Classes are offered at various elementary school sites within Redwood City. The goal of the program is to build the English skills of parents and community members to enable them to play a greater role in the education of children in the Redwood City School District, such as by tutoring. The CBET program is funded by the State of California through Proposition 227 and is a collaboration between Cañada College and the Redwood City School District. Role of the Faculty and Students

Cañada College seeks the counsel of its faculty and students through a system of permanent councils, committees and informal consultation. Standing and *ad hoc* committees are organized under the College Council or the Academic Senate which operates through a Governing Council (elected by the faculty). Classified staff members of committees are appointed by the Classified Senate; student members are appointed by the Associated Student Government. Instructors, students, staff and

administrators participate in curriculum development and the learning processes and in the general campus environment as full voting members of the various college committees which provide guidance and assistance to the President.

Statement on Academic Freedom

The San Mateo County Community College District is dedicated to maintaining a climate of academic freedom encouraging the sharing and cultivation of a wide variety of viewpoints. Academic freedom expresses our belief in inquiry, informed debate and the search for truth; academic freedom is necessary in order to provide students with a variety of ideas, to encourage them to engage in critical thinking and to help them understand conflicting opinions.

Academic freedom encompasses the freedom to study, teach, and express ideas, including unpopular or controversial ones, without censorship or political restraint. Academic freedom, rather than being a license to do or say whatever one wishes, requires professional competence, open inquiry and rigorous attention to the pursuit of truth.

The District's faculty have the right to express their informed opinions which relate, directly or indirectly, to their professional activities, whether these opinions are expressed in the classroom, elsewhere on campus or at college-related functions. In a search for truth and in a context of reasoned academic debate, students also have the right to express their opinions and to question those presented by others.

Employment by the District does not in any way restrict or limit the First Amendment rights enjoyed by faculty as members of their communities. Faculty members are free to speak and write publicly on any issue, as long as they do not indicate they are speaking for the institution.

Protecting academic freedom is the responsibility of the college community. Therefore, in a climate of openness and mutual respect, free from distortion and doctrinal obligation, the District protects and encourages the exchange of ideas, including unpopular ones, which are presented in a spirit of free and open dialogue and constructive debate.

Revision of Regulations

Any regulation adopted by the administration of Cañada College or the San Mateo County Community College District will be considered an official ruling and will supersede regulations on the same subject which appear in this catalog and other official publications, provided that the new regulation has been officially announced and posted.

POLICIES

(Información en español está en la página 13.)

Matriculation

Matriculation is the process which brings the College and the student who enrolls for credit into an agreement for the purpose of developing and realizing the student's educational objective. The agreement acknowledges responsibilities of both parties to enable students to attain their objectives efficiently through Cañada's established programs, policies, and requirements. All students, except those exempted, are expected to complete matriculation requirements.

In accordance with the California Administrative Code, Cañada provides matriculation services organized in several interrelated components:

Admissions: Collects and analyzes information on each applicant, identifies students needing special services, and assists students to enroll in a program of courses to attain their educational goals.

Skills Assessment: Measures students' abilities in English, reading, mathematics, learning and study skills and assesses students' interests and values related to the world of work. In addition to helping students with course selection, assessment results are used to determine honors eligibility and to refer students to special support services.

Orientation: Acquaints students with College facilities, special programs, services, as well as academic expectations and procedures.

Advisement/Counseling and Course Selection: A process in which students meet with a counselor/advisor to develop an individual educational plan, choose specific courses and to update their plans periodically.

Student Follow Up: Ensures that the academic process of each student is regularly monitored, with specific efforts made to assist students who have not determined an educational goal, who are enrolled in pre-collegiate basic skills courses and/or who have been placed on academic probation.

Each matriculated student is expected to:

- Express at least a broad educational intent at entrance and a willingness to declare a specific educational goal following the completion of 15 semester units of degree-applicable course work.

- Attend classes regularly and complete assigned course work.
- Cooperate in the development of a student educational plan within 90 days after declaring a specific educational goal, and subsequently abide by the terms of this plan or approved revision thereof, making continued progress toward the defined educational goal.

Cañada College may withhold matriculation services from students failing to cooperate in meeting the above expectations.

Each matriculated student is entitled to:

- Participate in the process of developing his/her student educational plan. A student who believes the College has not afforded him/her the opportunity to develop or implement this plan may file a complaint in the Office of Matriculation, Transfer and Articulation, Building 5, Room 204.
- Be given equal opportunity to engage in the educational process regardless of sex, marital status, physical handicap, race, color, religion, or national origin. A student who alleges he/she has been subject to unlawful discrimination may file a grievance with the Office of Matriculation, Transfer and Articulation, Building 5, Room 204.
- Challenge any prerequisite on one or more of the following grounds:
 - prerequisite was not established by the adopted district process
 - prerequisite was established in violation of Title 5
 - prerequisite is discriminatory or applied in a discriminatory manner
 - student has the knowledge or ability to succeed despite not meeting the prerequisite
 - student will be delayed because prerequisite course has not been made reasonably available
- Request a waiver of any matriculation requirement on the basis of extraordinary circumstances.
- Review the matriculation regulations of the California Community Colleges and exemption criteria established by this District and file a complaint when he/she believes Cañada has engaged in any practice prohibited by these regulations. The regulations are available in the Office of Matriculation, Transfer and Articulation, Building 5, Room 204.

Alternative Matriculation Procedures

The following supplemental matriculation services are available for students who require special accommodations in the educational setting:

- Students with physical, visual, communication, psychological, or learning disabilities are advised to contact DSPS, Building 5, Room 207; Health Services, Building 1, Room 117; Psychological Services, Building 6, Room 13.
- Students who speak English as their second language may contact the English Institute, Building 13, Room 121 or call 306-3412.
- Students with difficulty in reading, writing, math and other basic skills are advised to contact EOPS, Building 3, Room 117; or the Learning Center, Building 5, second floor.

Matriculation Appeal and/or Grievance Procedure

Any student who wishes to challenge any requirement of matriculation should contact the Director of Matriculation, Transfer & Articulation, either by letter or by calling 306-3310, for assistance in completing forms and using the College's normal appeals procedure. (See page 6.)

Matriculation Exemptions

Any student who has completed an associate degree or higher is exempt from orientation, assessment, counseling or advisement. Students may also be exempted from matriculation if they are enrolled as a matriculating student at another college or university or only taking classes for personal enrichment or enhancing employment-related skills. Students who have completed college level course work at another institution may be exempt from a portion of the matriculation services. Exempt students may elect to participate in any or all of the matriculation services provided.

Policy of Non-discrimination

Cañada College is committed to equal opportunity regardless of age, gender, marital status, disability, race, color, sexual orientation, religion, national origin, or other similar factors, for admission to the College, enrollment in classes, student services, financial aid, and employment in accordance with the provisions of Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972 (45CRF 86), Section 504 of the Rehabilitation Act of 1973 (P.L. 93-112), and the Americans with Disabilities Act of 1990.

It is important that students, staff, and all others associated with the College understand the importance of reporting concerns about possible violations of this policy. The College's commitment to equal opportunity demands full investigation of possible violations and an opportunity for a fair and impartial hearing on any matter relating to these laws and policies.

Any person seeking information concerning these laws and policies or claiming grievance because of alleged violations of Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act of 1990 should contact Dr. Olivia Martinez, Vice President, Student Services, (Building 8, Room 310, 306-3234).

All grievances will be reviewed in terms of Title VI and Title IX law, and persons involved will be advised of the provisions of the law and their legal rights. If normal channels are not available or fail to meet legal requirements, the necessary action will be initiated.

Policy on Americans with Disabilities Act

The purpose of the Americans with Disabilities Act (ADA), PL 101-336, is to extend to people with disabilities civil rights similar to those now available on the basis of race, color, national origin, sex and religion through the Civil Rights Act of 1964. It prohibits discrimination on the basis of disability in private sector employment, services rendered by state and local governments, places of public accommodation, transportation, and telecommunications relay services. The ADA says that no covered entity shall discriminate against a qualified individual with a disability because of the disability of such individual in regard to job application procedures; the hiring, advancement, or discharge of employees; employee compensa-

tion; job training; and other terms, conditions, and privileges of employment.

Major employment provisions of the ADA require equal opportunity in selection, testing, and hiring of qualified applicants with disabilities (applicants with disabilities may request that special accommodations be made in order to complete these processes); equal treatment in promotion and benefits; reasonable accommodation for applicants and workers with disabilities when such accommodations would not impose "undue hardship"; and prohibits discrimination against workers with disabilities. (This provision is similar to the Civil Rights Act of 1964 and Title V of the Rehabilitation Act of 1973).

Employers may require that an individual not pose a direct threat to the health and safety of others; may not make pre-employment inquiries about an applicant's disability or conduct pre-employment medical exams; and may conduct a test for illegal drug use and prohibit all workplace use of illegal drugs and alcohol.

If you need further information or if there are any problems or complaints on campus regarding compliance, please contact Dr. Olivia Martinez, Vice President, Student Services, at 306-3234 or Lesli Sachs, College Nurse, at 306-3309.

Policy on Sexual Harassment

It is the policy of San Mateo County Community College District and Cañada College to prohibit, in any and all forms, the sexual harassment of its students and staff. Sexual harassment of students by other students or staff, and/or the harassment of staff by students, is considered intolerable behavior that will be investigated and acted upon immediately.

Students or staff seeking further information concerning this policy or claiming grievance because of alleged violation of this policy should contact Dr. Olivia Martinez, Vice President, Student Services, Building 8, Room 310, telephone 306-3234.

Additional Redress

In addition to, and concurrently with, the filing of a written grievance, a student has the right to file a complaint or charges with other appropriate governmental agencies such as the Equal Opportunity Commission, the Office for Civil Rights, the Department of Fair Employment and Housing, the Chancellor's Office of the California Community Colleges, or State or Federal court.

Policy on Smoking

In order to provide a safe learning and working environment for students and employees, smoking is prohibited in all indoor locations, outdoor balconies, terraces and stairs, and within a distance of fifteen (15) feet from any District doorway, entrance to an interior area, or air intake vents. Violation of this policy could lead to disciplinary action under usual disciplinary procedures. For a complete copy of the Smoking Policy and Guidelines, contact the Coordinator of Student Activities, Building 5, Room 211C, telephone 306-3364.

Policy on Drug-Free Campus

The San Mateo County Community College District and Cañada College, in compliance with the Federal Drug-Free Schools and Communities Act Amendments of 1989, prohibits the use, possession, sale or distribution of alcohol, narcotics, dangerous or illegal drugs or other controlled substances, as defined in California statutes, on District or College property, or at any function sponsored by the District or College. Students are expected to conduct themselves as responsible citizens and in a manner compatible with the community college function as an educational insti-

tution. Students are subject to civil authority and to all District and College rules and regulations.

Students found to be in violation of the drug-free campus policy by manufacturing, distributing, dispensing, possessing, or using controlled substances, as defined in California statutes, on any District property will be subject to disciplinary measures up to and including possible cancellation of registration.

Persons seeking further information concerning this policy or the health risks and effects associated with alcohol and narcotics or other dangerous or illegal drugs, should contact Lesli Sachs, College Nurse, Bldg. 5, Room 213 (306-3309).

Privacy Rights of Students - Annual Notification

The Family Educational Rights and Privacy Act (Section 438, Public Law 93-380, as amended) requires educational institutions to provide: access to official educational records directly related to the student; an opportunity for a hearing to challenge such records on the grounds that they are inaccurate, misleading, or otherwise inappropriate; that the College must obtain the written consent of the student before releasing personally identifiable information about the student except to those persons and agencies specified by the Act; and that these rights extend to present and former students of Cañada.

Education records generally include documents and information related to admissions, enrollment in courses, grades, and related academic information.

The Dean of Enrollment Services has been designated Records Officer, as required by the Act. Education records will be made available for inspection and review, during working hours, by currently and formerly enrolled students, within 5 days following completion and filing of a request form with the Records Officer.

If a student wishes to challenge any information in the educational record, the student shall review the matter with the Records Officer. During the informal proceedings the Records Officer may make such adjustments or changes not constituting interference or integrity of professional entries.

If these informal proceedings do not settle the dispute with the students records, the student may submit a request in writing to the Designated Officer, the Dean of Enrollment Services, on forms provided by that office. The Designated Officer will then assign the matter within 10 college calendar days to a Hearing Officer. The Hearing Officer will set a date for the hearing. At the conclusion of the hearing he/she will render his/her decision to the President of Cañada who will make the final decision on what action is to be taken.

The student has the right to consent to disclosures of personally identifiable information contained in the student's education records except to the extent that FERPA authorizes disclosure without consent. One exception that permits disclosure without consent is disclosure to "college officials" with "legitimate educational interests". A college official is a person employed by the College of District as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the Board of Trustees; a person or company with whom the College has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another college official in performing his or her tasks. A college official has a "legitimate educational interest" if the official needs to review an education record in order to fulfill his or her professional responsibility and/or clearly specified duties.

The Act provides that Cañada may release certain types of Directory Information, unless the student submits in writing to the Records Officer that certain or all such information not be released without his/her consent. Directory Information at this College includes: (1) student name and city of residence, (2) participation in recognized activities and sports, (3) dates of attendance, (4) degrees, certificates, and awards received, (5) the most recent previous educational agency or institution attended, (6) height and weight of members of athletic teams.

Upon request, the College discloses education records without consent to officials of another college in which a student seeks or intends to enroll.

Students have the right to withhold any item in "directory information", but must notify the College of such in writing (completion of College form, Request to Withhold release of Directory Information, available at the Admissions and Records Office) within 30 days of applying for admissions to the College.

The eligible student (18 years and over) or parents (of a dependent student 17 years and under) have the right to file a complaint with the U.S. Department of Education concerning alleged failures by the College to comply with the requirement of FERPA. The name and address of the Office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
600 Independence Avenue, SW
Washington, DC 20202-4605

A copy of the College policy, the Family Education Rights and Privacy Act (Section 438 P.L. 93-380), and other pertinent information is available for review and inspection in the Admissions & Records Office, Building 8, Room 215, during normal business hours.

Student Right to Know and Campus Security Act

In order to make Cañada College a safe and pleasant environment for students and employees, the College has established procedures in compliance with Federal Public Law 101-542 (Student Right-to-Know and Campus Security Act). Persons seeking information concerning Cañada campus law enforcement procedures, crime prevention efforts, and crime statistics should contact Campus Security, Building 13, Room 28, or call 306-3420.

In compliance with the Student Right-to-Know and Campus Security Act of 1990, it is the policy of the San Mateo County Community College District and Cañada College to make available its completion and transfer rates to all current and prospective students. Beginning in Fall 1997, a cohort of all certificate-, degree-, and transfer-seeking first-time, full-time students were tracked over a three-year period; their completion and transfer rates are listed below. These rates do not represent the success rates of the entire student population at Cañada College, nor do they account for student outcomes occurring after this three-year tracking period.

Based upon the cohort defined above, 36.7% attained a certificate or degree or became 'transfer-prepared' during a three-year period, from Fall 1997 to Spring 2000. Students who are 'transfer-prepared' have completed 56 transferable units with a GPA of 2.0 or better.

Based upon the cohort defined above, 41.8% transferred to another postsecondary institution (CSU, UC, or another California Community College) prior to attaining a degree, certificate, or becoming 'transfer-prepared' during a five-semester period, from Spring 1998 to Spring 2000.

More information about Student Right-to-Know Rates and how they should be interpreted can be found at the California Community Colleges

"Student Right-to-Know Information Clearinghouse Website" located at <http://srtk.cccco.edu>.

ADA-Decreto para Americanos con Incapacidades

El 26 de Enero de 1992 el Decreto para Americanos con Incapacidades (ADA), que gobierna el acceso y utilidad de las comodidades públicas y facilidades comerciales, se hizo efectivo. Este decreto afectará el empleo, servicios públicos, transportación y los servicios de comunicaciones telefónicas. Este estatuto literalmente abre las puertas a los individuos con incapacidades que han necesitado acceso a muchos efectos y servicios que el público trata normalmente con indiferencia como baños, agua para beber, lavanderías, máquinas cajas automáticas (ATM), y así sucesivamente.

La ADA es diseñada para prohibir discriminación en contra de esos individuos con una incapacidad física o mental que limita una mayor actividad en la vida. Características físicas como ser zurdo, tener un propio estilo de vida, uso de drogas, etc., estos temas no son aplicados en el decreto (ADA). Muchas estructuras existentes requerirán alteraciones de diseño mayores y/o menores. Las normas para diseño accesible son delineadas en las "Normas de Accesibilidad del ADA para Edificios y Facilidades". Estas normas son muy similares a esas establecidas por el Instituto de Normas Nacional Americano (ANSI):

1. Proveer acceso general a las facilidades.
2. Proveer acceso específico a esas áreas dentro de una facilidad donde efectos y servicios son disponibles.
3. Proveer acceso a los baños.
4. Implementar algunas otras medidas necesarias para proveer acceso y funcionamiento.

Esto incluye todas las construcciones nuevas y existentes de las comodidades públicas y facilidades comerciales. Los arrendadores y los arrendatarios serán responsables de obrar de acuerdo a la ley. Las comodidades públicas incluyen: facilidades de hospedaje, restaurantes, facilidades de entretenimiento, tiendas, establecimientos de servicio, transportación pública, museos, facilidades recreativas, facilidades educativas, centros de servicio social, facilidades deportivas y de ejercicio. Clubes privados y facilidades religiosas no están cubiertas por el decreto (ADA). Facilidades comerciales no son de uso residencial por una entidad privada cuyas operaciones afecten el comercio. Esto incluye todas las facilidades comerciales que ocupen una casa o apartamento.

Es requerido que cada facilidad conduzca un programa de evaluación propia relacionado a los mandatos del ADA. A personas con incapacidades y/o organizaciones que las representan se les debe proporcionar la oportunidad de participar en la evaluación para el desarrollo del plan transitivo. Este programa debería ser completado y archivado, a más tardar el 26 Enero de 1995. Pueden ocurrir condiciones especiales como una "desproporcionada alteración de costos" y puede ser revaluado por la oficina del Procurador General de Estados Unidos.

Infracciones al ADA pueden ser llevadas ante un juez por personas particulares o por el Procurador General de Estados Unidos. El juez puede

otorgar a una persona particular daños monetarios, incluyendo gastos de abogado, como también fijar una pena civil en contra de la entidad ofensiva, de \$50,000 a \$100,000.

En conclusión, los requerimientos de la ADA serán vistos como una norma para diseño y construcción. Les da responsabilidad sobre esos (AEC) envueltos en el diseño, construcción y operaciones de estructuras comerciales y públicas. La ADA está abriendo muchas oportunidades en los campos del AEC para diseñadores, constructores y consultores. Adaptive Physical Education

The Adaptive Physical Education Program through the Physical Education/Athletics Department offers an individualized approach to Adaptive P.E., providing classes in weight training and general conditioning. The focus of the Adaptive P.E. Program is the promotion of optimum physical fitness; this program provides the students with appropriate knowledge and skills for their lifelong fitness pursuits. Based upon a physician's recommendation, each student is given an individualized exercise program tailored to his/her specific physical abilities and limitations. Improvement in muscular strength, flexibility, balance, coordination, and cardiovascular endurance is the primary goal of the general conditioning classes. Emphasis is placed also upon providing enjoyable, positive experiences in order to enhance self-image and social interaction, with independence and mainstreaming (where possible) as a long-range goal. Students should call Barbara McCarthy at 306-3473 for more information.

Cooperative Education - Work Experience

Through Cooperative Education/Work Experience, students earn college credit by improving their skills and knowledge on a paid or volunteer assignment. Students work with instructors and job supervisors to establish measurable learning objectives appropriate for their jobs. Credit is earned toward an associate degree or certificate when these objectives are successfully accomplished. Spring and Fall semesters, students must be enrolled in seven (7) units, including Cooperative Education/Work Experience. Summer session, students must be enrolled in any half-unit (0.5) course plus Cooperative Education/Work Experience. Call 306-3367 for additional information.

Students who have jobs related to their occupational goals may earn one unit of credit for each 75 hours of paid work with a maximum of four units per semester for a total not to exceed 16 units while enrolled in a community college. Students in volunteer jobs with non-profit organizations may earn one unit of credit for each 60 hours of work.

Disabled Student Program

The Disabled Student Program offers a range of services to students with various disabilities, including physical and learning disabilities. These handicapped permits must be reauthorized each semester. There is no charge for a handicapped permit, but it is valid only when displayed with a current semester's parking permit. Students without official permits who park in handicapped parking spaces will be ticketed by Campus Security.

Distance Learning

Distance learning courses are Cañada College credit courses that give students the opportunity to complete most of their course work outside the classroom, on their own time, usually at home. However, attendance at one or more on-campus meetings is usually required. These courses are offered as telecourses through KCSM TV, or as on-line internet courses. Telecourses and on-line courses are academically equivalent to on-campus courses and are transferable to most four-year colleges and universities. See the Schedule of Classes, or visit our website (canadacollege.net) for information on specific course offerings.

ECE Agreement with Skyline College

Cañada College and Skyline College offer a state-approved conjoint program in Early Childhood Education/Child Development for the benefit of students. The twelve-unit required core courses may be taken at Cañada or Skyline. The remaining twelve units for the certificate, fifty percent (50%) of the major, must be taken in residence at Cañada College—the college authorized to grant the certificate and AS degree.

Engineering Computer Center

The Engineering Computer Center (Bldg. 16, Room 110) provides computer laboratory facilities for the transfer engineering program. This center provides Computer Aided Design (CAD) Systems for use by the students in their design course, and in other courses as required. In addition, a number of other software packages are used to allow students to explore the use of computers in all of their engineering courses.

Financial Assistance Programs

(Información en español está en la página 14.)

The financial aid program at Cañada College is dedicated to the concept that no individual should be denied an education solely for financial reasons.

Any student applying for admission to Cañada College who has a financial need for assistance is urged to apply for aid.

The Financial Aid Office administers a program of grants, loans, and work-study programs which may be awarded to qualified students. Students are provided assistance when applying for California State Scholarships, College Opportunity Grants, Vocational Training Grants, and all other state and local awards.

Awards are based on need and availability of funds; determination of need is based upon a careful analysis of family income and assets, liabilities, number of children, medical expenses, etc. Each application is evaluated on an individual basis with all special and extenuating circumstances taken into consideration. Students are advised that determination of eligibility is approximately an eight-week process from the time the application is determined complete. Students are strongly encouraged to observe application deadlines. Applications received after the established deadline will be considered subject to the availability of funds.

New Federal Regulation: Return of Title IV Funds

A student who receives Federal Aid and withdraws from all classes prior to completing more than 60% of the semester, will be required to pay money back to the federal government.

For detailed information regarding specific assistance programs, students should contact the Financial Aid Office, Bldg. 5, Room 207 between the hours of 8:00 a.m. and 4:30 p.m., Monday through Thursday, 5:30-8:30 p.m. on Wednesday, and 8:00 a.m.-2:00 p.m. on Friday.

Ability to Benefit

Any person applying for Financial Aid who is 18 years of age or older, who has not earned a high school diploma, or who has not received a satisfactory GED score, or a passing score on the high school proficiency test should be prepared to show evidence of ability to benefit from community college courses. Such evidence may include, but is not limited to, ability to read, write, compute, and converse at an acceptable level as determined by assessment tests administered by the college.

Those who apply for financial aid and for admission to Cañada College and who are not high school graduates as defined in the above paragraph, must complete assessment testing and participate in orientation. (Federal Ability to Benefit reference 34CFR600.11)

For GED testing information, interested persons should call the unified school district in their areas. In the local area the GED test is offered through the Sequoia Union High School District, 365-2116 or 369-6809.

Freshman Success Program

Cañada College's Freshman Success Program includes two programs: Learning Communities and Foundation for Success.

Learning Communities are groups of courses packaged together with a common theme and team-taught by two instructors. The learning communities provide subject matter coherence and lead students to a deeper appreciation of the subject matter. In a Learning Community, a group of students and teachers who share common interests work and learn together in related courses. Through the learning communities, critical thinking skills, teamwork, and problem solving abilities are enhanced - all essential abilities for the 21st century workforce.

The Foundation for Success program includes basic skills courses which are taught separately but with the instructors collaborating on the curriculum. Students are encouraged, but not required, to enroll in as many of these courses as their time permits. Students and faculty also meet outside of class time for enrichment activities such as fieldtrips and seminars.

For information on Cañada's Learning Communities and Foundation for Success, see the schedules of classes, or visit our website, canadacollege.net.

A special focus of the instructional program is the internationalization of education. An international/intercultural dimension in academic and vocational courses involves adapting comparative international approaches, encouraging development of intercultural communication skills, infusing

disciplines with non-Western materials and advancing the role of foreign language in an integrated curriculum. Instructors in numerous courses across disciplines include topics and issues of international/intercultural concern.

Cañada College makes available to students a recommended transfer program in International Business (see page 52) and an Associate in Arts degree in Social Sciences with an International emphasis (see page 69).

Cañada College students can earn college credit while studying abroad. Any student who has completed at least 12 units of college credit is eligible to participate. All courses are transferable to four-year institutions. Transportation, housing and meals are offered at reasonable cost. Learning Center

The Learning Center, located on the second floor of Building 5, is designed to provide a positive learning environment that integrates technological resources and learning assistance services to support student learning across the curriculum. The Learning Center provides a wide range of individualized college credit programs and self-paced courses in essential skill areas of English as a Second Language, reading, vocabulary, study skills, writing and mathematics. Learning Center courses are designated with the course prefix LCTR. Both non-degree and degree credit courses are available. Degree credit courses articulated with the CSU system are transferable.

The Learning Center programs and self-paced courses incorporate the content and language of college subject areas. Students are assessed and provided program plans focusing on areas of need. Students complete assigned programs using computer, internet, audio, audio-visual, and print material. As they proceed through the programs and self-paced courses with the assistance of instructors, aides, tutors and/or student assistants, their performance is evaluated periodically before they proceed to higher level objectives.

Also incorporated within the Center are the Computer Center, Tutorial Center, Math Lab, Writing Lab, Learning Achievement Center, MESA program, and the ESL Multimedia Skills Center. The programs are coordinated with both related classroom offerings and the individualized LCTR programs and self-paced courses. Media/Audio-Visual services are located in the Center as well.

The **Computer Center**, which is internet-accessible, is used by students completing individualized LCTR programs and self-paced courses and by students taking a course with supplementary assignments requiring computer use. Students completing supplementary assignment for a course must enroll in the appropriate 699 course.

The **Tutorial Center** provides individual and small group tutorial assistance in Cañada courses. Peer tutors, recruited from a wide range of academic and vocational areas, must enroll in LCTR 100 for tutor training unless they have previous experience tutoring in college subject areas. All participating tutees must enroll in LCTR 698 (no fee, no credit) and must remain enrolled in the course in which they receive assistance.

The **Math Lab** is an area in the Center where students who are currently enrolled in Cañada math courses may receive drop-in assistance.

The **Writing Lab** (Writ 802), a concurrent enrollment requirement of Eng. 800, offers students enrolled in writing courses (Eng. 800, 100, 110) additional instruction and reinforcement in skills introduced in English course classrooms.

The **ESL Multimedia Skills Center** provides the opportunity for individualized, self-paced English language study in preparation for all ESL courses.

The **Learning Achievement Center** provides testing and assessment of learning differences and coordinates Tutorial Center tutoring with learning specialists.

The **MESA** program (Math Engineering Science Achievement) provides students who are considering math, science, engineering or computers majors with academic excellence workshops, mentoring, field trips and counseling.

Media/Audio-Visual services in support of faculty and students include ordering and delivering audio-visual equipment to classrooms, taping teleconferences and other broadcasts, and repairing audio-visual equipment.

The Library offers a one unit course which teaches students how to conduct research.

There are three service areas. The *Circulation/Reserve* desk issues library cards and contains restricted loan material as well as college catalogs. The *Reference/Periodical* area services the research needs of students. Shelves there are periodical and newspaper indexes, the microfilm collection, as well as a large variety of reference source material. A general collection of some 46,000 volumes is arranged on open shelves for easy access in the *Reading Room*. Table and carrel seating for students is provided in this room, which affords a panoramic view of the wooded slopes of Skyline Ridge and is an inviting place for quiet study.

The libraries of Cañada, CSM, and Skyline are members of the Peninsula Library System, a consortium of San Mateo County's public libraries. The combined collections of these member libraries total more than 2.5 million volumes and are accessible by means of the on-line public catalog. Intra-systems loans can be delivered to the campus or picked up at one the member libraries.

Students may borrow college library materials with their Peninsula Library System (PLS) card, issued by any public or community college library in San Mateo County. Students who live in San Mateo County and do not have a PLS card, as well as students who do not live in San Mateo County, may obtain a library card from the Cañada Library Circulation Desk. Proof of enrollment is all that is required.

MESA Program

The Math, Engineering, and Science Achievement/Community College Program (MESA/CCCP) at Cañada College provides economically disadvantaged and underrepresented students, especially Latino and African American students, with maximum opportunity to pursue successful careers in mathematics, engineering, science, and computer science. The program, housed in the Learning Center (5-105), includes a MESA Orientation course, Academic Excellence Workshops, specialized academic counseling, tutoring and stipends for eligible students.

For more information contact MESA Program Director Judy Liteky at 306-3109, or by email at liteky@smccd.net.

Multimedia Lab

The Multimedia Lab, Building 13, Room 211, houses state-of-the-art PC and Macintosh multimedia computers used to teach courses in the areas of Web publishing, computer graphics, and multimedia production. Multimedia lab courses focus on helping students develop a level of skill immediately useful in their work; most courses are project-based and generally students may select projects useful to their own work or education.

Courses offered in the Multimedia Lab are listed under the disciplines of Art and Computer Information Systems (see Schedule of Classes, or visit our website, canadacollege.net). A certificate and associate degree program in multimedia is under development and awaiting state approval. For more information, call the Humanities Division, 306-3336.

Performing Arts

Cañada College offers the following performance groups for student participation: Peninsula Cantaré, Women's Vocal Ensemble, Redwood Symphony, Musical Theater, the Cañada Jazz Band, Instrumental Ensembles, The Tuesday Theater Company, and five fully rehearsed and produced plays each year. Interested persons should contact the Humanities Division, Bldg. 3, Room 205 (306-3336).

Programs for High School Students

Concurrent Enrollment Program

Students currently attending high school may apply for concurrent enrollment in either day or evening courses at Cañada College provided that they maintain at least minimum daily attendance at high school. Prior academic performance must indicate a reasonable expectation of successful completion of college courses taken concurrently. *All academic credit earned by students in the Concurrent Enrollment Program is college credit and will appear as such on the students' Cañada College transcripts.*

All students applying for admission to the program are expected to have earned and to maintain a grade point average of 2.0 or higher in high school. Although every attempt will be made to enroll students in the courses of their choice, college policy gives first priority for enrollment to continuing college students.

Courses taken in the Concurrent Enrollment Program shall not take the place of equivalent courses offered by the high school of attendance (except Middle College). In all cases, the final decision on the admission of any student to any course rests with the College.

High school students applying for admission to the Concurrent Enrollment Program must complete and submit to the Office of Admissions and Records a special application packet available from their local high school or the college Admissions Office. Additional program eligibility requirements are listed in the application packet.

High School and Community Relations

The office of High School and Community Relations develops and coordinates outreach services and activities for the high schools and for the wider community. The primary goal of the office is to inform the community about educational, vocational and transfer programs, and to facilitate the application process at Cañada College. Cañada College's outreach and recruitment efforts utilize faculty and staff, current students, and alumni to increase the College's accessibility to potential students.

The outreach staff provides, but is not limited to, the following services:

- Presentations to high school students, parents, and community groups on admissions procedures, academic programs and student services
- Application and financial aid workshops
- Schedule placement testing at the high schools
- Schedule visits at the high schools to meet with students
- Attend College/Educational Fairs at the high schools and businesses
- Give campus tours: individual, as well as, large groups

For more information, contact the College Representative, Lorraine Barrales, at 306-3427.

Middle College

The Cañada Middle College is a joint partnership between the Sequoia Union High School District and Cañada College. Middle College is designed to reach high potential, underachieving high school students who want a head start on college. Students may complete requirements for a high school diploma and earn credits towards an AA degree at the same time. Approximately 60 juniors and seniors from the Carlmont, Menlo Atherton, Redwood, Sequoia and Woodside High School attendance area are accepted into the program each Fall. Students must satisfy the graduation requirements of the Sequoia Union High School District and earn a diploma from their home high school. A minimum of two high school courses per semester is required each year: English III or IV and Economics or American Government. The remaining classes are selected from Cañada College courses to fulfill the credits and requirements for high school graduation. College classes give high school and college credit simultaneously and many may apply towards a four-year college or university degree.

Sequoia Union High School District teachers teach the required high school classes on the Cañada College campus. These teachers also advise students on academic classes, graduation requirements, and career preparation. Faculty members at Cañada College teach all college courses. For more information, contact the Middle College Office Assistant by calling 306-3120 or stop by the Middle College Office located in Bldg. 17-212.

Technical Preparation (Tech Prep)/School-to-Career

Tech Prep articulation agreements have been approved by local high schools, San Mateo County Regional Occupational Programs (ROP), OICW, and Cañada College in the following occupational areas: Accounting, Office Technology, Early Childhood Education, Fashion Design, and Travel Careers. Other approved articulation agreements exist at the College of San Mateo and Skyline College.

The articulation agreements will be honored at any of the three colleges in the San Mateo County Community College District. Students may be granted from one to six college units after enrolling in and successfully completing six units with a GPA of 2.0 or better in the approved Tech Prep programs. For more information, call 306-3201.

Student Activities

To gain the most from college life, students are encouraged to participate in Cañada clubs and activities, which offer many opportunities for making both social and educational contacts. Anyone interested in joining or starting a club or organization should contact the Office of Student Activities, Bldg. 5, Room 211C, (306-3364). The following is a list of current or recently active clubs: International Student Club, Dance Club, Science and Engineering Club, Black Students Union, Environmental Club, A.S.I.D - Interior Design Club, Latin American Friendship Club, LGBT (Lesbian, Gay, Bisexual, Transgender Union), Phi Theta Kappa International Honor Society, Truth Seekers (Cañada Christian Fellowship Club), Italian Club and Rotar-Act (Rotary) Club.

Housing

The Office of Student Activities maintains a housing file for use by Cañada students. Most of these listings are rooms in private homes; a few are available on the basis of work in exchange for room and board. All arrangements are made between the owner and the student. International students may call Soraya Sohrabi at (650) 306-3494 for housing information.

Students should contact Student Activities, 306-3373, if they have a room or apartment to rent, or need housing.

Student Government

All students enrolled at Cañada College are members of the Associated Students of Cañada College (ASCC). The following elected student officers represent the official voice of students on campus: President, Vice President, Student Services, and ten Senators. The officers inform students about campus issues, administer student association monies, and represent student interests on Cañada's governing committees.

Student government provides a unique educational opportunity to learn by doing in the world of college governance. Participation is demanding and time consuming, but students have testified that their involvement was the most valuable learning experience they had at college, both educationally and socially.

The student government operates under the provisions of the State Education Code and the regulations of the Board of Trustees and Cañada College. It serves as a vehicle through which students can recommend and help effect changes at their college.

Any student who is interested in becoming a senator or participating in student government should contact the Office of Student Activities, Building 5, Room 214.

Student Publications

The *Student Handbook* contains information about student organizations, college services, college rules, student rights, student disciplinary due process procedures, and Cañada's staff and governance structure. The handbook is available in the Student Activities Office.

Veterans Affairs

Cañada College is approved to certify veterans as students who are enrolled in pursuit of an associate degree under Chapter 35 (veterans dependents), Chapter 31 (rehabilitation), Chapter 106, and VEAP. All students, except those eligible under Chapter 31, must buy their own books and supplies. Those interested in attending Cañada under any of these chapters should contact the Veterans Administration Office to determine eligibility for benefits. The VA Regional Office maintains a toll-free number (1-800-827-1000) from 8:00 a.m. to 4:00 p.m., Monday-Friday.

After eligibility is determined, the veteran should bring a copy of his/her DD-214 (separation papers), the Certificate of Eligibility and Cañada

registration receipt to the VA Clerk in the Office of Admissions and Records (Building 8, Room 215) for processing. Veterans who have previously attended college must have official copies of college transcripts on file in the Office of Admissions and Records. Eligible veterans have 10 years from the date of separation from active duty to use their educational benefits. Interested students can visit or call (650) 306-3492 between 3:30 and 8:15 p.m., Monday through Thursday.

Upon presentation of separation or discharge papers, veterans will be awarded six units of academic credit in recognition of military service. When possible, these units are to be used to satisfy the physical education and natural science requirements for the associate degree. Units which cannot be applied in this manner will be considered as elective units.

Also, veterans may receive credit toward the associate degree for training received in military service schools. Such training must be documented by a certificate of completion issued by the military school from which training was received. Students must complete a minimum of 12 units of coursework at Cañada with a grade-point average of 2.0 or above to qualify for this credit.

In addition to the academic standards outlined in the paragraphs above, veterans receiving educational benefits will be subject to the following academic standards for continuing eligibility:

- Must maintain a minimum of at least a 2.0 (C) overall grade point average in all course work attempted.
- Veterans whose overall grade point average falls below 2.0 (C) will be given a maximum of two semesters to correct the academic deficiency and bring the overall grade point average to at least the 2.0 (C) minimum requirement.
- Veterans whose overall grade point average remains below 2.0 (C) for more than two semesters will be allowed to pursue their educational goals but will not be certified for educational benefits until such time that the overall grade point average is at least 2.0 (C) or higher.

Workability III

The Workability III Program (WAIII), located in Building 5, Room 204, is a Federal/State funded partnership between Cañada College and the California State Department of Rehabilitation (DR). WAIII offers the following services in a supported environment: vocational assessment and evaluation, skill building and employment preparation, job development and placement, job coaching and counseling. Program participants must also be clients of DR. WAIII staff will refer students not already affiliated with DR. For further information about the WAIII Program, please call 306-3258.

ASSESSMENT/PLACEMENT

(Información en español está en la página 14.)

English/Reading/ESL

A Cañada College placement test in English or English for Non-native Speakers (ESL) is required for enrollment in most English and English for Non-native Speakers (ESL) and Reading courses. Students may be exempt from English Assessment if:

- A placement test in English/Reading was completed at Cañada College or CSM or Skyline College within the last two years and results are available; or
- Transcripts from an accredited college or university in the United States are provided and indicate course work in English and Reading has been successfully completed with a grade of "C" or better (it is sometimes necessary for students to provide catalog descriptions or course outlines of the coursework completed to verify the skill level of the course completed); or
- A copy of College Board Advance Placement (AP) test scores indicating completion of the English Language or English Literature test with a score of 3, 4, or 5 is provided.

Math

A Cañada College placement test in Mathematics is required for enrollment in most Mathematics courses and many Computer Information Science courses. Students may be exempt from Mathematics Assessment if:

- A placement test in Mathematics was completed at Cañada College or CSM or Skyline College within the last two years and results are available; or
- Transcripts from an accredited college or university in the United States are provided and indicate course work in Mathematics has been successfully completed (it is sometimes necessary for students to provide catalog descriptions or course outlines of the coursework completed to verify the skill level of the course completed); or
- A copy of College Board Advance Placement (AP) test scores indicating completion of the Calculus AB or BC test with a score of 3, 4, or 5 is provided.

Placement test scores and multiple measures information are used to place students in courses that are commensurate with current academic skills. Appropriate course selection is essential to a successful college experience that allows for academic growth and development. The Cañada College English Placement Test calculates multiple measures criteria in the final results and these results are used to verify English and Reading course prerequisites. For placement in Mathematics courses the score on the math placement test is reviewed with other measures as appropriate.

Cañada College placement tests considered current and valid for up to two years. Results that are more than two years old are considered invalid. The English/Reading test may be repeated only once during a school year. The same level of mathematics test may be repeated only once during a school year.

Students who are not currently enrolled should submit a completed College Application prior to taking the placement tests. Specific dates, times, and locations for the placement tests are published in the Schedule of Classes. Pre-registration for placement tests is not required. Students must bring to the testing session photo identification, a #2 pencil, and their social security number. Students who do not have a social security number, or do not wish to use it, are assigned a school identification number when they submit the college application. Placement tests begin promptly at the scheduled times and latecomers are not admitted. The English/Reading and ESL placement tests take approximately 2 hours to complete. The Mathematics test takes 1.5 hours to complete and calculators are not allowed.

THE COUNSELING CENTER: EDUCATIONAL, CAREER, AND TRANSFER SERVICES

(Información en español está en la página 14.)

All students who plan to complete a vocational certificate, an Associate degree, or plan to transfer to a university should meet regularly (at least once a semester) with a counselor. The Counseling Center, located in Building 5, Room 204, 306-3452, offers integrated services in the areas of educational counseling, career, and transfer information. Open Mondays through Fridays during the day and evening, the Center's hours of operation are posted on the door.

Centralized Counseling Appointment System

Go to the Counseling Center to schedule an appointment to meet with a Cañada College counselor or call the Counseling Center appointment desk at 306-3452. All counseling appointments are scheduled at this location.

Educational Counseling Services

Available to all Cañada College students, Educational Counseling Services are designed to: 1) help students make decisions and set educational and career goals; 2) provide academic program planning to complete certificate, associate degree, and/or university transfer programs; 3) help students evaluate current academic readiness and plan coursework to build skills; 4) assist students to connect with campus services and resources; 5) evaluate transcripts from other American colleges and universities for credit applied to certificates and degrees at Cañada College; 6) teach students about important skills, strategies, and techniques to enhance classroom and academic success; and 7) work with students to resolve personal concerns that may interfere with the ability to succeed.

Educational planning is an important part of the work that counselors and students do together. In this regard, counselors assist students to develop Student Educational Plans (SEPs). The SEPs map out, semester by semester, courses necessary to complete specific educational goals and objectives. Once the SEP is developed, students are expected to meet with a counselor at least once a semester to review the SEP, evaluate ongoing educational progress, and make any modifications necessary to stay on the path and successfully complete educational goals.

Career Services

The primary goal of Career Services is to assist students to develop and carry out both short- and long-term employment and career goals. Services include: 1) a resource library of career exploration and job hunting books, videos, publications detailing preparatory education and training and labor market trends for career areas; 2) EUREKA, a computer based California career information system; and 3) students looking for employment can use binders, access career related websites, and use the computerized JOBTRAK services, a college targeted internet job site.

Career Services also offers students an opportunity to explore assessment tools to enhance career exploration and study skill awareness. Students may use the following assessments for a nominal cost: The Myers-Briggs Type Indicator (MBTI), The Strong Interest Inventory (SII), and Study Behavior Inventory (SBI).

Career Services hosts career and job hunting workshops, employer recruiting, and other activities throughout the year. Drop by the Counseling Center for more information.

Transfer Services

University transfer is the goal of many students who attend Cañada College. Students interested in transferring to a four-year college or university can use Transfer Services to research universities, majors, academic requirements, college costs, and other transfer issues. Resources include college catalogs, college directories and guides, videos, applications, articulation information, and access to PROJECT ASSIST, a self-guided site that provides general education, major, and course equivalency information.

Each semester Transfer Services invites representatives from colleges and universities to our campus to meet with students and discuss and evaluate transfer preparation. A variety of workshops take place in the Counseling Center on topics such as: Transfer Planning for the Freshman Student, How to Transfer to a CSU or UC Campus, How to Transfer to a Private/

Independent College or University, How to Complete University Applications, Writing a Personal Essay for Transfer, Transfer and Financial Aid Opportunities, Guaranteed Admission Transfer Agreements, and more. Each fall semester Transfer Services hosts Transfer Day, an activity that provides the opportunity for students to gather information from different colleges and universities. The ultimate goal of Transfer Services is to assist community college students to meet their transfer goals! Located in the Counseling Center, the direct phone line to Transfer Services is 306-3372.

Guaranteed Transfer Admission Programs

Colleges and universities offer programs in support of transfer admission. Some programs provide guaranteed admissions to students. Below view a list of Guaranteed Transfer Admission programs available at Cañada College and visit Transfer Services for more information!

- UC Davis – Transfer Admission Agreement (TAA Program)
- UC Santa Cruz – Guaranteed Admission for Transfer Entry (GATE)
- UC Riverside – Transfer Admission Guarantee (TAG Program)
- California State University, San Jose – Transfer Admission Agreement

Cañada College participates in:

- On-the-spot Admissions Programs with CSU Hayward and San Francisco State University
- UC Berkeley CAP Program (for students who applied to UCB from high school for freshman admissions and are offered the opportunity to attend Cañada College with guarantee admission to Berkeley as a junior)

Career and Life Planning Classes

Counseling faculty teach courses in career and life planning and personal development. These courses provide a framework for college success, and career and educational exploration and decision-making. First-time college students are strongly encouraged to take one or more of these classes.

Cooperative Admissions Program (CAP)

The University of California, Berkeley's College of Letters and Science and Cañada College offer a Cooperative Admissions Program for students not admitted to UCB because of space limitation but who met the eligibility requirements for admission.

Provided they meet specified criteria, CAP students are guaranteed admission to UCB as juniors. Students are required to spend the first two years at Cañada College completing specific requirements for both their major at UC Berkeley and breadth requirements of the College of Letters and Science. For more information, students may call the Counseling Center at 306-3452.

Planning

Counselors are available during the registration period and throughout the academic year to consult with students. A good relationship between a student and a counselor is essential. Counselors are involved with planning programs of study, approving programs for each semester, and consulting with students regarding program changes. Students are encouraged to bring to the counselor's attention employment or other personal situations which affect their work in college. The final responsibility for knowing program requirements and enrolling in appropriate courses rests with the students.

The Counseling Center provides drop-in counseling services as well as scheduled appointments. A student may request a specific counselor by

contacting the Counseling Center (Bldg. 5, Room 204), or the Office of Student Services (Bldg. 8, Room 310).

Evening students may use drop-in counseling services in the Counseling Center (hours are posted each term). During registration periods, the student may seek the help of any counselor available in the registration area. After late registration ends, the student may contact the evening counselor by calling 306-3228 after 4:30 p.m. The best time to see the counselor is during the semester when counselor time is more readily available. Any student seeking further information on counseling services may call 306-3452, from 8:00 a.m. to 4:00 p.m.

REGISTRATION

(Información en español está en la página 14.)

Open Enrollment

Every course offered at Cañada College (unless specifically exempted by legal statute) is open for enrollment and participation by any person who has been admitted to Cañada and who meets the prerequisites of the course, provided space is available.

Schedule of Classes

Complete information regarding registration dates and procedures is published in the College Schedule of Classes for each semester. The schedules are available on the Cañada campus, in local high schools and Public Libraries, and on our web site: canadacollege.net.

Touchtone phone (SMART) and Online (WebSMART)

Computerized registration by telephone or online takes place prior to each semester. Students should refer to the printed Schedule of Classes or the Cañada website (www.canadacollege.net) for detailed procedures.

Program Changes

Once registration has been completed, the student's program may be changed by the student via SMART or WebSMART through the second week of class. After the second week of classes, changes must be submitted to Admissions and Records by the student on an Add/Drop form. Students may use WebSMART the entire semester to register for short-term classes that begin after the start of the semester.

Courses With Overlapping Times

Students may not register in two courses which meet at the same time or have overlapping times. Exceptions to this rule may be approved under circumstances of academic necessity (not scheduling convenience). In addition, approval requires submission of a documented plan describing how the student will make up missed class time under the instructor's supervision. Overlap exception forms are available in Admissions & Records.

Unit Load Limitations

A normal load for a full-time student is 15 units. No student is permitted to take more than 9 units during the Summer Session or 19 units during the Fall and Spring semesters without special approval of the Director of Matriculation, Transfer and Articulation. Approval forms are available in Admissions and Records. Students working full time should limit their program to six or fewer units. Combinations of work and college study should be carefully discussed with the counselor.

A program of 12 or more units during Fall and Spring semesters, and 6 units during Summer session is considered full-time for athletic eligibility, financial aid, international students (F-1 visa), veterans benefits, Social Security benefits, and most other benefits which are dependent upon student enrollment status.

Course Repetition

The Board of Trustees of the San Mateo County Community College District has adopted a policy (District Rules and Regulations, Section 6.12) which permits a student to repeat certain courses for credit a maximum of three times (total of four class enrollments) within the SMCCCD.

These courses require increasing levels of student performance or provide significantly different course content each subsequent semester. Such courses will be designated as "may be repeated for credit" in the course description. Courses which are not so designated may not be repeated under this policy. Further information about this policy is available from Cañada College counselors and Division Offices.

Audit Courses

In compliance with State regulations, Cañada has identified the following courses as audit courses: Art 207, 232; Danc 215, 350; Dram 300; Fitn 204, 215; Fren 803; Germ 804; Indv 164, 254; Mus. 304, 324, 344, 364, 394, 404, 444, 464; Team 115, 175. To register in a course as an auditor, the student must have taken the course on a credit basis for the maximum times allowable.

An auditor may register only after the Late Registration period has concluded, with the professor's signature on an Add/Drop form and on a space available basis. A \$15 per unit fee, the Health Services fee, and the Student Representation fee will be charged at the time of enrollment. Students enrolled in 10 units or more for credit can audit up to 3 units free. Students enrolling as auditors in variable unit classes must enroll in the maximum number of units available for a course.

GRADES & ACADEMIC STANDING

Grades

Academic Record Symbols and Grade Point Average

Grades from a grading scale shall be averaged on the basis of the point equivalencies to determine a student's grade point average. The highest grade shall receive four points, and the lowest grade shall receive zero points, using only the following evaluative symbols:

Symbol	Definition	Grade Point
A	Excellent	4
B	Good	3
C	Satisfactory	2
D	Passing, less than satisfactory	1
F	Failing	0
CR	Credit (at least satisfactory: C or better; units not counted in GPA)	
NC	No credit (less than satisfactory or failing; units not counted in GPA)	

The GPA (grade point average) is determined by dividing the total number of grade points earned by the total number of units attempted.

The following non-evaluative symbols are used at Cañada College:

I-Incomplete

This symbol is used in case academic work is not completed for cases involving unusual circumstances. The work to be completed and the time allowed for its completion shall be set forth by the instructor in a written record which also indicates the grade assigned in lieu of removal. The student will receive a copy of the record, and a copy will be filed with the Office of Admissions and Records. A final grade will be assigned by the instructor when the stipulated work has been completed within the required period; the grade determined by the instructor will be entered in the permanent record.

"Incomplete" must be made up within one year following the end of the term in which it was assigned. Established college procedures may be utilized to request a time extension in cases involving unusual circumstances.

The "I" shall not be used in the computation of grade point average.

IP-In Progress

This symbol is to be used in the student's permanent record to confirm enrollment and to indicate that the course extends beyond the normal end of the term. It indicates that work is "in progress" and that unit credit and a grade will be assigned when the course is completed. The "IP" shall not be used in the computation of grade point average.

RD-Report Delayed

This symbol is used only by the Office of Admissions and Records for the purpose of indicating that there has been a delay in reporting the grade due to circumstances beyond the student's control. It is to be replaced by a permanent symbol as soon as possible. The "RD" shall not be used in the computation of grade point average.

W-Withdrawal

It is the responsibility of the student to withdraw from class. The following include important deadlines for withdrawal and explain the relationship between withdrawal and the assignment of a grade by the instructor:

A student may withdraw from a semester-length course during the first four weeks of instruction and no notation will be made on the student's academic record. In courses of less than a regular semester's duration, a student may withdraw prior to the completion of 30% of the period of instruction and no notation will be made on the student's academic record. Thereafter, a student may withdraw from a semester-length course, whether passing or failing, at any time through the last day of the fourteenth week of instruction and a "W" grade shall be noted on the student's record. In courses of less than a regular semester's duration, a student may withdraw prior to the completion of 75% of the period of instruction and a "W" grade shall be noted on the student's record.

Late Withdrawal

The academic record of a student who remains in class beyond the time periods set forth above must reflect an authorized symbol other than "W". However, after the end of the fourteenth week (or after 75% of the period of instruction in courses of less than a regular semester's duration), withdrawal may be authorized in the case of extenuating circumstances. Extenuating circumstances are defined as verified cases of accident, illness or other circumstances beyond the control of the student. Approved withdrawal, under the conditions set forth, shall be recorded as a "W." Petitions for late withdrawal may be obtained from the Office of Admissions & Records.

Military Withdrawal

Military withdrawal will be authorized when a student who is a member of an active or reserve U.S. Military Service unit receives orders compelling

a withdrawal from courses. Upon verification of such orders, a notation of "MW" may be made on the student's record. Military withdrawals are not counted in probation or dismissal calculations. Further information may be obtained by the Office of Admissions and Records.

Any student failing to follow the established withdrawal procedures may be assigned an "F" or "NC" grade by the instructor.

Student Notification

If the student is on probation or in dismissed status, he/she will receive notification in writing at the end of the semester.

Grade Reports

Progress reports are available from the faculty at mid-semester. The mid-term deficiency notice is not made a part of a student's permanent record; it is for information purposes only. After the end of the semester, the final grade report is available to the student through the SMART telephone system (see Schedule of Classes for SMART dates), and on Cañada's web site: canadacollege.net. A student may also make a request at the Admissions and Records office to have a copy mailed to them. The official final grade report becomes a part of the student's permanent record.

Change of Grade

An earned grade of A, B, C, D, F, W, CR, NC may be changed by the instructor within one year due to a "clerical error" on the part of the instructor. Grades cannot be changed on the basis of a student completing course work subsequent to the assignment of the final grade.

Grade Option

Each division of the College may designate letter grade courses in which a student may elect to receive Credit/No Credit (i.e., Pass/Fail). Grade option courses allow students to explore various fields of study and to broaden their knowledge, particularly in fields outside their major, without jeopardizing their grade point average. Both methods of grading require the student to complete all assignments, exams, and/or class projects.

Students who elect the credit/no credit option are required to sign appropriate forms in the Office of Admissions and Records. This decision must be made within the first 30% of the class length and is irreversible.

Courses taken on a credit/no credit basis may or may not be applicable toward fulfillment of the major, the certificate or general education requirements. In addition, four-year colleges and universities vary widely in the number of units of "Credit" grades they will accept. Students should consult the catalog of the college to which they plan to transfer to determine what limitations apply.

The use of courses graded "Credit" to satisfy major or certificate requirements must be approved by the Division Dean, in consultation with members of the division faculty. A maximum of 12 units toward an associate degree or 6 units toward a certificate may be in grade-option courses in which a student has elected to receive a grade of "Credit."

Each division of the College may also designate courses in which all students are evaluated on a credit/no credit basis only. "Credit" grades earned in these courses are exempt from the 12/6 unit maximum described in the paragraph above.

Academic Standing

Academic standing is based upon all coursework completed in the San Mateo County Community College District (includes Cañada, CSM, and Skyline).

Scholastic Honors

A Dean's List of Students who achieve academic honors is posted at the end of each semester containing the name of each student who has

completed 12 units or more of work for a letter grade during that semester with a grade point average of 3.3 or higher.

Academic honors are awarded at graduation to students who have attained a 3.3 cumulative grade point average in all coursework. High honors are awarded to students who have attained a 3.5 average or above.

Grade Point Deficiency

The Academic Standards Policy is based on a cumulative grade point average of "C", the minimum standard of progress toward graduation or transfer.

All units and grade points are on a cumulative basis. At all times, a student must maintain a cumulative grade point total that is double the total units attempted ("C" average). If a student undertakes 12.5 units in one semester and 15.5 in a second semester, his or her cumulative units are 28, requiring a grade point level of 56. (Example: $56/28=2.00$ GPA.)

Any grade point total less than twice the attempted units is regarded as deficient. (Example: $55/28=1.96$ GPA)

Credit/No Credit courses will not affect a student's grade point deficiency.

Academic Renewal

A maximum of two semesters and one summer session of substandard work (less than a 2.0 grade point average), not reflective of the student's present scholastic level of performance, may be alleviated and disregarded in the computation of grade point average under the following conditions:

- A period of at least three years must have elapsed since the work to be alleviated was completed.
- The student seeking alleviation must have completed 9 units of work with a 3.5 cumulative grade point average, or 15 units with a 3.0 cumulative grade point average, or 21 units with a 2.5 cumulative grade point average, or 24 units with a 2.0 cumulative grade point average since the work to be alleviated was completed.
- A semester or quarter is defined as all work attempted during a single academic term. The terms need not be consecutive.

The work upon which the application for alleviation is based must be completed at one of the three district colleges, Cañada College, College of San Mateo or Skyline College. The academic renewal policy will ordinarily be applied only when alleviation of prior work is necessary to qualify a student for admission to a program or transfer to another institution or for completion of a certificate program, or for graduation from the college.

Determination of the applicability of this policy will be made only following formal application to the Office of Admissions and Records.

When academic work is alleviated, the permanent record shall be properly annotated in a manner to insure that all entries are legible and that a true and complete record is maintained.

Grade Alleviation

A student who has received a grade of D, F, or NC in a course may, with authorization, repeat the course once for purposes of grade alleviation. Upon satisfactory completion of the repeated course (grade A, B, or C) the Office of Admissions and Records will use the grade of the repeated course in computation of the grade-point average. The original grade will remain on the transcript, but will no longer affect the grade-point average. Course repetition completed at the other two colleges of the San Mateo County Community College District will be honored; course repetition involving work completed at a non-district institution may be honored. Students may apply for such consideration to the Office of Admissions and Records. Courses in which the student has received grades of A, B, C or CR are not subject to the provisions of this policy. Under unusual

circumstances, a student may petition the Academic Standards Committee for permission to repeat a course more than once.

Under special, educationally justifiable circumstances, repetition of credit courses other than those for which substandard work has been recorded may be permitted. The student must obtain prior written permission before such course repetition will be authorized. Normally, a student may repeat such a course only once. The student should petition the Academic Standards Committee for permission to repeat a course more than once. Grades awarded for courses repeated under this provision shall not be considered in calculating the student's grade point average and in no case will the unit value of the repeated course be counted more than once.

Probation

A student is placed on academic probation using the following criteria:

Academic probation based on grade point average: A student who has attempted at least 12 semester units, as shown by the official cumulative record, shall be placed on academic probation if the student has earned a grade point average below 2.0 in all units which were graded on the basis of the grading scale (see page 28).

Academic probation based on failure to maintain satisfactory progress: A student who has enrolled in a total of at least 12 semester units, as shown by the official cumulative record, shall be placed on academic probation when the percentage of all units in which a student has enrolled for which entries of W, I, and NC are recorded reaches or exceeds 50 percent.

The two probationary criteria described above will be applied in such a manner that a student may be placed on probation under either or both systems, and subsequently may be dismissed under either or both systems.

A semester in which a student completes an official "Leave of Absence" will not be included in the tabulation used to determine satisfactory academic progress as outlined above.

Removal from Probation

A student placed on academic probation on the basis of grade point average shall be removed from probation when his/her cumulative grade point average is 2.0 or higher.

A student placed on academic probation on the basis of failure to maintain satisfactory progress shall be removed from probation when the percentage of units in this category drops below 50 percent.

Dismissal

A student on probationary status shall be subject to dismissal if in any two subsequent semesters either or both of the following criteria are applicable:

- The student's cumulative grade point average is less than 1.75 in all units attempted.
- The cumulative total of units in which the student has been enrolled for which entries of "W," "I," and "NC" have been recorded reaches or exceeds 50 percent.

Normally, a dismissed student must remain out of day and evening classes for one semester before petitioning Admissions and Records for reinstatement.

A dismissed student may present a written appeal to the Office of Admissions and Records requesting immediate reinstatement if dismissal has resulted from unusual circumstances. A registered student making such an appeal should remain in classes until the decision regarding reinstatement is made.

Students in **dismissed, probationary or reinstated** status must meet with a counselor for appropriate intervention.

Attendance Regulations

Regular attendance in class and laboratory sessions is an obligation assumed by each student at the time of his/her registration. When a student fails to attend class, he/she misses the content of the session, and course continuity is lessened. When failure to attend class places a student's success in jeopardy, the instructor may drop the student from the class.

Total hours of absence which exceed twice the number of hours a class meets in a week define "excessive absence" as used by many instructors in dropping students for nonattendance. Instructors may, however, utilize stricter attendance requirements.

Absence due to participation in college-sponsored activities may be considered excused when the student informs the instructor in advance of the absence and makes up all work missed.

A student dropped from any class for nonattendance may appeal in writing to the Division Dean within five college calendar days of such a drop if the student thinks the absences should be excused, and reinstatement in class can be justified. Students may, with the permission of the instructor, remain in class while their appeal is being reviewed. A recommendation regarding the appeal will be forwarded to the instructor whose decision is final.

Emergency Leave of Absence

A student who finds it necessary to withdraw from all enrolled courses at any time after registration must obtain a petition for semester leave of absence. This petition may be obtained from the Health Center if the emergency is of a medical nature. A petition for non-medical emergency leave of absence may be obtained from the Office of Admissions and Records. It is the student's responsibility to complete the petition process. The leave of absence shall only be used when verified circumstances beyond the student's control force a complete withdrawal from all courses. Withdrawals resulting from an approved leave will not be included in the determination of the student's academic progress.

A student absent 5 days or more with a medical problem should notify his/her instructor(s).

Credit by Examination

A student who wishes to earn credit by examination must first receive written certification from the Office of Admissions and Records indicating that the following criteria have been met:

- The student is registered at Cañada and in good standing, with a GPA of 2.0 or better.
- The student can demonstrate that he/she is qualified, through previous training or instruction, to successfully complete such examination.
- The Division Dean, in consultation with faculty, will make the decision to offer or not offer the exam based upon: a) the availability of a faculty member to administer the exam, and b) an assessment of the student's readiness to take the exam.
- Only courses which transfer to four-year baccalaureate granting institutions are available for credit by exam (this excludes all 800 level courses and certain other courses), except for certain occupational program courses. Laboratory-based science courses and Cooperative Education courses are not available for credit by exam.

Credit may be earned by examination provided that the examination has been approved or prepared, administered and graded by faculty and other designated authorities of Cañada College.

A maximum of 12 units toward an Associate Degree or 6 units toward a Certificate may be earned for courses for which credit has been earned by examination. Credits earned by examination cannot be used to satisfy the 12 unit residence requirement for the Associate Degree or Certificate of Completion.

A Letter grade or Credit/No Credit grade will be assigned upon successful completion of credit by examination, and the student's academic record shall be clearly annotated to reflect that credit has been earned by examination. A student may challenge a course for credit by examination only one time. Petitions for credit by exam may be obtained from the Office of Admissions & Records.

Transcripts

Official transcripts will be sent to employers, colleges and other institutions upon a student's written request. Requests are generally processed within 7-10 working days from date received. Only courses taken at Cañada College, CSM, and/or Skyline appear on the transcript; transcripts from high schools and other colleges will not be forwarded. The first two transcripts are free. Each additional transcript costs \$3.00. Official transcripts given directly to the student may be opened only by the receiving institution.

Currently enrolled students who wish to have their academic records from other accredited institutions within the United States evaluated by the Office of Admissions and Records and have those units placed on their permanent record at Cañada College may do so by requesting their official transcript to be sent directly to the Office of Admissions and Records. Upper-division credits completed at a four-year college or university will not be accepted or counted toward an AA/AS Degree or Certificate at Cañada College. Lower division coursework completed at a college or university outside the United States will be considered for inclusion on a transfer student's record at Cañada College only after the transcript from the foreign institution has been evaluated by an approved agency which is able to provide a translation of the transcript, and a detailed report which includes subject breakdown, grades, upper or lower division, semester or quarter and number of units completed. Students should contact the Admissions Office for the names of approved agencies.

Units of Work and Credit

A "unit" of college credit usually represents one hour per week of lecture and approximately two hours of homework, or 3 hours per week of laboratory for semester-length courses.

TOOLS FOR PLANNING YOUR EDUCATIONAL PROGRAM

Graduation Requirements

A student remaining in continuous attendance at Cañada College, College of San Mateo, and/or Skyline College may, for purposes of graduation, elect to meet the requirements in effect at the college from which the student will graduate either at the time the student began such attendance or any subsequent year of continuous enrollment.

For the purposes of this policy, "continuous enrollment" means attendance through at least the fourth week of instruction in either a fall or spring semester in each calendar year. Absence to attend another accredited college or university shall not be considered an interruption in attendance if the absence does not exceed one year. Catalog rights cannot supersede any State or Federal regulation or requirement in effect at the time of graduation.

Degree Credit & Non-Degree Credit Courses

The State of California has legislated a series of reforms designed to strengthen the community colleges. One of these reforms mandated a comprehensive review of the standards of instruction in each course in the curriculum. Each course was classified as "degree credit" or "non-degree credit". A course offered for "non-degree credit" cannot be counted toward certificate completion, graduation or transfer. The following notation is placed at the end of the course description for all non-degree credit courses: "Units do not apply toward the AA/AS degree."

Certificate Programs

Certificate programs are designed to prepare individuals to enter a particular field of employment or provide in-service training for those already employed. Certificates are awarded when students complete the course requirements (generally 18-60 units) of a specific program as follows:

- Grade of C or better in all required core courses of the certificate,
 - Overall grade point average of at least 2.0 in all certificate courses (required core + electives),
 - Demonstrated English proficiency (eligibility for ENGL 100), and
 - Computer literacy requirement.
- Fifty percent (50%) of the "major" required courses must be completed by attending Cañada College. Equivalent lower division courses completed at other accredited institutions and verified by Cañada College may be applied towards the certificate.

Certificate programs are reviewed and updated frequently with the aid of Advisory Committees.

Units earned in obtaining a certificate may be applied toward the 60 units required for an AA/AS degree and may satisfy the major requirements.

Associate Degree (AA/AS) Requirements

Graduation from Cañada College with the Associate in Arts or Associate in Science degree is based upon the completion of 60 units of lower division college work, including the requirements A through G listed below. An application for the degree must be filed in the Office of Admissions and Records during the last semester of attendance. The application should include a counselor's signature. Refer to the Calendar of Important Dates on page 2 for the deadline dates.

A. Residence

A minimum of 12 units of the 60 units must be completed at Cañada College.

B. Scholarship Requirement

A minimum overall grade point average of 2.0, a minimum 2.0 grade point average in the 60 units submitted for the Associate degree, a minimum 2.0 grade point average in course work taken in the San Mateo County Community College District, and a minimum 2.0 grade point average in units applied to a major must be attained.

Computer Literacy

Computers are an integral part of today's world used in all disciplines and workplace settings. Students who are awarded an AA/AS degree or a certificate from Cañada College should possess the skills to use computers to communicate, design, research and explore so that they are prepared appropriately for transfer or for entry into the workforce. The Cañada College computer literacy requirement provides these foundation computer skills.

1. Satisfactory completion of a minimum of 1.0 units of one of the following: ACTG 190, 196; ART 314; BUS 103 or any BUS course above BUS 417; any CIS course; any COMP course; INTD 363; LEGL 276; TOUR 700 or TOUR 762

or

2. A passing score on the computer literacy test (both written and hands-on)

D. Major

A major consists of a minimum of 18 semester units in a specified field of study. A field of study is understood to be a specific subject with supporting subjects which are intended to balance the training needed in preparation for a major or a particular occupation. Associate in Science degrees will be awarded in the fields of biological and physical sciences or occupational curricula. All students must complete coursework in their major field of study with a grade point average of 2.0 or better. A minimum of twelve units of coursework in the major field must be completed at Cañada College.

When courses required for specific majors are also on the list of approved General Education courses, the courses may be used to satisfy both major and General Education requirements.

E. General Education

The purpose of General Education is to foster the preservation, communication and development of knowledge, the cultivation of wisdom, and the understanding of values that will help ensure the survival of humankind and improve the quality of human life. In support of this purpose, the General Education requirement seeks not only to prepare students who are knowledgeable and well-informed, but to engender in them:

- a taste for learning in a climate of curiosity and wonder
- an independent and critical cast of mind based on a respect for knowledge
- a capacity for creativity and imagination
- a sense of ethical responsibility that includes tolerance, sympathy for humankind, and commitment to improve the quality of life
- a respect for knowledge and ability to think independently and critically

Courses which meet the General Education Requirements introduce students to the variety of means through which people comprehend the modern world.

The subject matter presented in these courses is designed to be general, broad, and frequently introductory, rather than specialized. In order to promote these goals, the General Education requirement incorporates the following curricular objectives:

- to improve the essential communication skills of listening, speaking, reading, and writing based on analytical thinking
- to acquire broad perspectives on the human experience, through a study of both western and non-western civilizations
- to gain an understanding of the principles of natural phenomena, technological developments and the effects they will have on society, the insights afforded by the social sciences into the human experience, the contributions of the humanities to the enrichment of human existence
- to develop sensitivity to the dilemmas facing humankind by an introduction to key social issues of the contemporary era
- to develop the knowledge and understanding of the rights, responsibilities and privileges involved in becoming a participating citizen in a democratic, pluralistic society
- to provide opportunities to gain information which could aid students in making realistic career decisions

F. Ethnic Studies

Educated people celebrate and value cultural diversity. The ethnic studies/cultural diversity graduation requirement of one 3-unit course at Cañada College demonstrates the commitment to include in the education of students the knowledge of the ever-changing diversity of our country. With the fulfillment of this requirement, students have the opportunity to see

themselves and others in the mutually supportive relationship basic to the survival and prosperity of all of us. See page 103 for the course listings.

G. Physical Education

One or more courses in physical education for a minimum of 2 units is required for an AA/AS degree. This requirement will be waived or modified for students in the following categories:

- graduates of community colleges or other accredited colleges and universities
Evening/Saturday/Off-campus Center students: Students who have completed a minimum of 60% of the coursework units submitted to fulfill the Associate degree requirements in the evenings, Saturdays, or at a Cañada College Off-campus center
- veterans with one or more years of service
- persons excused for medical reasons

Waivers other than for the reasons stated above should be sought following regular college procedures via the Academic Standards Committee or the College President.

AA/AS Degree and Certificate Applications

The Office of Admissions and Records processes all petitions and determines eligibility for the Associate in Arts and Associate in Science Degrees and Certificates offered at Cañada College. Eligible graduating candidates must file an application for the appropriate degree or certificate according to deadlines published in the Schedule of Classes and do the following:

- demonstrate completion of at least 54 or more semester units to be in candidate status;
- arrange for all transcripts from other colleges to be placed on file with the Office of Admissions and Records prior to the specified deadline (see Calendar of Important Dates on page 2).

Second Associate Degree

To qualify for an additional associate degree at Cañada College, a student must (1) complete a minimum of 12 units for the degree at Cañada College after the awarding of the previous degree and (2) comply with the appropriate general education requirements for the second degree. In addition, 50 percent of the major course units must have been completed at Cañada College.

UNIVERSITY OF CALIFORNIA TRANSFER COURSES

This list of transfer courses is based on information received from the University of California at the time of publication of this catalog. The university may decide at a later date not to accept some courses, or to add other courses.

NOTE: *Courses listed as transferable may or may not be acceptable to a specific transfer institution to meet the requirements of a Major. Consult with a counselor before planning your program.*

A student planning to transfer to one of the campuses of the University of California can usually complete the first two years of his/her work at Cañada. In some cases, students may wish to make up high school course deficiencies or grade point average deficiencies. It is important to work with a counselor using the general catalog of the University campus the student wishes to attend. The current issue of the University publication "Prerequisites and Recommended Subjects" is a helpful planning guide. It lists the requirements for admission, breadth requirements and requirements for the major, all of which the student should carefully consider in planning for his/her program at Cañada.

Students should note that not all Cañada courses are designed for transfer to the University of California.

ACCOUNTING

The Business Department offers a transfer curriculum to a four-year university, an AS Degree, and a certificate program designed to give the students both formal and practical training in accounting. The accounting four-year college/university transfer program is the same as the business administration transfer program. The accounting AS degree and certificate programs are designed to give students enough practical experience so that they can secure a position in either the public, governmental, or private accounting sector when they have completed the recommended 27.5 - 29.5 units. Courses specifically required for the student's major must be evaluated by a letter grade, not by the credit (CR) grade.

RECOMMENDATIONS

It is recommended that students who have not completed a bookkeeping course in high school, who have had no accounting experience, or who feel they would have difficulty in completing a college-level accounting course enroll in ACTG 100 prior to taking any of the core courses in the program. In addition, any student who has not completed business math or algebra in high school with a C or better, should enroll in BUS. 115 (Business Mathematics) concurrently with any of the courses in the certificate program.

CAREER OPPORTUNITIES

The accounting profession offers many opportunities to an individual who has completed either a BA Degree, an AS Degree, or a Certificate Program. For those individuals who go on to a four-year university, career opportunities are available as a certified public accountant in the governmental sectors and in other accounting positions. For those individuals who complete an AS Degree and/or a certificate there are positions available as bookkeepers, accounts payable and accounts receivable supervisors, and general ledger and payroll supervisors. These opportunities offer a wide range of salaries and job advancement.

ANTHROPOLOGY

Anthropology is the study of peoples of the world from prehistoric to contemporary times. It is concerned with the variability of human populations and their biocultural history. Physical Anthropology concentrates on various biological characteristics, and Cultural Anthropology focuses on socially learned traits.

CAREER OPPORTUNITIES

In addition to careers as a cultural or physical anthropologist, students might become ethnologists, archeologists, or linguists. Other possibilities include environmental impact analyst, museum curator, redevelopment specialist, ethnic relations specialist, expedition guide, industrial consultant, urban planner, exhibit designer, population analyst, social services consultant, and cultural resource manager.

TRANSFER PROGRAM

Most job opportunities in anthropology require a BA or advanced degree. Anthropology courses must be evaluated by a letter grade, not by the credit (CR) grade.

Twenty-one units of General Education, 2 units of Physical Education and a major are required. The major in Anthropology consists of a minimum of 18 semester units selected from the Recommended Transfer Program. For students planning to transfer to four-year institutions, fulfillment of lower-division requirements for the institution of their choice will be considered a major.

ART

The Art Department at Cañada College affords a unique experience to the serious student seeking a sound foundation in aesthetics and skill development. The faculty is composed of artist-teachers whose personal sensibilities range from the Classical to the Expressionist. The program has been designed to offer a continuity of study through structured courses based on the life-time experiences of each of the artist-teachers. The ultimate goal of the program is to support each student in the search for

AA DEGREE - ART

Students wishing an AA degree in Art must complete 60 units of lower division college work with a minimum overall grade point average of 2.0. Twenty-one units of General Education, 2 units of Physical Education, and a major are required. The major in Art consists of a minimum of 18 semester units in the specified field of study. A field of study is understood to be a specific subject, with such supporting subjects as may properly be used to round out that training in preparation for a major. For students planning to transfer to four-year institutions, fulfillment of lower-division requirements for the institution of their choice will be considered a major.

BIOLOGICAL SCIENCES

A major in Biological Sciences is a preparation for advanced academic work, for careers in civil service, industry, or teaching; as a background for professional training in such fields as biological science education, biotechnology, nursing, public health, environmental health, pre-medicine and all related areas of biology. Natural resources are among the most important assets of man and the wise use of renewable resources is basic to development in the economic, social and political areas. The basic pre-professional requirements necessary to transfer are offered in the Biological Sciences, Physical Sciences, and Mathematics Departments.

Pre-professional students should check the specific requirements of the school to which they will be applying prior to defining an exact pre-professional course of study.

CAREER OPPORTUNITIES

Biological Sciences and Applied Fields: Agriculture, Biotechnology, Physiology, Microbiology, Botany, Entomology, Zoology, Public Health, Medical Technology, Fisheries, Forestry, Natural Resources, Range Management, Wildlife Management.

Pre-Professional Programs: Medicine, Dentistry, Veterinary Science, Optometry, Nursing, Physical Therapy, Dental Hygiene, Pharmacy, Medical Lab Technician.

TRANSFER PROGRAM

The transfer program outlined below will prepare students for most transfer majors in the biological sciences and related fields. Since specific requirements may vary, students intending to earn a baccalaureate degree in the biological sciences should consult their counselor and catalog of the institution to which they wish to transfer early in their academic career. Requirements vary depending upon the transfer institution and the major or area of concentration. Course prerequisites and the sequential nature of the coursework require that students carefully plan out in advance their entire transfer program.

RECOMMENDED TRANSFER PROGRAM PRE-PROFESSIONAL PRE-DENTISTRY, PRE-MEDICINE, PRE-PHARMACY, PRE-OPTOMETRY, PRE-VETERINARY

Recommended High School Preparation: Chemistry, Physics, Biology, four years of college preparatory Mathematics.

Completion of at least 90 semester units is the minimum requirement for admission to schools of medicine, dentistry, optometry and veterinary science; completion of 60 units is required for admission to a school of pharmacy. However, the majority of students admitted have earned a baccalaureate degree. In addition to completing the pre-professional curriculum, students should plan their programs to complete the requirements for earning a baccalaureate degree. The program outlined below includes the basic pre-professional requirements for most schools. Certain professional schools may require additional courses such as foreign language, statistics, and organic chemistry. Requirements vary from school to school, so students are advised to consult early in their academic careers with those professional schools which they wish to attend. Students are advised to consult current catalogs and visit the institutions to talk directly with academic advisors.

DRAMA

The Cañada College Drama Department presents a program rich in depth and diversity. Students pursuing a career in the theatre arts or simply desiring creative expression, will find in the drama department, a wide array of pertinent courses, as well as an extensive opportunity to put their developing knowledge and talent to work in performing on stage, in technical work, or in both. Because the department usually produces five plays during the year, a student has the opportunity to work with at least two different directors and in plays ranging from comedy to heavily dramatic works.

The Cañada Drama Department can point with satisfaction to a significant and steadily growing number of its former students who go on to professional stage, movie, and television work performing, producing, and technical and also to the many gratified amateurs.

It should be emphasized that the drama program is designed for students of all levels of experience--beginning, intermediate, and advanced.

CAREER OPPORTUNITIES

Actor, Actress, Agent, Costume Specialist, Critic, Floor Manager, Lighting Designer, Make-up Artist, Motion Picture Narrator, Musical Director, Playwright, Producer, Programmer, Publicity Specialist, Radio/TV Announcer, Scenic Designer, Set Builder, Sound Effects Technician, Stage Hand, Story Teller, Teacher, Theatre Manager.

TRANSFER PROGRAM

Many job opportunities in Drama require at least a BA degree. Students can fulfill lower division major requirements, as well as General Education, including lower division social science, science, and humanities requirements at Cañada.

Twenty-one units of General Education, 2 units of Physical Education, and a major are required. **EARLY CHILDHOOD EDUCATION/
CHILD DEVELOPMENT**

Contact: Dianne Eyer
Phone: 306-3295

The Early Childhood Education/Child Development Program is designed to meet individual career goals, foster positive parenting skills, and increase individuals' general understanding and appreciation of childhood. Children's growth, developmentally appropriate practice, and professional development within the child care field are major aspects of the program. The child from birth to ten years is the primary focus. Current research and practical applications are combined in order to assist students in planning their most effective role with children.

Early Childhood Education/Child Development students have busy and varied schedules. Courses are offered mornings, afternoons, evenings, and weekends. The program makes every effort to schedule classes to meet the diversity of students' needs and to encourage students to plan ahead in order to complete specific requirements. Any student in the ECE/CD Program may complete the certificate program in one year if a minimum of 12 units is taken each semester.

Students coming from other colleges and universities may have equivalencies established if "child" is in the title of the course and no "Elementary Education" designation exists. All courses that apply toward the certificate

^o See page 34 for complete certificate requirements.

program must be lower division work. A minimum of 12 units must be taken at Cañada College to receive the Cañada College ECE certificate. A minimum of a "C" grade in all course work is required. Core curriculum courses may also be taken at the College of San Mateo and Skyline College.

CAREER OPPORTUNITIES

Career opportunities in early childhood education include preschool teacher or director, child development specialist, infant caregiver, family child care, parent education/adult education instructor, birth educator, group home worker, community worker in a child abuse program, migrant program teacher, hospital playroom supervisor, children's books representative, and adoption counselor. Depending on the particular career interest, students may need to pursue advanced education.

It is predicted that related subject areas may be particularly supportive to an ECE/CD background. These include: infant development, nutrition, special education, and microcomputers for curriculum development. Students considering their own ECE/CD business would be wise to consider course work in accounting and money management.

TRANSFER PROGRAM

Students planning to transfer to four-year colleges and universities should consult those catalogs for additional information concerning Early Childhood Education/Child Development. Course work should be planned to meet the lower division general education requirements. Courses must be evaluated by a letter grade, not by the credit (CR) grade.

RECOMMENDED TRANSFER PROGRAM - EARLY CHILDHOOD EDUCATION/CHILD DEVELOPMENT

Courses required for transfer may vary. See your counselor for courses required for a transfer program to a four-year college or university.

CERTIFICATE PROGRAM - FAMILY DEVELOPMENT*

The Family Development Certificate (FDC) is an interagency strategy that focuses on teaching frontline workers to use well-researched, empowered oriented family support model of practice. Workers learn the skills and competencies necessary to build partnerships with individual families to attain healthy self-reliance and interdependence. FDC's process helps agencies work with families more effectively, foster collaborations, reduces duplication and provides immediately useable professional development for workers.

The Family Development Certificate is the first in a series of certificates. Following is the Community Health Worker Certificate which leads to the Human Services Certificate which, in turn leads to the AS degree in Human Services. Finally, students may earn a BA degree in Social Work from San Francisco State University. See the Social Sciences Program on pages 68-69 for the requirements for these programs.

TEACHER AIDE/INSTRUCTIONAL ASSISTANT

State approval for this program is pending. For current approval status, call 306-3201.

Teacher Aides/Instructional Assistants work under the direction of an assigned certificated teacher in elementary and middle schools to provide instruction to individuals or small groups of students. Other duties include monitoring and reporting a student's progress, preparing materials for the classroom, and performing duties in support of classroom activities.

Students who wish to transfer to four-year colleges and become credentialed teachers should complete forty units from the California State University General Education or the listed requirements for a California State University Liberal Studies Degree Program. These forty units may also be used for meeting Cañada College General Education requirements and electives. See your counselor for assistance in selecting courses.

CHILD DEVELOPMENT PERMIT

Cañada College's ECE/CD Certificate Program is aligned with the Child Development Permit regulations. The Permit has been approved by the California Department of Education and the Commission on Teacher Credentialing for child care and development centers operating under Title 5 (publicly subsidized).

The Child Development Permit emphasizes professional development and will eventually impact the entire Early Childhood Education field. The restructured Permit helps address the staff training requirements which exist in the Title 5 and Title 22 regulations. The career lattice approach acknowledges the importance of many entry points into the profession. The Child Development Permit will take the place of the Emergency Children's Center Instructional Permit, the Children's Center Supervision Permit, and the Life Children's Center Supervision Permit.

NOTE: Students interested in a career in Elementary School/Primary Grade classroom teaching should pursue a Liberal Arts/Studies major, not a major in Early Childhood Education and should consult the catalogs of four-year colleges and universities.

Students master basic grammar and gain proficiency in understanding, speaking, reading, and writing the target language. Four levels of conversational language courses are offered in French, German, Italian, and Spanish.

The Interior Design Department offers courses designed for individuals interested in preparing for careers in the professional fields of interior design. Included in the program are a transfer program, an AS degree, and three certificate programs--residential, commercial, and kitchen and bath design. The AS degree in conjunction with the residential, commercial design or kitchen and bath certificate meets the minimum qualifying requirements for the American Society of Interior Designers (ASID) allied membership. Interior Design students are required to complete the core requirements in Interior Design *before* taking the residential, commercial design and kitchen and bath certificate requirements. If a student has an earned Bachelor's degree, he/she must see a counselor regarding courses completed during the first two years of college that may be substituted for core requirement courses.

CAREER OPPORTUNITIES

The opportunities for an individual in the interior design profession fall into three major categories: (1) residential interior design, (2) commercial (contract, office, retail, hospitality, industrial) design, (3) kitchen and bath design. Interior designers work as self-employed designers, consultants, designers in design firms, and home furnishings departments and/or retail outlets. Opportunities exist in merchandising, sales, manufacturing, fabricating, importing, exporting, and in wholesale and retail businesses.

MATHEMATICS

Mathematics provides the foundation for studying engineering, the physical, biological and health sciences, economics, business, computer science, statistics and many other fields. A major in mathematics itself opens up job opportunities in many fields since mathematical problem-solving skills are widely applicable. Thus, people with mathematical degrees work in fields such as accounting, budget and financial analysis, market research analysis, demographics, banking and finance and systems analysis, and many others.

CAREER OPPORTUNITIES

The Mathematics major may be used as a basis for professional careers in Business, Civil Service, Industry, Research, Science and Teaching; as a preparation for advanced work in Mathematics or Engineering; or as a basis for an entry position in Computer Science.

TRANSFER PROGRAM

The Mathematics Department offers a wide variety of courses for students who wish to major in Mathematics enabling them to transfer to a university or four-year college at the end of the sophomore year. Students should consult the catalogs of the colleges of their choice for special requirements. In addition to the courses listed, students must complete General Education transfer requirements.

The Art Department's Multimedia Art and Technology Certificate prepares students for entry level positions as graphic designers, production art designers, web designers, and production assistants in animation, video, and multimedia product development such as game development, interactive CD presentations, and digital video. Students utilize the latest digital tools to create multimedia ("...the combination of one or more of the following: text, graphics, animation, sound, and motion video." - *Graphic Artists Guild*) based on a strong foundation in design, composition, perspective and other traditional art skills. These are the job skills that the digital industry is looking for when hiring. Our students vary in their needs and goals. They may be novices looking for entry-level jobs in the design industry, computer and graphic design professionals needing to upgrade skills, employees who have been asked to add the creation and maintenance of a web page to their job responsibilities, students interested in creating their own web site, to those looking to begin an academic design major.

Certificate is pending state approval. For more information, call (650) 306-3336.

MUSIC

"In a world of political, economic, and personal disintegration, music is not a luxury but a necessity, not simply because it is therapeutic nor because it is the universal language, but because it is the persistent focus of man's intelligence, aspiration, and good will." - Robert Shaw.

The Music Department at Cañada College, through its outstanding faculty, places strong emphasis upon performance, both individual and group. At the same time, the department offers the general student enhanced understanding and appreciation of all forms of music. Through this two-fold approach, the department's purpose becomes clear: to promote excellence in all aspects of music performance and academic course work,

PHILOSOPHY

Philosophy is a disciplined reflection on the human condition. It can be an analysis and criticism of ideas and statements, or an attempt to synthesize all experience and knowledge, or an exploration of the meaning of life and how best to live it. Critical thinking is developed while examining peoples' responses to fundamental questions.

CAREER OPPORTUNITIES

As a profession, philosophy is virtually limited to those who teach and write it. It provides, however, a basis for a broad liberal arts education, valuable for its own sake, as well as preparation for careers in related professional humanistic or social disciplines. Philosophy serves as good preparation for careers in law, management, publishing, ministry, library science, labor relations, medicine, government administration, educational research and broadcasting, social work, and data processing and information systems.

PREREQUISITES and COREQUISITES

A *prerequisite* is a "condition of enrollment that a student is required to meet." Usually, a prerequisite is a course which must be completed successfully before enrolling in a course which follows. For example, French 110 is a prerequisite for French 120. In order to successfully complete a course a grade of "C" or better must be earned in the designated course. A *corequisite* is a course that a student is required to take concurrently with another course. For example, to take English 800, students must enroll also in Writing 802, a corequisite.

Students may challenge a prerequisite and/or corequisite. Bases for challenge are as follows:

1. prerequisite was not established by the adopted district process
2. prerequisite was established in violation of Title 5
3. prerequisite is discriminatory or applied in a discriminatory manner
4. student has the knowledge or ability to succeed despite not meeting the prerequisite
5. student will be delayed because prerequisite course has not been made reasonably available

Students who challenge a prerequisite and/or a corequisite must base their challenge on one of the conditions listed above. Students need to follow the procedure below to challenge:

1. Secure the Prerequisite Challenge Form which can be obtained from the Office of Counseling and Matriculation or the Office of Admissions and Records. The completed form/ request, which requires a signature from the appropriate Division Dean, must be submitted prior to the first day of the semester.
2. The Academic Standards Committee will review the petition and provide written notification of the committee's decision to the student within five working days.

Course Prerequisites

Course prerequisites and/or other requirements must be taken prior to enrolling in a course for which they're specified. Students should bring transcripts of other college or high school work if they want work at other institutions to be counted as a prerequisite. IF students have questions/concerns about course prerequisites, they should consult their counselor to discuss qualifications.

BASIC SKILLS ADVISORY SYSTEM

A Basic Skill Advisory refers to the recommended skill level in reading, writing, and/or mathematics which is needed *before* enrolling in a course. In order to succeed in most courses, students need to demonstrate at specific levels reading and writing skills and, for some courses, perform mathematical operations *before* enrolling. Designating these basic skill levels informs students at which *minimum* levels they need to perform before enrolling in the target courses.

Basic skill levels are recommended rather than mandatory, but students are strongly encouraged to adhere to them and follow the advice of their counselor. Counselors use placement test results and other information to determine whether a student needs to raise his/her skill levels before enrolling in a target course.

Open Curriculum

Some courses are designated as OPEN CURRICULUM (OC) courses. This designation means that specific levels of reading, writing and/or math are not required for successful course completion. Most OC designated courses are activity courses which do not require students to use reading, writing, and/or math skills. Some OC designated courses are entry level reading, writing, and/or math courses. Specific levels of proficiency for enrollment in these courses are not designated because students may begin at their current instructional levels and proceed to higher levels of performance until they reach exit levels for course completion. Some of these courses, however, such as READ 801, ENGL 801, and MATH 811 may require that placement test results and other information be on file prior to the first day of class.

Recommended Basic Skill Level Summary:

- Level 1 Students must be eligible for READ 802 and ENGL 800
- Level 2 Students must be eligible for READ 420 and ENGL 100
- Level 3 Students must be eligible for ENGL 110
- Math 2 Students must be eligible for MATH 111
- Math 3 Students must be eligible for MATH 110
- Math 4 Students must be eligible for MATH 120 or MATH 122

*If ENGL 100 is a COURSE PREREQUISITE for a particular course, students must take the course. An appropriate English Placement Test score does not apply in this case.

Math 2 (M2)

If a course is designated as MATH 2 or M2, students must be eligible for MATH 111. This means that students need to demonstrate the ability to perform basic arithmetic operations successfully. MATH 111 and 112 cover elementary algebra offered in two semesters.

In order to demonstrate proficiency at the M2 level, students may attain an appropriate Placement Test score in math or they may complete successfully MATH 811 (Pre-algebra).

Math 3 (M3)

If a course is designated as MATH 3 or M3, students must be eligible for MATH 110 which covers elementary algebra in one semester. This means that students need to demonstrate the ability to perform basic arithmetic operations successfully.

In order to demonstrate proficiency at the M3 level, students may attain an appropriate Placement Test score in math or they may complete successfully MATH 811 (Pre-algebra).

Math 4 (M4)

If a course is designated as MATH 4 or M4, students must be eligible for MATH 121 or 122. This means that students need to demonstrate ability to perform basic algebraic operations successfully.

In order to demonstrate proficiency at the M4 level, students may attain an appropriate Placement Test score in math or they may take MATH 110 or MATH 111 and 112.

Note: If any of the math courses specified above are designated as PREREQUISITES for a particular course(s), students must take the courses specified. Appropriate Placement Test scores in Math do not apply in this case.

CREDIT VALUE

The credit value of each course in semester units is indicated just under the title. A semester unit of credit is equivalent to one hour of the student's time per week in lecture for semester length courses with two hours per week in study and preparation, or three hours per week in laboratory or activity courses.

CALIFORNIA ARTICULATION NUMBER (CAN)

The California Articulation Number (CAN) identifies some of the transferable lower division, introductory courses commonly taught within each academic discipline on college campuses. The system assures students that CAN courses on one participating campus will be accepted in lieu of the comparable CAN course on another participating campus. Counselors will provide interested students with a list of participating institutions.

The CAN system is new and growing and designed to facilitate student transfer between and among public institutions of higher education in the State of California. CAN numbers are listed parenthetically after the course descriptions in the listing of courses. Courses

PARKING

Parking anywhere on campus is by permit only, in clearly designated areas. The Cañada College campus consists of all parking lots and access roads between Farm Hill Blvd. and Cañada Road. Parking is free Friday nights, Saturday and Sunday.

Student parking permits are available for \$30 per semester and \$20 for the Summer Session and may be purchased during registration or from the Business Office, Building 8, Room 305 during the day, or from the Admissions and Records Office during the evening. Parking permits must be affixed to the rear, left bumper or the lower left corner of the rear window. A second permit may be purchased for \$1 on presentation of current registration certificates from both vehicles showing ownership by the same person.

Students attending class only one day or evening per week may purchase a daily permit each time they come on campus. These permits are available from vending machines for \$1.00 and allow parking in student lots only. Daily permits are to be placed on the left hand side of the dashboard clearly visible to the security officer.

Visitor Parking Lot 4 is limited to one-hour parking only, except in spaces designated for disabled persons. Visitors on official business may request a temporary Visitor's Permit allowing them to park in Visitor or permit lots. They are available from the Business Office located in Building 8, Room 305. No staff or student parking is allowed in visitor Lot 4.

Special parking permits for disabled students, day and evening, are issued by the Business Office, Building 8, Room 305. For further information, call the Enable Center at 306-3490 or the Business Office at 306-3270.

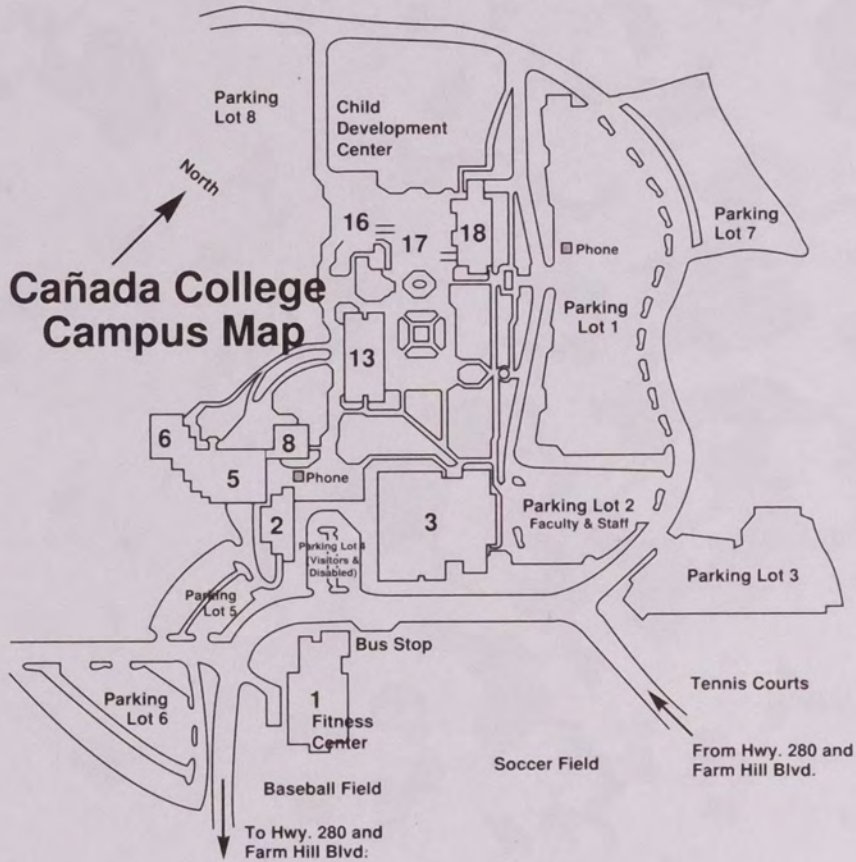

Parking fees are refundable through the second week of instruction in semester-length classes, or the first 10% of the instructional period in less than semester-length classes. During late registration, a grace period will be in effect in student parking lots only, in order to enable students to purchase a permit during the late registration period. Parking regulations are enforced at all times in staff lots and in other restricted areas.

Parking spaces are available on a first-come, first-served basis. Therefore, a permit is not a guarantee of a parking space. Cañada College and the San Mateo County Community College District do not accept liability for vandalism, theft or accidents. Use of parking facilities is at the user's risk. Student parking permits are valid at all three campuses of the SMCCCD.
