolled at Cañada College are members of the Associated Students of Cañada College (ASCC). The following elected student officers represent the official voice of students on campus: President, Vice President and ten Senators. The officers inform students about campus issues, administer student association monies, and represent student interests on Cañada's governing committees. Student government provides a unique educational opportunity to learn by doing in the world of college governance. Participation is demanding and time consuming, but students have testified that their involvement was the most valuable learning experience they had at college, both educationally and socially.

The student government operates under the provisions of the State Education Code and the regulations of the Board of Trustees and Cañada College. It serves as a vehicle through which students can recommend and help effect changes at their college. Any student who is interested in becoming a senator or participating in student government should contact the Student Activities Office, Building 5, Room 211.

Student Publications

The Student Handbook contains information about student organizations, college services, college rules, student rights, student disciplinary

due process procedures, and Cañada's staff and governance structure. The handbook is available in the Student Activities Office or on line at www.canadacollege.edu.

Student Clubs

In order to secure the most from college life, students are encouraged to participate in one or more of the many clubs organized within the Associated Students. These clubs offer many and diverse opportunities to students for both social and educational contacts. Each club elects officers and plans its own program for the semester. A list of student clubs may be found in the Student Activities Office or on the College website.

Students interested in learning about existing clubs or how new clubs may be formed are invited to contact the Student Activities Coordinator, Bldg. 5, Room 211A, or call (650) 306-3364.

Sororities, fraternities and other secret organizations are banned under the Education Code of the State of California.

University Center at Cañada College

The University Center at Cañada College was established in 2001 as a new model to provide four-year college degree programs, workplace certifications, and graduate-level programs that are accessible and convenient for area residents. Through partnerships with San Francisco Bay Area universities, more students can receive an affordable college education and remain close to their community, eliminating the barriers that discourage many from pursuing an education. The University Center programs will increase the number of college graduates in high demand transfer and employment areas, improve access to four-year and graduate programs for under-represented, economically disadvantaged and place-bound student populations, and provide career advancement opportunities for working students and Silicon Valley technical workers who need more accessible training.

The University Center currently offers

In partnership with San Francisco State University:

- Child and Adolescent Development - Bachelor of Arts
- Business Administration - Bachelor of Science
- Nursing - Bachelor of Science
- Teaching Reading at the Post-Secondary Level - Certificate
- Executive Master of Business Administration

In partnership with California State University – Monterey Bay:

- Liberal Studies – Bachelor of Arts

The University Center is pursuing other partnerships to provide additional opportunities to students. For further information, contact our main office at Cañada College, Building 22, Room 102; call us at (650) 306-3141 or visit <http://canadacollege.edu/university/overview.html>

Veterans Affairs

Cañada College is approved to certify veterans as students who are enrolled in pursuit of an associate degree under Chapter 35 (veterans dependents), Chapter 31 (rehabilitation), Chapter 30, and VEAP. All students, except those eligible under Chapter 31, must buy their own books and supplies. Those interested in attending Cañada under any of these chapters should contact the Veterans Administration Office to determine eligibility for benefits. The VA Regional Office maintains a toll-free number (1-800-827-1000) from 8:00 a.m. to 4:00 p.m., Monday-Friday.

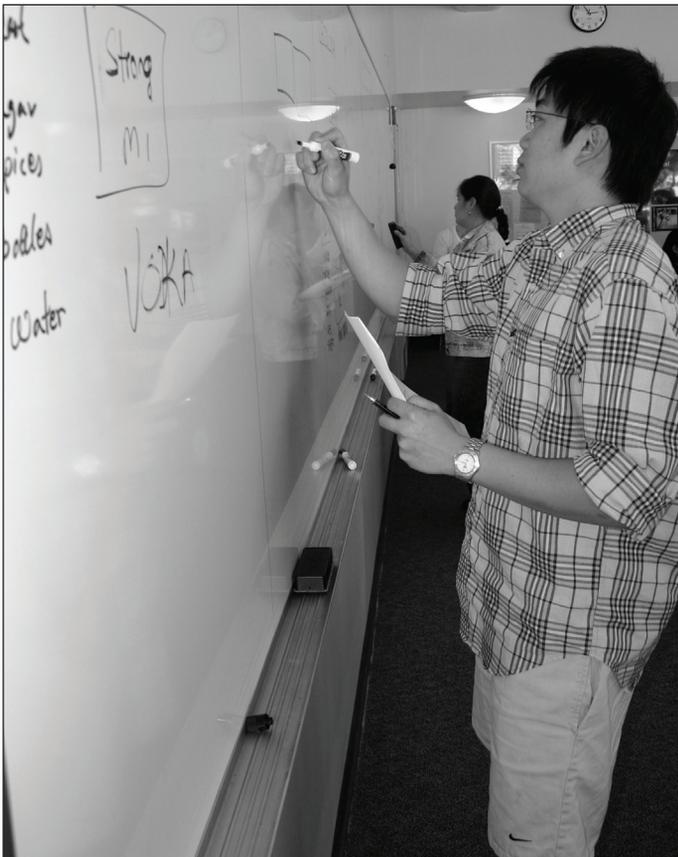

After eligibility is determined, the veteran should bring a copy of his/her DD-214 (separation papers), the Certificate of Eligibility and Cañada registration receipt to the VA Assistant in the Admissions and Records Office (Building 8, Room 215) for processing. During the first semester, veterans must have a veteran counselor review all prior transcript(s) and have a Student Education Plan (S.E.P.) prepared. Eligible veterans have 10 years from the date of separation from active duty to use their educational benefits. Interested students can visit or call (650) 306-3492 between 3:15 and 8:00 p.m., Monday through Thursday.

Upon presentation of separation or discharge papers, veterans will be awarded six units of academic credit in recognition of military service. When possible, these units are to be used to satisfy the physical education and natural science requirements for the associate degree. Units which cannot be applied in this manner will be considered as elective units.

ADA-Decreto para Americanos con Discapacidades

El 26 de Enero de 1992 el Decreto para Americanos con Discapacidades (ADA), que gobierna el acceso y utilidad de las facilidades públicas y facilidades comerciales, se hizo efectivo. Este decreto afectará el empleo, servicios públicos, transportación y los servicios de comunicaciones telefónicas. Este estatuto literalmente abre las puertas a los individuos con discapacidades que han necesitado acceso a muchos efectos y servicios que el público trata normalmente con indiferencia como baños, agua para beber, lavanderías, cajeros automáticos (ATM), y así sucesivamente.

La ADA está diseñada para prohibir la discriminación en contra de esos individuos con una discapacidad física o mental que limita una mayor actividad en la vida cotidiana. Características físicas como ser zurdo, tener un propio estilo de vida, uso de drogas, etc., estos temas no son cubiertos por el decreto (ADA). Muchas estructuras existentes requerirán alteraciones de diseño mayores y/o menores. Las normas de diseño accesible están delineadas en las "Normas de Accesibilidad del ADA para Edificios y Facilidades". Estas normas son muy similares a esas establecidas por el Instituto Nacional Americano de Normas (ANSI):

1. Proveer acceso general a las facilidades.
2. Proveer acceso específico a esas áreas dentro de una facilidad donde efectos y servicios son disponibles.
3. Proveer acceso a los baños.
4. Implementar algunas otras medidas necesarias para proveer acceso y funcionamiento.

Esto incluye todas las construcciones nuevas y existentes de las facilidades públicas y facilidades comerciales. Los arrendadores y los arrendatarios serán responsables de obrar de acuerdo a la ley. Las facilidades públicas incluyen: facilidades de hospedaje, restaurantes, facilidades de entretenimiento, tiendas, establecimientos de servicio, transportación pública, museos, facilidades recreativas, facilidades educativas, centros de servicio social, facilidades deportivas y de ejercicio. Clubes privados y facilidades religiosas no están cubiertas por el decreto (ADA). Facilidades comerciales no son de uso residencial por una entidad privada cuyas operaciones afecten el comercio. Esto incluye todas las facilidades comerciales que ocupen una casa o apartamento.

Es requerido que cada facilidad conduzca un programa de evaluación propia relacionado a los mandatos del ADA. A personas con discapacidades y/o organizaciones que las representan se les debe proporcionar la oportunidad de participar en la evaluación para el desarrollo del plan transitivo. Este programa debería ser completado y archivado, a más tardar el 26 Enero de 1995. Pueden ocurrir condiciones especiales como una "desproporcionada alteración de

costos" y puede ser revaluado por la oficina del Procurador General de Estados Unidos.

Infracciones al ADA pueden ser llevadas ante un juez por personas particulares o por el Procurador General de Estados Unidos. El juez puede otorgar a una persona particular daños monetarios, incluyendo gastos de abogado, como también fijar una pena civil en contra de la entidad ofensiva, de \$50,000 a \$100,000.

En conclusión, los requerimientos de la ADA serán vistos como una norma para diseño y construcción. Les da responsabilidad sobre esos (AEC) involucrados en el diseño, construcción y operaciones de estructuras comerciales y públicas. La ADA está abriendo muchas oportunidades en los campos del AEC para diseñadores, constructores y consultores. Para obtener las regulaciones adoptadas por el DOJ escriba a la oficina del Decreto para Americanos con Incapacidades, al siguiente domicilio:

Enmienda Adicional

Adicional y concurrentemente al archivar de una queja por escrito, el estudiante tiene el derecho de presentar una demanda o cargos con otras agencias gubernamentales como: la Comisión de Oportunidad de Igualdad (Equal Opportunity Commission), la Oficina de Derechos Civiles (Office of Civil Rights), el Departamento Equitativo de Viviendas y Empleo (Department of Fair Employment and Housing), la Oficina del Canciller de Colegios Comunitarios de California (Chancellor's Office of the California Community Colleges), o la Corte Estatal o Federal.

Política de No Fumar

Para poder proveer un ambiente de aprendizaje y trabajo sano para los estudiantes y empleados, el fumar está prohibido en todas las espacios interiores y hasta una distancia de quince (15) pies (5 metros) de cualquier puerta, entrada a una area interior, o entradas de ventilación. La violación de esta política podrá conducir a medidas disciplinarias conforme a los procedimientos disciplinarios usuales.

Política Para un Colegio Libre de Drogas

El Distrito de Colegios Comunitarios del Condado de San Mateo y Cañada College, en cumplimiento con las Escuelas Libres de Drogas y las Enmiendas de las Actas Comunitarias de 1989, prohíben el uso, posesión, venta o distribución de alcohol, narcóticos, drogas dañinas o ilegales, u otras sustancias reguladas definidas en los estatutos de California, en las propiedades del Distrito o colegio, o en cualquier evento auspiciado por el Distrito o colegio.

Los estudiantes deben conducirse como ciudadanos responsables y de una manera compatible con la función del colegio comunitario como una institución educativa. Los estudiantes están sujetos a la autoridad civil y a todas las reglas y regulaciones del Distrito y del colegio.

Los estudiantes que sean encontrados violando las reglas de la política de colegio libre de drogas al manufacturar, distribuir, repartir, poseer, o usar sustancias reguladas definidas en los estatutos de California, en cualquier propiedad del Distrito Escolar serán sujetos a medidas disciplinarias que pueden incluir la posible cancelación de la inscripción del estudiante al colegio.

La información completa acerca de las políticas puede ser encontrada en las página 25 de este catálogo.

Associate in Arts Degree and Associate in Science Degree

The awarding of an Associate Degree is intended to represent more than an accumulation of units. It is to symbolize a successful attempt on the part of the College to lead students through patterns of learning experiences designed to develop individual capabilities and insights.

Among these are the ability to think and to communicate clearly and effectively both orally and in writing; to use mathematics; to understand the modes of inquiry of the major disciplines; be aware of other cultures and times; to achieve insights gained through experience in thinking about ethical problems; and to develop the capacity for self-understanding. In addition to these accomplishments, the student shall possess sufficient depth in some field of knowledge to contribute to lifetime interest.

Central to an Associate Degree, General Education is designed to introduce students to the variety of means through which people comprehend the modern world. It reflects the conviction of colleges that those who receive their degrees must possess in common certain basic principles, concepts and methodologies both unique to and shared by the various disciplines. College educated persons must be able to use this knowledge when evaluating and appreciating the physical environment, the culture and the society in which they live. Most importantly, General Education should lead to better self-understanding.

Graduation from Cañada College with the Associate in Arts or Associate in Science degree is based upon the completion of 60 units of lower division college work, including requirements A through G listed below. Substitutions and waivers for degree requirements may be authorized by petition to the appropriate Division Dean. An application for the degree must be filed in the Admissions and Records Office during the last semester of attendance (refer to calendar for the college year for deadline).

Graduation Requirements Student Catalog Rights

Graduation requirements are listed in the Catalog. A student remaining in continuous attendance at Cañada College, College of San Mateo, or Skyline College may, for the purposes of graduation, elect to meet the requirements in effect at the college from which the student will graduate, either at the time the student began such attendance or any subsequent year of continuous enrollment.

For the purpose of this policy, "continuous enrollment" means attendance through at least the fourth week of instruction in either the fall or spring semester in each calendar year. Absence to attend another accredited college or university shall not be considered an interruption in attendance if the absence does not exceed one year. Catalog rights cannot supersede any State or Federal regulation or requirement in effect at the time of graduation.

Certificate Programs

Certificate programs are designed for students looking for short-term programs of instruction with a high degree of specialization. They are designed to prepare individuals to enter a particular field of employment or provide a level of in-service training or education for those already employed. Cañada College awards two levels of certificates. Certificates of Completion are those that are less than 18 units of course work. Certificates of Proficiency are those that are 18 units or more of course work. The section—Associate Degrees, Certificates, Transfer—in this Catalog lists programs alphabetically by subject and identifies the certificate and associate degree programs available.

The Certificates (Completion and Proficiency) have been designed on the career ladder concept and courses taken to fulfill the lower level of certificate, the Certificate of Completion, can be applied to the next level, the Certificate of Proficiency, if the certificate of proficiency exists. The course work applied to the certificates can also be applied to associate degrees. If no associate degree major exists in the area then the units can be counted as electives toward any associate degree. If an associate degree with the specific major exists then the units may make up an Associate Degree major.

Certificate of Completion (Certificates Requiring Less Than 18 Units) General Requirements and Certificate of Proficiency (Certificates Requiring 18 Units or More) General Requirements

1. The prescribed courses and units must be completed as identified in the Cañada College Catalog under core and selective courses.
2. Fifty percent of the required courses (identified as core and selectives) must be completed at Cañada College. Equivalent lower division courses completed at other institutions holding district approved accreditation may be submitted on a Request for Substitution petition for consideration to satisfy some certificate requirements. Petitions for this purpose are

available in the Enrollment Services Office, Building 8, bottom floor.

3. All CORE classes applied to the certificate must receive a grade of C or better. If the course is evaluated by credit or no credit ONLY then a “credit” evaluation for the course is acceptable. If the course is offered as “grade option” a letter grade of C or better is required.
4. Computer Literacy Requirement: satisfactory completion of a minimum of 1 unit of the following – Actg 190, 192, 194, 196, Art 314, 325, 368, 369, 372, 376, 377, 378, 379, 389, 390, Intd 362, 363, Legl 276, Bus 103, or any computer related courses above CIT 311, CBOT 417, any COMP or CIS course, OR a passing score on the Cañada College computer literacy test (both written and hands-on).
5. Students must be in “good academic standing” to receive a Certificate of Completion or a Certificate of Proficiency.

Precollegiate Basic Skills Courses

With the exception of English as a Second Language and learning disabled students, no student may receive more than 30 semester units of credit for precollegiate basic skills courses. Students who show significant, measurable progress toward the development of skills appropriate to enrollment in college-level courses may apply to the Dean of Counseling and Enrollment Services to request a limited waiver of this requirement.

Degree Credit & Non-Degree Credit Courses

The State of California has legislated a series of reforms designed to strengthen the community colleges. One of these reforms mandated a comprehensive review of the standards of instruction in each course in the curriculum. Each course was classified as “degree credit” or “non-degree credit”. A course offered for “non-degree credit” cannot be counted toward certificate completion, graduation or transfer. The following notation is placed at the end of the course description for all non-degree credit courses: “Units do not apply toward the AA/AS degree.”

Advanced Placement Test Policy

Cañada College grants credit for all College Board Advanced Placement Tests on which a student scores 3 or higher. The following list of College Board Advanced Placement Tests indicates how credit is applied to the Cañada College Associate degree general education requirements. Other AP tests not listed below generate elective credit toward the Associate degree. In order to receive credit the student is responsible for sending test score transcripts to the Cañada College Admissions and Records Office.

Advanced Placement Tests (AP) - Cañada College views, as do many colleges and universities, the Advanced Placement Test as a transcript from an independent college. Cañada College applies AP credit toward the Associate degree general education requirements in the same manner as the California State University system applies AP credit to CSU General Education/Breadth requirements. The chart above outlines general education application for Advanced Placement credit. How AP credit is applied to university majors and degree requirements is determined by evaluators at each college or university. Students should be aware that college courses taken after the AP test may duplicate the content of the AP test and, in these cases, the university (transfer destination) may not award credit for both the course and the AP test. Space does not permit discussion of how AP credit is granted for every university and program so students are advised to thoroughly investigate this area.

+IGETC - Advanced Placement tests can be used to satisfy all areas of IGETC except for Area 1B and 1C. This work may be applied toward completion of IGETC but applicability of such course work toward a major or degree requirements rests with each CSU and UC campus.

**CSU - A student may earn up to 6 semester units of baccalaureate credit for each Advanced Placement test of the college Entrance Examination Board on which the student receives a score of 3, 4, or 5. The list above indicates how AP credit is applied to CSU GE/Breadth requirements.

*UC - the University of California system grants credit for all College Board Advanced Placement Tests on which a student scores a 3 or higher. The credit may be subject, graduation credit, or credit toward general education or breadth requirements as determined by evaluators at each campus.

CSU General Education Requirements 2006–2007

Students transferring to the California State University (CSU) system qualify for admission as upper division transfers if they complete at least 60 transferable units with a GPA of 2.0 or better (non-residents 2.4 or better). The 60 unit requirement must include successful completion (with a grade of “C” or better) of areas A1, A2, A3, and B4, and 18 additional units from areas B, C, D, and E. Students who complete the 39 unit pattern satisfy the lower division general education requirements for the California State University BA/BS degree. A minimum of 9 semester units of upper division general education coursework must be completed at the university after transfer. Courses listed in more than one area can be used to satisfy only one area.

At the completion of course work at Cañada College—and prior to transfer—students must request a CSU GENERAL EDUCATION CERTIFICATION from the Admissions and Records Office to be mailed with the final transcript to the transfer destination. Complete a transcript request form to make this request. Use PROJECT ASSIST (www.assist.org) for the most up-to-date transfer information which includes general education and lower division major requirements and articulation.

Inter-segmental General Education Transfer Curriculum (IGETC) 2006–2007

Completion of all IGETC requirements permits students to transfer from a community college to the CSU or the UC systems without the need, after transfer, to take additional lower-division general education courses to satisfy individual campus general education requirements. Many independent colleges accept all or part of IGETC in lieu of their specific general education course patterns.

At the completion of course work at Cañada College—and prior to transfer—students must request, an IGETC CERTIFICATION from the Admissions & Records Office to be mailed with the FINAL transcript to the transfer destination. Use PROJECT ASSIST (www.assist.org) for the most up-to-date transfer information which includes general education and lower division major requirements.

NOTE: All areas must be satisfied and all courses must be completed with a grade of “C” or better before the IGETC can be certified.

ACCOUNTING

Certificate of Completion-Entry Level Bookkeeper

Certificate of Proficiency-Accounting

Associate in Science Degree

Transfer Program

The Business Department offers a transfer curriculum to a four-year university, an AS Degree, and a certificate program designed to give the students both formal and practical training in accounting. The accounting AS degree and certificate programs are designed to give students enough practical experience so that they can secure a position in either the public, governmental, or private accounting sector when they have completed the recommended 25.5 - 29.5 units. Courses specifically required for the student's major must be evaluated by a letter grade, not by the credit (CR) grade.

The Certificate of Completion is designed for those individuals that are interested in job opportunities at the entry level in bookkeeping and or computerized accounting data entry. Those students that are interested in becoming professional bookkeepers may apply some of the course work in this certificate to the Certificate of Proficiency in Accounting and the accounting A.S. degree.

The demand for entry level bookkeepers and accounting data entry personnel continues to remain high. Entry level positions pay between \$15 and \$25 per hour depending upon experience.

PROFESSIONAL SCHOOL PREPARATION

(Pre-Dentistry, Pre-Medicine, Pre-Pharmacy, Pre-Veterinary, Pre-Optometry)

Many students are interested in careers in the health sciences and wonder what they should major in at Cañada College. Students often have the misconception that "pre-med" is an academic major and it is not. Students should major in what they enjoy as long as they take the appropriate courses required for professional school (medical, dental, veterinary) admission. Some students choose majors like biological science, genetics, or microbiology, where there is a great deal of overlap between courses required for their major and the professional school undergraduate requirements. Others choose majors not directly related to their career objective, such as English, psychology, anthropology, and use their elective units to meet the professional school requirements. Professional schools, especially medical schools, are looking for well-rounded students who have taken courses in the humanities and social sciences, and who have participated in activities and community work. More information can be found at numerous websites (i.e., www.aamc.org) and by speaking with a Counselor/Advisor.

Each professional school has a minimum number of prerequisite courses to be taken at the undergraduate level. Requirements vary from school to school. Many prerequisite courses may be taken at Cañada College.

Geography provides insights about the earth as the human habitat. It is a way of looking at the earth, not an inventory of its contents. This viewpoint rests on fundamental interlocking concepts. The cultural appraisal of the earth, the regional concept, areal coherence, human ecology, spatial interaction, study of landscape, and the concept of change are all ways the geographer tries to better understand the environment.

MUSIC

**Associate in Arts
Transfer Program**

“In a world of political, economic, and personal disintegration, music is not a luxury but a necessity, not simply because it is therapeutic nor because it is the universal language, but because it is the persistent focus of man’s intelligence, aspiration, and good will.” -Robert Shaw.

The Music Department at Cañada College, through its outstanding faculty, places strong emphasis upon performance, both individual and group. At the same time, the department offers the general student enhanced understanding and appreciation of all forms of music. Through this two-fold approach, the department’s purpose becomes clear: to promote excellence in all aspects of music performance and academic course work, to provide basic preparation for careers in music, and to promote interest in all musical and artistic endeavors at the college and in the Bay Area community.

PHYSICAL SCIENCES

Associate in Science - Physics

Transfer Program

The Physical Science Department is designed to give the student breadth in the physical sciences while providing considerable strength in one of the specialized science fields of chemistry, geology, or physics. The lower-division program in the physical science major is virtually the same as that taken in the first two years of college by a chemistry major, physics major, or geology major, thus enabling students to transfer among these majors if they so choose. A major in physical science can serve as preparation for further study in technical fields and serves as an excellent background for professional training in law, business, medicine, or education.

SPEECH**Associate in Arts****Transfer Program**

The Speech Department at Cañada College offers classes in the two primary forms of verbal communication: public address (rhetoric), and conversation or private discourse (dialectic). The department also offers a course in Oral Interpretation of Literature (reading aloud from the printed page), which, though concerned with neither rhetoric nor dialectic, is closely related to both of those forms of verbal address. The instructors in this department emphasize the necessity of strong and logically structured argument, at the same time recognizing the primacy of humane and empathetic elements in human communication. Speech classes at Cañada College are designed to encourage students to understand and use the traditional elements and devices of good speaking, while learning how to apply that understanding to their personal speaking styles.

The Cañada College Theater Arts Department presents a program rich in depth and diversity. Students pursuing a career in the theatre arts or simply desiring creative expression, will find in the drama department, a wide array of pertinent courses, as well as an extensive opportunity to put their developing knowledge and talent to work in performing on stage, in technical work, or in both. Because the department usually produces five plays during the year, a student has the opportunity to work with at least two different directors and in plays ranging from comedy to heavily dramatic works.

The Cañada Theater Arts Department can point with satisfaction to a significant and steadily growing number of its former students who go on to professional stage, movie, and television work performing, producing, and technical and also to the many gratified amateurs.

It should be emphasized that the Theater Arts program is designed for students of all levels of experience—beginning, intermediate, and advanced.

Course Descriptions

General Information

BASIC SKILLS ADVISORY SYSTEM

A Basic Skill Advisory refers to the recommended skill level in reading, writing, and/or mathematics which is needed before enrolling in a course. In order to succeed in most courses, students need to demonstrate at specific levels reading and writing skills and, for some courses, perform mathematical operations before enrolling. Designating these basic skill levels informs students at which minimum levels they need to perform before enrolling in the target courses.

Basic skill levels are recommended rather than mandatory, but students are strongly encouraged to adhere to them and follow the advice of their counselor. Counselors use placement test results and other information to determine whether a student needs to raise his/her skill levels before enrolling in a target course.

Open Curriculum

Some courses are designated as OPEN CURRICULUM (OC) courses. This designation means that specific levels of reading, writing and/or math are not required for successful course completion. Most OC designated courses are activity courses which do not require students to use reading, writing, and/or math skills. Some OC designated courses are entry level reading, writing, and/or math courses. Specific levels of proficiency for enrollment in these courses are not designated because students may begin at their current instructional levels and proceed to higher levels of performance until they reach exit levels for course completion. Some of these courses, however, such as READ 826, ENGL 826, and MATH 811 may require that placement test results and other information be on file prior to the first day of class.

Recommended Basic Skill Level Summary:

Level 1 Students must be eligible for READ 836 and ENGL 836

Level 2 Students must be eligible for READ 420 and ENGL 100

Level 3 Students must be eligible for ENGL 110

Math 2/3 Students must be eligible for MATH 110 or 111

Math 4 Students must be eligible for MATH 120 or MATH 122

Level 1

If a course has the designation Level: 1, students need to demonstrate ability to read and write at the 9th grade level.

In order to demonstrate proficiency at this level, students may attain appropriate Reading and English Placement Test scores or they may complete successfully the following combinations of reading and writing courses to reach this level:

ENGL 826 (3 units) and READ 826 (3 units) or

ENGL 804 (4 units) or

ESL 844 (4 units) and ESL 864 (4 units)

Level 2

If a course is designated LEVEL: 2, students need to demonstrate ability to read and write at the 11th grade level.

In order to demonstrate proficiency at this level, students may attain appropriate Reading and English Placement Test scores or they may complete successfully the following combinations of reading and writing courses to read at this level:

READ 836 (3 units) and ENGL 836 (3 units)

Level 3

If a course is designated LEVEL: 3, students need to demonstrate ability to read and write at the college level.

In order to demonstrate proficiency at this level, students may attain appropriate Reading and English Placement Test scores or they may complete successfully the following combination of reading and writing courses to read at this level:

READ 420 (3 units) and ENGL 100*

*If ENGL 100 is a COURSE PREREQUISITE for a particular course, students must take the course. An appropriate English Placement Test score does not apply in this case.

Math 2/3 (M2) (M3)

If a course is designated as MATH 2 or M2, students must be eligible for MATH 111. This means that students need to demonstrate the ability to perform basic arithmetic operations successfully. MATH 111 and 112 cover elementary algebra offered in two semesters.

In order to demonstrate proficiency at the M2 level, students may attain an appropriate Placement Test score in math or they may complete successfully MATH 811 (Pre-algebra).

If a course is designated as MATH 3 or M3, students must be eligible for MATH 110 which covers elementary algebra in one semester. This means that students need to demonstrate the ability to perform basic arithmetic operations successfully.

In order to demonstrate proficiency at the M3 level, students may attain an appropriate Placement Test score in math or they may complete successfully MATH 811 (Pre-algebra).

Math 4 (M4)

If a course is designated as MATH 4 or M4, students must be eligible for MATH 121 or 122. This means that students need to demonstrate ability to perform basic algebraic operations successfully.

In order to demonstrate proficiency at the M4 level, students may attain an appropriate Placement Test score in math or they may take MATH 110 or MATH 111 and 112.

Note: If any of the math courses specified above are designated as PRE-REQUISITES for a particular course(s), students must take the courses specified. Appropriate Placement Test scores in Math do not apply in this case.

CREDIT VALUE

The credit value of each course in semester units is indicated just under the title. A semester unit of credit is equivalent to one hour of the student's time per week in lecture for semester length courses with two hours per

week in study and preparation, or three hours per week in laboratory or activity courses.

CALIFORNIA ARTICULATION NUMBER (CAN)

The California Articulation Number (CAN) identifies some of the transferable lower division, introductory courses commonly taught within each academic discipline on college campuses. The system assures students that CAN courses on one participating campus will be accepted in lieu of the comparable CAN course on another participating campus. Counselors will provide interested students with a list of participating institutions.

The CAN system is new and growing and designed to facilitate student transfer between and among public institutions of higher education in the State of California. CAN numbers are listed parenthetically after the course descriptions in the listing of courses.

Parking

Parking anywhere on campus is by permit only, in clearly designated areas. The Cañada College campus consists of all parking lots and access roads between Farm Hill Blvd. and Cañada Road. Parking is free Friday nights, Saturday and Sunday.

Student parking permits are available for \$30 per semester and \$20 for the Summer Session and may be purchased during registration or from the Business Office, Building 8, Room 305 during the day, or from Admissions & Records during the evening. Parking permits must be affixed to the rear, left bumper or the lower left corner of the rear window. A second permit may be purchased for \$1 on presentation of current registration certificates from both vehicles showing ownership by the same person.

Students attending class only one day or evening per week may purchase a daily permit each time they come on campus. These permits are available from vending machines for \$1.00 and allow parking in student lots only. Daily permits are to be placed on the left hand side of the dashboard clearly visible to the security officer.

Visitor Parking Lot 4 is limited to one-hour parking only, except in spaces designated for disabled persons. Visitors on official business may request a temporary Visitor's Permit allowing them to park in Visitor or permit lots.

They are available from the Business Office located in Building 8, Room 305. No staff or student parking is allowed in visitor Lot 4.

Special parking permits for disabled students, day and evening, are issued by the Business Office, Building 8, Room 305. For further information, call the Enable Center at 306-3490 or the Business Office at 306-3270.

Parking fees are refundable through the second week of instruction in semester-length classes, or the first 10% of the instructional period in less than semester-length classes. During late registration, a grace period will be in effect in student parking lots only, in order to enable students to purchase a permit during the late registration period. Parking regulations are enforced at all times in staff lots and in other restricted areas.

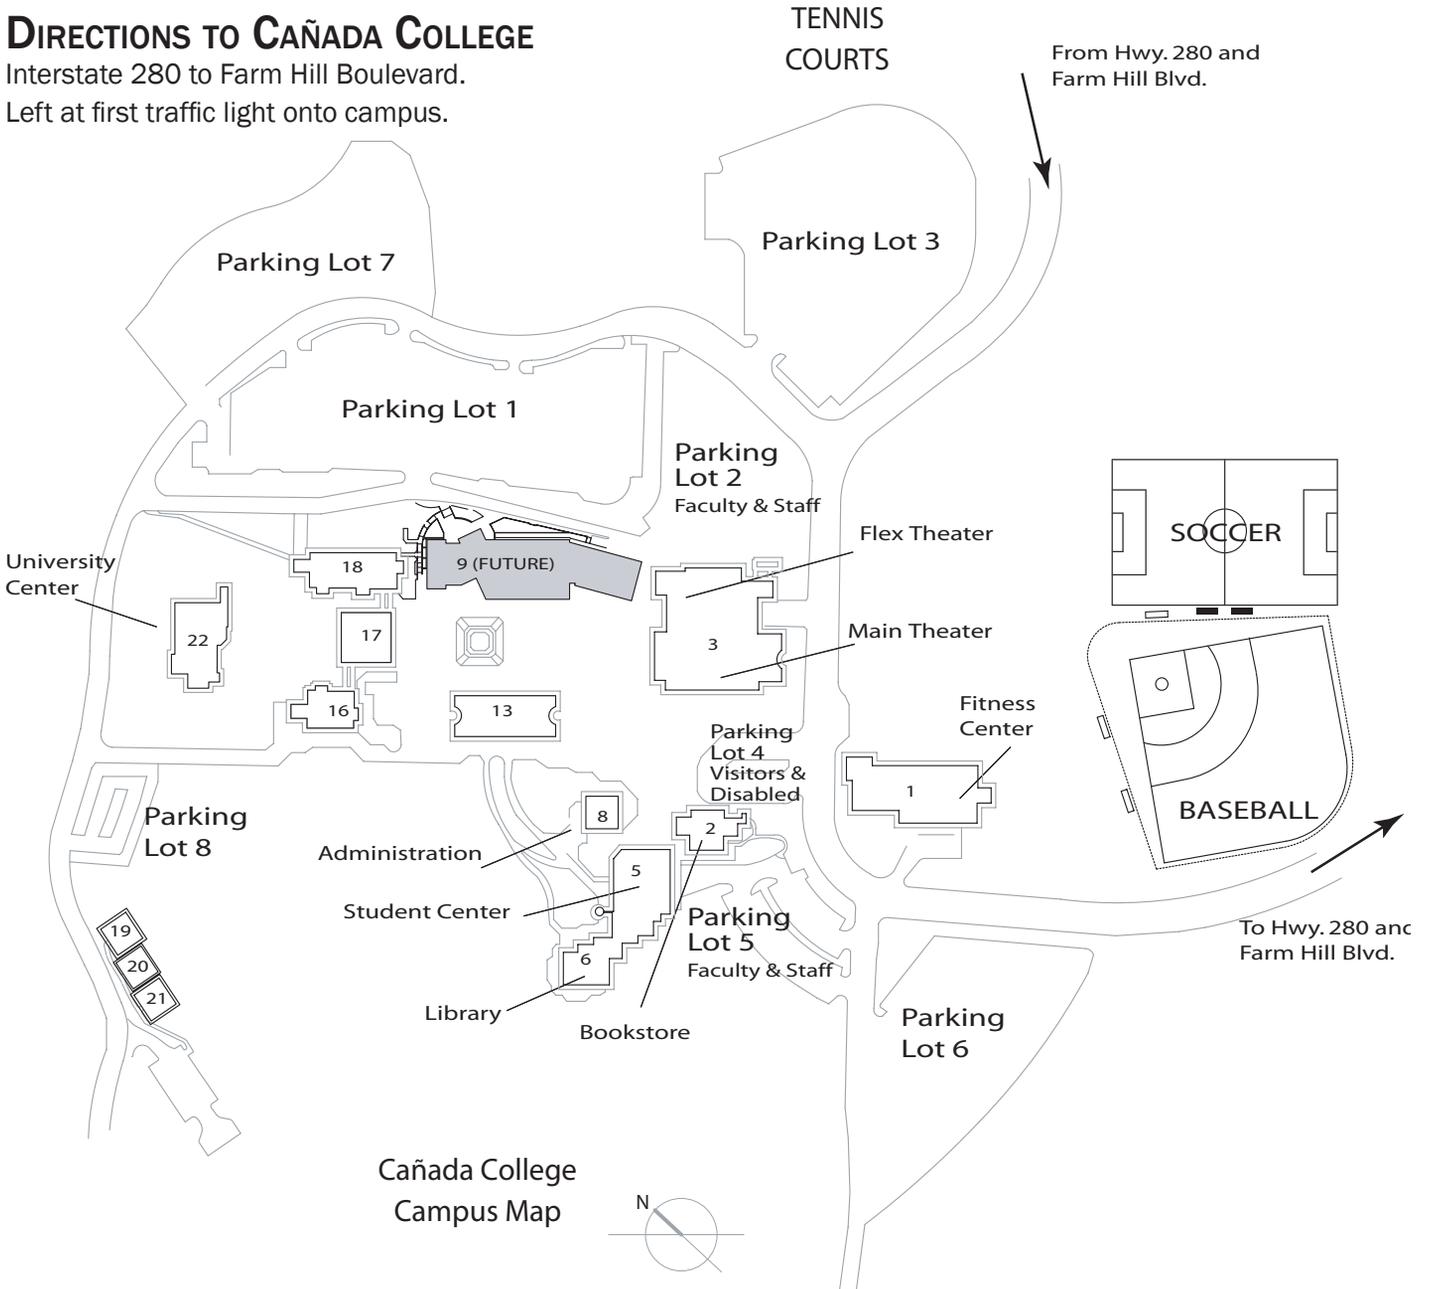

Parking spaces are available on a first-come, first-served basis. Therefore, a permit is not a guarantee of a parking space. Cañada College and the San Mateo County Community College District do not accept liability for vandalism, theft or accidents. Use of parking facilities is at the user's risk. Student parking permits are valid at all three campuses of the SMCCCD.
