What is a Transfer and Transfer Program?

Transfer is to prepare students for four-year universities by offering transferable courses and services. Preparing for transfer to a four-year university involves completing required lower division courses in the major and general education.

What are the transferable courses? Courses that are acceptable by other universities and may be used toward a degree at four-year universities. These courses are comparable to courses at baccalaureate level.

ASSIST is the official repository of articulation for California's public colleges and universities and provides the most accurate and up-to-date information about student transfer in California www.assist.org.
