

PRIE Data Dashboards for Instructional Program Review

Feel free to contact the PRIE Office with any questions: canprie@smccd.edu

Accessing Dashboards

The dashboards are located on PRIE’s website, pictured below. I have also linked them [here](#).

Office of Planning, Research, and Institutional Effectiveness (PRIE)

Overview

Welcome to the Office of Planning, Research and Institutional Effectiveness (PRIE) at Cañada College. Reporting to the College President, our work is driven by the Mission, Vision, and Values of the College and is dedicated to supporting the institution's Educational Master Plan and strategic priorities as outlined in the Annual Strategic Plan.

We provide support in the area of research, strategic planning, student learning outcomes, administrative systems, accreditation, and governance processes to help faculty, staff, and administrators better understand and serve our community and our students. We support the planning and decision-making process at Cañada College that focuses on student success. All research conducted and used for dialogue, reflection, planning and decision-making comes from data that are tested for validity and significance, and derived from reliable sources.

Featured Items

Cañada College Internal Equity Report 2022

Data Requests

PRIE provides guidance, research, data analysis in support of student learning outcomes, institutional outcomes, planning

The three main dashboards at the top are the Student Enrollment, Course Outcomes, and Equity Dashboard.

Cañada College Program Review Data Dashboards

Student Enrollment
(Use to answer question 7A in Program Review)

Details

Course Outcomes
(Use to answer questions 7A, 7B, 8A and 8C in Program Review)

Details

Equity Dashboard
(Use to answer question 8B in Program Review)

Details

- **Student Enrollment** provides Headcount and enrollment information that can be disaggregated by demographic variables.
- **Course outcomes** details many metrics about a given department or course, such as Success Rate, Retention rate, FTES, FTEF, LOAD, section counts, and Fill rates. This also allows for examining course level outcomes by demographic variables.
- **Equity and Disproportionate Impact** provides analysis of Disproportionate Impact across Access, Success, and Withdraw rates. Disaggregated items in red text are showing statistical Disproportionate Impact for that subgroup.

General Dashboard Features

Most dashboards will have both **Filters (1)** and **Disaggregations (2)**. A filter will *remove* data from the dashboard. E.g., unchecking 2017-2018 in the Academic Year filter will remove that whole year's worth of data. This is how you drill down to specific Divisions/Departments/Courses. Filters will always be black text with a white background.

Disaggregations allow you to compare the given data across a given metric. In the above picture, Headcount is being disaggregated by Race/Ethnicity, allowing comparison of headcounts across the

race/ethnicity variables. Disaggregations will always be black text on a green background, to distinguish them from standard filters.

Some dashboards have multiple pages. This is displayed at the top of the dashboard, and each of these sections is a different page. The current page will be displayed in white (Overall Outcomes in this example).

Program Review Questions

7A – general information on Enrollment trends and trends disaggregated by demographics can be found in **Student Enrollment**. FTES and LOAD information can be found in **Course Outcomes**.

7B – In addition to the trend data described above, Course level offerings can be found in **Course Outcomes** in the “Course Details” tab.

8A – In addition to the data packets, **Course Outcomes** has multiple different ways to examine completion and success rates. Overall department success and retention can be found on the “Overall Outcomes,” while individual courses can be compared in the “Course Details” tab. Course outcomes can also be compared by different demographics in the “Outcomes by Demographics” tab. Finally, the distributions of different grades can be compared in the “Grades over Time” tab.

8B – The **Equity and Disproportionate Impact** dashboard provides the DI information for Access, Success, and Withdraw rate disaggregations. The data in the packets was pulled from this dashboard.

8C – In addition to the data packet, this information can be found in the **Course Outcomes** dashboard by disaggregating on contact type.

Student Enrollments

To examine enrollment and headcount trends, first select your department(s) and then select a variable to disaggregate on. The disaggregation will create a line in the graph, and a row in the table for each level of that variable (e.g., one line and row for each race/ethnicity as pictured). Flat lines indicate stable enrollment or headcount, while increasing or decreasing lines indicate a trend of increasing or decreasing enrollment or headcount.

Course Outcomes

Overall Outcomes

Time Detail	Disaggregation	Course Census En.	Success	Success Rate	Retention	Retention Rate	Total FTEF	Total Ftes	Total Wsch	Avg. Total Load	Section Count	Max Enrollment	Fill Rate
2017-2018		29,724	21,605	72.7%	25,071	84.3%	233.34	3,624.2	108,725	386	1,029	39,061	76.1%
2018-2019		28,604	20,873	73.0%	24,367	85.2%	228.75	3,502.4	105,073	387	1,002	37,882	75.5%

Success Rates

Retention Rates

In the **Outcomes by Demographics** tab you can examine the longitudinal Success and Retention rates for multiple demographic sub-groups in a similar manner to the **Student Enrollment** dashboard with each subgroup getting a separate row in the table and line on the chart. You can also filter out different demographics. For instance, if you select Race/Ethnicity in the demographics and filter to just Males, you can examine trends for Male students of the various Race/Ethnicity subgroups.

Grades over Time

Academic Year	A	B	C	D	F	NP	Others	P	W
2017-2018	11,535	6,445	3,602	1,184	2,230	101		373	4,723
2018-2019	11,349	6,114	3,498	1,048	2,417	78		333	4,298
2019-2020	11,355	5,543	2,883	827	1,590	1,151		553	4,561
2020-2021	11,896	4,954	2,388	767		2,359	11	470	4,197
2021-2022	10,390	4,245	2,221	693	978	1,352	241	418	3,461

2019-2020, 2020-2021, and 2021-2022 grades may not reflect previous data due to the impact of Covid-19

Grade Graph

Counts under 10 have been suppressed to protect student privacy.

In the **Grades over Time** dashboard you can view the breakdown of grades by Department or Course number.

Interest area: (All)

Division: (All)

Department: (All)

Course Number: (All)

Contact type: (All)

Time of Day: (All)

The **Equity & Disproportionate Impact** dashboard will show any disproportionate impact that exceeds the Margin of Error in the Access, Success, and Withdraw rate metrics. The margin of error is related to the sample size in question, so smaller populations have larger Margins of Error. Once you have selected your Department(s) and optionally specific courses, you can use the disaggregation to explore any disproportionate impact that may appear. If the gap between the subgroup and the average rate is greater than the Margin of Error, the text will be displayed in **red**, indicating Disproportionate Impact (Show for Black – Non-Hispanic and Hispanic students for the Success Metric and Black Non-Hispanic students for the withdraw rate metric).

Access is an indicator of what student subgroups are enrolling in your courses, based on unique student counts. Success is the rate at which different student subgroups pass courses and is based on enrollments. Withdraws is the rate at which a student withdraws from a course, and higher numbers are worse, as they indicate greater withdraw rates.
