1. **Call Meeting to Order**
2. **Land and Labor Acknowledgement _ Read by Math Club**

We acknowledge that Cañada College is situated on the traditional unceded land of the Ramaytush (Rah-my-toosh) Ohlone (OhLOW-nee) peoples, and we respect our past elders and honor the present community. Long before Cañada College existed, this area was home to the Ramaytush Ohlone peoples, who still have a presence in the Bay Area today.

We have a responsibility to acknowledge that we as a Cañada community have benefited from the use and occupation of this land and that the tragic legacy of colonization, genocide, capitalism, racism, and oppression still impacts people today.

We also recognize the labor upon which this educational institution, state, and country is built. We acknowledge the peoples of African ancestry who were enslaved and forcibly brought to this land, and whose forced labor played a major role in the formation of this country. We are indebted to their uncompensated labor and their unwilling sacrifice over hundreds of years—which continues to impact generations today. We honor the legacy of the African diaspora and the continued contribution of their survivors.

We acknowledge the contributions of all immigrant labor, forced labor, and undocumented people who contributed, and continue to contribute, to the building and feeding of this land. We acknowledge their immeasurable sacrifices and work that allow us to gather in this space today.

Let us not forget. Let us honor and engage with the people who have stewarded and labored on this land for generations, and let us honor these truths—by taking responsibility as a college community to continually educate ourselves about these realities, to affirm our commitment to justice through continual action, and to protect and sustain this land.

Yixin (Eva) Liu calls the meeting to order at 4:13pm.

6. Activating a Club

We will activate your club on the condition that the club president,

liaison and club advisor take the training by March. 17th to become an official club.

MESA Club - MESA Club is here to connect students that are low-income first-generation STEM students with opportunities in STEM that may not be available without exclusive connections provided through being a member of MESA Club.

Canada Car club moves to approve the activation of MESA club.
second by ESL club.
This motion passes.

Chemistry Club - We provide a space for everyone interested in chemistry to have a place to safely explore the field. We do this by reading scientific journals and creating planned study spaces to support all students learning from General Chemistry 1 through Organic Chemistry in person and virtually. Plan chemistry experiments and learn the scientific process hands-on. From the inception of an idea, research, proposal, financial, safety, execution, analysis, and presentation. Connect students with mentors from various STEM businesses and other teaching and research facilities.

Math club moves to approve the activation of MESA club.
second by Women in STEM.
This motion passes.

Colt Barbell Club - our purpose is to build a community for students to promote camaraderie and a healthy lifestyle.

Canada Car club moves to approve the activation of Colt Barbell club.
second by Start up club.
This motion passes.

Know Thy Shelf - In this club, we aim to foster both a love for reading and a passion for writing. Our goal is to create a supportive and safe space for those who seek a more guided writing experience, complete with prompts, constructive feedback, and the opportunity to have your work featured — either with your name or anonymously (terms and conditions may apply). We'll also explore poetry and short story analysis, diving deeper into the essence of writing. Plus, we always welcome poetry and story recommendations from our members, ensuring that the club reflects what you want!

Start up club moves to approve the activation of Know Thy Shelf.
second by Chem club.
