  o Follow-ups after a meeting to see if there are confusions
  o Buddy system: identify a fellow committee member who can provide more immediate answers, feedback, and encouragement

• Practice critical pedagogies when students participate, ensuring students have equal voice (minding potential infantilizing)
  o Every perspective deserves to be understood

Revised by Program Review Work Group, Spring 2022
Resource Prioritization Process

As part of its annual, integrated planning and budgeting cycle, Canada College uses Program Review of its instructional programs, student services and administrative services to identify needed resources and prioritize them. By linking these resource requests to an analysis of program/service effectiveness and alignment with the program, college and District goals, decision-makers can better prioritize the allocation of limited financial resources. Each year, resource requests are compiled from Comprehensive Program Reviews and Annual Updates and submitted to Division Deans. Divisions have primary responsibility for prioritizing resources. Prioritizations are sent to the Planning and Budgeting Council (PBC) which has primary responsibility for certifying that resource requests are prioritized according to the process outlined below.

Non-Personnel Resource Request Prioritization Process

Proposed to PBC by the Program Review Work Group & Approved by PBC in the Spring of 2021

Step One: Programs Rate Level of Priority Upon the Creation of Non-Personnel Resource Requests

As program review authors are entering their resource requests into Improve, they will use the ‘Resource Priority Ranking’ field to prioritize their program’s non-personnel resource requests (High, Medium, or Low Priority). This initial prioritization happens at the program level and will be included on the resource request spreadsheet that will then be reviewed and prioritized by the Division.

Step Two: Divisions Ensure Requests Meet Minimum Criteria

College Divisions must make it possible for the College to accomplish its Mission and improve its institutional effectiveness and academic quality. The Program Review planning and resource prioritization process should address the short- and long-range needs for educational programs and services and for human, physical, technology, and financial resources.

Divisions must consider all of the information gathered in the resource request spreadsheet to further prioritize all of the Division’s non-personnel resource requests. If Divisions use additional information to prioritize their non-personnel resource requests, they must reference the information and the manner in which it was collected. Important data to reference and document includes:

- The context for the resource requested (included in the comprehensive program review or annual update)
- Does the resource(s) requested support the program’s goals?
- Do the program’s goals support the achievement of the College’s Mission?

PBC Role in Resource Prioritization

As part of the Program Review resource request process:

For New Personnel Requests:
• Host an all-governance group meeting where programs can make presentations about new positions needed. Host a college-wide discussion of strengths and weaknesses for the position proposals. All members of the college community are invited to participate in the discussion.

For Non-personnel Requests:
• After Divisions complete the process of prioritizing resource requests, PBC must certify that the prioritization process has been followed. PBC will collect a brief summary of the process used by each Division from a Dean and a Program Review Author (representative) from each Division. The summary includes answers to the following questions:
  • Do all prioritized resource requests align with and support the College’s Mission, Vision and Values?
    • If No, please explain.
  • Please provide a brief summary of how your Division went about the resource request prioritization process during this cycle. Include any rubrics, tools, or other information you considered during your process.

• Once PBC certifies the process, forward the non-personnel requests in priority order to the President.

Institution-Set Standards

California College strives continually to meet and surpass all of the standards set by the Accrediting Commission for Community and Junior College (ACCJC) and the Western Association of Schools and Colleges (WASC). ACCJC Standard R.3. reads, “the institution establishes institution-set standards for student achievement, appropriate to its mission, assesses how well it is achieving them in pursuit of continuous improvement, and publishes this information.” Each year, to meet this standard, California College reviews how well it measured up against its set standards and sets new goals for the future. These reports can be found here and are discussed periodically at the College’s Planning and Budgeting Council (PBC), College Cabinet, and Academic Senate meetings.
