SERVICE

- We are a team and rely on each other to keep center running smooth
- Communicating with one another in a daily basis is vital in order to provide a better service for students, faculty and staff
- Practicing honesty and active listening is one of the most effective ways to to keep holding effective meetings. Holding ourselves accountable can help us all learn from each other's mistakes as a team.

★ Organize and Prioritize.
Make lists/schedules to make the most out of your time.

I feel strongest in multitasking. This skill has been developed during our busiest days and has challenged me to be an effective person/employee.

LEADERSHIP:

My **GOLD** personality means that I follow the rules and respect authority, and shows my strong sense of acknowledging what is right and wrong in life. Like at work, I provide stability and can maintain organization. My ability to handle details and to work hard make me a strong piece to the puzzle.

Attending the Sexual Assault Awareness Day I got the most out of this semester

COMMITMENT

Being involved in Student Life has definitely changed me for the best. It has allowed me to grow as a person and developed skills that I never thought I had within me, including Leadership, Critical Thinking and my Confidence.

Poverty is one of the main social issues that affects our students. It is hard to watch how so many young bright people struggle to remain in school because of the lack of ? and therefore have to give up on their dream to graduate and be successful in life. This is because of unequal government regulations that involves laws and regulations that purposefully or otherwise, discriminate a group from the same opportunities and resources based on differences that are unique to that group. We have come along way but still have much needed work to do
