ARCHIVE OF DECISIONS

| Date | Decision Made |
|-------------------|---|
| December 15, 2020 | Colts-con will be required of all new, first-time students. It will take place 2 weeks prior to the start of the semester. It will have plenary sessions – important for all – and then have break outs – including breakouts by Interest Areas. JAMS – |
| December 15, 2020 | The criteria below were adopted when considering requests from Programs of Study to be included in more than one Interest Area. IA Faculty Leads will notify those programs affected. Faculty Leads will bring this decision to the Academic Senate (and the Curriculum Committee as needed) |
| January 19, 2021 | Max will add Interest Areas (faculty leads in particular) to the list of special programs VP Karrie Mitchell will invite into the “discovery” phase of CRM design. IA leads will bring in Retention Specialists, Counselors and others to that process as needed. |
| January 19, 2021 | IA leads will join the Colts-Con planning committee; and our antiracism framework/commitments will be included in the planning/workshops |
| February 2, 2021 | IA Leads and Jamie Hui will attend on PEP organizing meeting to determine best ways to further align Interest Areas and Success Teams with PEPs |

Possible standards/reasons for cross-listing a program in two different Interest Areas: (adopted by Steering Committee on Dec. 15, 2020)

1. Are there significant differences in CSU and UC pathways?
 - Example: As explained by Professor Roscelli, economics majors have very different pathways for CSUs and UCs. Economics in CSUs are business-oriented, while economics majors at UCs are aligned with the social sciences. Professor Roscelli shares that this difference is significant enough that students applying for the two different systems should have some significant differences in which courses that are best of taking. Competitive applications to UCs should have more advanced mathematics courses with much less emphasis on Business, and *vice versa* with economics students who plan to transfer to a CSU.
 - Having economics cross-listed in both Interest Areas would provide a visual signifier of this important difference by showing how varied the discipline and program of study is.

2. Would not cross-listing a course lead to potentially significant student confusion or lack of awareness about a program?
 - Example: currently the Paralegal Studies is in the Business Interest Area, while the Law, Public Policy, and Society AA-T is in Human Behavior and Culture. The split makes sense given the paths each degree leads into. But any student interested in one of these programs could very likely be interested in the other program. By separating them in different Interest Areas, a student could easily think the Paralegal Studies was the only law-focused degree offered at our college or conversely with a student who was considering the Law, Public Policy, and Society degree.
